Capturing Social and Behavioral Domains and Measures in Electronic Health Records

Theatre Communications Group

An emotional tale of identity, sexuality and suicide derived from personal experience about three teenage boys who struggle to come to terms with their homosexuality in a small Western Australian town. On the surface, nerd Zeke, punk Charlie and footy wannabe Hammer look like they have nothing in common. But scratch that surface and you'd find three boys in the throes of coming to terms with their homosexuality in a town where it is invisible. Invisible Boys is a raw, confronting YA novel that explores the complexities and trauma of rural gay identity with painful honesty, devastating consequences and, ultimately, hope.

The Flick Cambridge University Press

What enables individually simple insects like ants to act with such precision and purpose as a

group? How do trillions of neurons produce something as extraordinarily complex as consciousness? In this remarkably clear and companionable book, leading complex systems scientist Melanie Mitchell provides an intimate tour of the sciences of complexity, a broad set of efforts that seek to explain how large-scale complex, organized, and adaptive behavior can emerge from simple interactions among myriad individuals. Based on her work at the Santa Fe Institute and drawing on its interdisciplinary strategies, Mitchell brings clarity to the workings of complexity across a broad range of biological, technological, and social phenomena, seeking out the general principles or laws that apply to all of them. Richly illustrated, Complexity: A Guided Tour--winner of the 2010 Phi Beta Kappa Book Award in Science--offers a wide-ranging overview of the ideas underlying complex systems science, the current research at the forefront of this field, and the prospects for its contribution to solving some of the most important scientific questions of our time.

Medical Staff Management: Forms, Policies, and Procedures for Health Care Providers is the only

comprehensive collection of forms, policies, procedures, correspondence, and more, covering: Credentialing Privileging Accreditation and regulations Allied health professionals Quality assessment and improvement And much more! Medical Staff Management gives you the tools you need to efficiently and properly manage medical staff matters - such as credentialing, privileges, quality improvement, and many others. With hundreds of proven and innovative forms, policies, procedures, worksheets, flowcharts, and other management tools at your fingertips, you'll find important guidance on virtually all topics, including: Credentialing activities specific to hospitals, allied health professionals (AHPs) and managed and ambulatory care Legal issues and documents, including drug testing for applicants Medical staff development tools Sample job descriptions as well as descriptions for allied health professionals "CORE" privileging and related criteria Policies and procedures used by Credentialing Verification Organizations (CVOs) Effective meeting management Legal issues such as fair hearing policies, confidentiality policies and other policies relating to corrective action Leadership and new physician orientation programs Preparation of surveys by accrediting agencies and standardized application forms And many more! Plus, you will

find multiple forms, policies and guidelines that may be used directly as they are, or combined - either with material in the manual or with material currently used by your organization. Medical Staff Management has been updated to include: Intent to Practice Form: Initial Application Intent to Practice: Sample Bylaws Language Verification forms for degree, internship, and residency/fellowship Letters with Competency Evaluation for peer reference, hospital affiliation, and work history Claims History - Insurance Liability Carrier PSV, Data Gathering Grid (CVO) Credentialing Verification Office policies Intent to Practice Form - Reappointment New Product and Technology Request Form Sample Policy for Request for New Procedure/Treatment Surgery Service: General Surgery Core Privileges General Surgery and Oncology Surgery: Privilege Request Form Urology Core Privilege Request Form CRNA Affiliate Medical Staff Credentialing Checklist Affiliation and Competence Assessment for Continued CRNA Privileges Physician Assistant/Nurse Practitioner: Privilege Request Form And much more!

[Mastering Jira](#) Routledge

The main purpose of this book, which mostly covers the period 1984-1993, is about the history of European research networking. In particular, it strives to throw some light on some lesser known, sometimes forgotten, aspects of the European research networking history, as the EARN and EASInet initiatives from IBM but also DEC (EARN/OSI), thanks to operational pan-European networks, which were built during the period 1984-1990 thus allowing the start of operational European academic and research networking services in a very effective and swift manner. A secondary purpose of this article is to make a critical assessment of the political and technical achievements of the European NRENs and especially those of DANTE, the company set up by these same NRENs to build and operate a pan-European backbone interconnecting their national networking infrastructures as well as establishing international connections to other NRENs worldwide.

The Rapture of the Nerds Universe Publishing(NY)

Volume 3 of the PoC || GTFO collection--read as Proof of Concept or Get the Fuck Out--continues the series of wildly popular collections of this hacker journal. Contributions range from humorous poems to deeply technical essays bound in the form of a bible. The International Journal of Proof-of-Concept or Get The Fuck Out is a celebrated collection of short essays on computer security, reverse engineering and retrocomputing topics by many of the world's most famous hackers. This third volume contains all articles from releases 14 to 18 in the form of an actual, bound bible. Topics include how to dump the ROM from one of the most secure Sega Genesis games ever created; how to create a PDF that is also a Git repository; how to extract the Game Boy Advance BIOS ROM; how to sniff Bluetooth Low Energy communications with the BCC Micro:Bit; how to conceal ZIP Files in NES Cartridges; how to remotely exploit a TetriNET Server; and more. The journal exists to remind us of what a clever engineer can build from a box of parts and a bit of free time. Not to showcase what others have done, but to explain how they did it so that readers can do these and other clever things themselves.

