The wristwatch is the only jewellery that most men will wear, although many would not want to call it that. A watch may be a practical device for the sole purpose of telling the time as accurately as possible, a complicated machine, a wearable design object, or a status symbol. Some watch

wearers, like scuba divers or pilots, rely on their timepieces for safety and survival. Gene Stone's *The Watch* covers all these things and more. It ranges over the world of watches without prejudice, mixing the old with the new, and the expensive with the economical. It introduces the fifty major brands that any watch collector must be familiar with. Essential wisdom on buying, collecting, maintaining and wearing watches is provided. And an encyclopedic glossary offers a crash course in watch lore. Best of all are the more than 500 photographs of terrific watches, including remarkable details of dials and movements, and selected for their beauty and diversity from collections around the world.

McManus, called "smart, suspenseful, and unpredictable," comes a psychological thriller about a girl who must keep her arsonist ways hidden--or watch her life go up in flames like a wildfire. Jenny didn't want to move to the creepy, possibly haunted town with her dad. But the cops are on to her, and the only way she can protect herself is by moving as far away from her hometown as possible and staying out of trouble. But even after she moves, Jenny still gets the itch. The itch to light a match and then watch it burn. It's something she hasn't been able to stop, ever since an accident years ago. Now, in a new town, Jenny has the strange feeling that someone

is watching her every move. Will her arsonist ways be exposed? Or is the burning truth deep inside her a greater danger?

The fourth novel in the blockbuster series from one of Russia's most popular authors, *Last Watch* returns us to the hyper-imaginative world of Sergei Lukyanenko, where the endless battle between good and evil is about to reach its climax. Anton Gorodetsky is just getting a feel for his new powers when his boss, Gesar, sends him to assist the Scottish Night Watch in Edinburgh in a murder investigation. A young Russian man has been murdered -- apparently by a vampire. But the mystery is more than it seems, and soon Anton is himself in danger. The murderer appears to be someone with intimate knowledge of the Night Watch. Before long, Anton realizes that a plot is being hatched by the forces of both darkness and light that -- unless he can intervene -- may mean nothing less than Armageddon.

Walking the streets of our cities are the Others. These men and women are guardians of the Twilight, a shadowy parallel world that exists alongside our own. Each has sworn allegiance to one side, fighting for the Light, or the Darkness. But now, beyond the continuing struggle comes a peril that threatens their very world. . . At Moscow airport, Higher Light Magician Anton Gorodetsky overhears a child screaming that a plane is about to crash. He discovers that the child is a prophet: an Other with the gift of foretelling the future. When the catastrophe is averted, Gorodetsky senses a disruption in the natural order, one that is confirmed by the arrival of a dark and terrifying predator. From the Night Watch headquarters Gorodetsky travels to London, to Taiwan and across Russia in search of clues, unearthing as he goes a series of increasingly cataclysmic prophecies. He soon realizes that what is at stake is the existence of the Twilight itself--and that only he will be able to save it.

MEN IN BLACK AT THE REN FAIRE! John Rast went to the Ren Faire looking for a fight. Well, a simulated fight, with blunt swords and safety equipment. But when his final opponent turns into a living, fire-breathing dragon, John finds himself in the fight of his life. It's John or nothing stopping a disaster in its tracks—and the only real weapon at hand is his mom's Volvo. So John decides to let it roll . . . And that's when destiny comes to call. John is spirited away to the well-hidden base of Knight Watch, the organization that stands between humanity and the real nasties the rest of the world doesn't know about. Knight Watch would be John's dream job—except for the storm goddess that destroys his parents' house, the abandoned mall replete with too much dead, and the Fetch that aims to make John's domain a final resting place. All this has John's putative allies in the Knight Watch worried that John is the one bringing bad things into multiple worlds. John and his reluctant teammates have to figure out who, or what, is pulling the strings before all of Knight Watch falls prey to a well-concealed puppetmaster and far worse things enter this world. When you're a leader, you have the watch. Through seven deployments commanding sailors in the complex and dangerous world of nuclear submarine warfare, Jon Rennie experienced a deep form of leadership. On a sub, there is no escape. No "after work." No home to commute to. You live and lead side-by-side with the crew, every day. What Rennie didn't realize was how much his time

underwater prepared him to lead global industrial businesses and startups across multiple industries. Becoming a leader worth following begins--and ends--with people. "This book cuts to the heart of the matter of leadership: it's all about people." Says Joshua D. Cotton, PhD, Founder and CEO, VetStoreUSA With a special foreword by John Brubaker, Author of *Seeds of Success*, Rennie lays out a case for becoming a people-centered leader. Leaders have the watch. They are not only accountable for the results of the organization, but they are also responsible for the people who work for them. Leadership is a people business. The actions of a leader will have a deep impact on the lives and careers of the people they are responsible for. Natasha Goldstein, Founder and CEO, The Accountkeepers says, "As the founder of a fast-growing, people-based business, I could not put this book down. Unlike any other book on leadership I've read, Jon boils it down to what really matters: how you treat people." Great leaders know that employees who are respected, appreciated, and are given the chance to grow will go the extra mile for your organization. This book provides real-world leadership wisdom written from a hands-on perspective. If you want to be a more effective leader, this is the one book you should read this year. "Start becoming a better leader today by reading this book." Says Heather Eason, Founder and CEO, SELECT Power Systems

'The Wristwatch Handbook' provides the reader with a comprehensive anatomy of the mechanical wristwatch; every conceivable function and form. It is the foundational text for the novice and the reference book for the seasoned enthusiast. Where other books about watches focus on advising the collector, on a single brand, or on a timeline of key historical figures and events, 'The Wristwatch Handbook' takes a detailed look at mechanical wristwatch complications (functions) and leaves no stone unturned. The reader will gain the ability to identify a complicated watch from twenty paces and perform a top-to-bottom assessment of even the most exotic timepiece in a matter of seconds. Despite the functional obsolescence of the mechanical wristwatch (our phones, computers, even microwaves tell more accurate time), there are more varieties of mechanical watches available than ever before. Today, innovation is no longer exclusively preoccupied with accuracy; pioneer manufacturers are also exploring friction reduction, anti-magnetism, scratch resistance, dial decoration, exotic materials and so on.

When John Harvey's watch stops working on the morning of February 3rd, 1987, he has an epiphany. It occurs to him that every personal trauma he is trying to forget has had one thing in common: they all occurred at some point on the face of that very watch. The loss of his job, the death of his child, Zola's suicide, all contained right there in that tiny circle of finite numbers. So he smashes the watch. Problem solved. But when John steps out the door to make his daily trek to the local bar as a man newly freed from the tyrannies of time, he is met by a snowstorm that renders him completely blind, and a walk that should have taken just a few minutes begins to feel like

years. Because as John Harvey wanders alone through the snow with no sun nor sign to guide him, the twenty-eight year old misanthrope is confronted by the vivid manifestation of every ghost he has devoted his lonely life to avoiding. In the storm he is forced to finally accept the suffering he has been hiding from. In the storm he is forced to understand that the only thing worse than never truly seeing is never truly being seen. In the storm he is forced, for once, to watch.