History, Power, Text: Cultural Studies and Indigenous Studies is a collection of essays on Indigenous themes published between 1996 and 2013 in the journal known first as UTS Review and now as Cultural Studies Review. This journal opened up a space for new kinds of politics, new styles of writing and new modes of interdisciplinary engagement. History, Power, Text highlights the significance of just one of the exciting interdisciplinary spaces, or meeting points, the journal enabled. 'Indigenous cultural studies' is our name for the intersection of cultural studies and Indigenous studies showcased here. This volume republishes key works by academics and writers Katelyn Barney, Jennifer Biddle, Tony Birch, Wendy Brady, Gillian Cowlshaw, Robyn Ferrell, Bronwyn Fredericks, Heather Goodall, Tess Lea, Erin Manning, Richard Martin, Aileen Moreton-Robinson, Stephen Muecke, Alison Ravenscroft, Deborah Bird Rose, Lisa Slater, Sonia Smallacombe, Rebe Taylor, Penny van Toorn, Eve Vincent, Irene Watson and Virginia Watson—many of whom have taken this opportunity to write reflections on their work—as well as interviews between Christine Nicholls and painter Kathleen Petyarre, and Anne Brewster and author Kim Scott. The book also features new essays by Birch, Moreton-Robinson and Crystal McKinnon, and a roundtable discussion with former and current journal editors Chris Healy, Stephen Muecke and Katrina Schlunke.

[Invisible Boys](#) Simon and Schuster

Introducing Human Geographies is the leading guide to human geography for undergraduate students, explaining new thinking on essential topics and discussing exciting developments in the

field. This new edition has been thoroughly revised and updated and coverage is extended with new sections devoted to biogeographies, cartographies, mobilities, non-representational geographies, population geographies, public geographies and securities. Presented in three parts with 60 contributions written by expert international researchers, this text addresses the central ideas through which human geographers understand and shape their subject. Part I: Foundations engages students with key ideas that define human geography's subject matter and approaches, through critical analyses of dualisms such as local-global, society-space and human-nonhuman. Part II: Themes explores human geography's main sub-disciplines, with sections devoted to biogeographies, cartographies, cultural geographies, development geographies, economic geographies, environmental geographies, historical geographies, political geographies, population geographies, social geographies, urban and rural geographies. Finally, Part III: Horizons assesses the latest research in innovative areas, from mobilities and securities to non-representational geographies. This comprehensive, stimulating and cutting edge introduction to the field is richly illustrated throughout with full colour figures, maps and photos. These are available to download on the companion website, located at www.routledge.com/9781444135350.

"Provides pragmatic guidance on what to do ... and what not to do." - From the Foreword by Ian Glazer, Salesforce OAuth 2 in Action teaches you the practical use and deployment of this HTTP-based protocol from the perspectives of a client, authorization server, and resource server. You'll learn how to confidently and securely build and deploy OAuth on both the client and server sides. Foreword by Ian Glazer. Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications. About the Technology Think of OAuth 2 as the web version of a valet key. It is an HTTP-based security protocol that allows users of a service to enable applications to use that service on their behalf without handing over full control. And OAuth is used everywhere, from Facebook and Google, to startups and cloud services. About the Book OAuth 2 in Action teaches you practical use and deployment of OAuth 2 from the perspectives of a client, an authorization server, and a resource server. You'll begin with an overview of OAuth and its components and interactions. Next, you'll get hands-on and build an OAuth client, an authorization server, and a protected resource. Then you'll dig into tokens, dynamic client registration, and more advanced topics. By the end, you'll be able to confidently and securely build and deploy OAuth on both the client and server sides. What's Inside Covers OAuth 2 protocol and design Authorization with OAuth 2 OpenID Connect and User-Managed Access Implementation risks JOSE, introspection, revocation, and registration Protecting and accessing REST APIs About the Reader Readers need basic programming skills and knowledge of HTTP and JSON. About the Author Justin Richer is a systems architect and software engineer. Antonio Sanso is a security software engineer and a security researcher. Both authors contribute to open standards and open source. Table of Contents What is OAuth 2.0 and why should you care? The OAuth dance Building a simple OAuth client Building a simple OAuth protected resource Building a simple OAuth authorization server OAuth 2.0 in the real world Common client vulnerabilities Common protected resources vulnerabilities Common authorization server vulnerabilities Common OAuth token vulnerabilities OAuth tokens Dynamic client registration User authentication with OAuth 2.0 Protocols and profiles using OAuth 2.0 Beyond bearer tokens Summary and conclusions Part 1 - First steps Part 2 - Building an OAuth 2 environment Part 3 - OAuth 2 implementation and vulnerabilities Part 4 - Taking OAuth further *A New Literacies Sampler* Springer

In the emergency and trauma setting, accurate and consistent interpretation of imaging studies are critical to the care of acutely ill and injured patients. This book offers a comprehensive review of acute pathologies commonly encountered in the emergency room as diagnosed by radiologic imaging. It is organized by anatomical sections that present the primary ER imaging areas of the acute abdomen, pelvis, thorax, neck, head, brain and spine, and osseous structures. For each section, the common diagnoses are concisely described and are accompanied by relevant clinical facts and key teaching points that emphasize the importance of radiologic interpretation in clinical patient management. The role of modalities such as plain radiography, computed tomography, ultrasound, magnetic resonance imaging, and nuclear medicine imaging in managing emergency conditions is highlighted. The Second Edition is thoroughly updated and includes over 400 images and multiple choice questions in each chapter. Emphasizing the core concepts in emergency radiology, this book is a valuable resource for radiologists, residents, and fellows.

At a time when we are reexamining our values, reeling from the pace of change, witnessing the

clash between good instincts and "pragmatism," dealing with the angst of a new millennium, Neil Postman, one of our most distinguished observers of contemporary society, provides for us a source of guidance and inspiration. In Building a Bridge to the Eighteenth Century he revisits the Enlightenment, that great flowering of ideas that provided a humane direction for the future -- ideas that formed our nation and that we would do well to embrace anew. He turns our attention to Goethe, Voltaire, Rousseau, Diderot, Kant, Edward Gibbon, Adam Smith, Thomas Paine, Jefferson, and Franklin, and to their then-radical thinking about inductive science, religious and political freedom, popular education, rational commerce, the nation-state, progress, and happiness. Postman calls for a future connected to traditions that provide sane authority and meaningful purpose -- as opposed to an overreliance on technology and an increasing disregard for the lessons of history. And he argues passionately for specific new guidelines in the education of our children, with renewed emphasis on developing the intellect as successfully as we are developing a computer-driven world. Witty, provocative, and brilliantly reasoned, Building a Bridge to the Eighteenth Century is Neil Postman's most radical, and most commonsensical, book yet.

How to be a Space Explorer HarperCollins Leadership

The study of new literacies is quickly emerging as a major research field. This book «samples» work in the broad area of new literacies research along two dimensions. First, it samples some typical examples of new literacies - video gaming, fan fiction writing, weblogging, role play gaming, using websites to participate in affinity practices, memes, and other social activities involving mobile technologies. Second, the studies collectively sample from a wide range of approaches potentially available for researching and studying new literacies from a sociocultural perspective. Readers will come away with a rich sense of what new literacies are, and a generous appreciation of how they are being researched.

Fraiche Food, Full Hearts Tor Books

The 2nd edition of this integrated guide explains and lists readily available graphics software tools and their applications, while also serving as a shortcut to graphics theory and programming. It grounds readers in fundamental concepts and helps them use visualization, modeling, simulation, and virtual reality to complement and improve their work.

[Guide to Graphics Software Tools](#) Trafford Publishing

A major biography—intimate, gripping, revelatory—of an artist who revolutionized American comedy. Richard Pryor may have been the most unlikely star in Hollywood history. Raised in his family's brothels, he grew up an outsider to privilege. He took to the stage, originally, to escape the hard-bitten realities of his childhood, but later came to a reverberating discovery: that by plunging into the depths of his experience, he could make stand-up comedy as exhilarating and harrowing as the life he'd known. He brought that trembling vitality to Hollywood, where his movie career—Blazing Saddles, the buddy comedies with Gene Wilder, Blue Collar—flowed directly out of his spirit of creative improvisation. The major studios considered him dangerous. Audiences felt plugged directly into the socket of life. Becoming Richard Pryor brings the man and his comic genius into focus as never before. Drawing upon a mountain of original research—interviews with family and friends, court transcripts, unpublished journals, screenplay drafts—Scott Saul traces Pryor's rough journey to the heights of fame: from his heartbreaking childhood, his trials in the Army, and his apprentice days in Greenwich Village to his soul-searching interlude in Berkeley and his ascent in the "New Hollywood" of the 1970s. Becoming Richard Pryor illuminates an entertainer who, by bringing together the spirits of the black freedom movement and the counterculture, forever altered the DNA of American comedy. It reveals that, while Pryor made himself a legend with his own account of his life onstage, the full truth of that life is more bracing still.

TV host and lifestyle influencer Jillian Harris and registered dietitian Tori Wesszer invite you into their world full of family, food, and casual celebrations. Living a stone's throw from each other, cousins Jillian and Tori grew up in a tight-knit family and were brought up like sisters. Fraiche Food,

Full Hearts offers a peek into their lives and the recipes that have fed their families through the years. Instilled with a love of cooking at an early age by their granny, the kitchen is a place of fond memories and everyday home cooked meals. Like most families, their celebrations revolve around food--from birthdays, Valentine's Day, and Mother's Day to Thanksgiving, Christmas, and New Year's Eve. Fraiche Food, Full Hearts includes over 100 heart-warming recipes--from breakfasts, soups, salads, veggies, sides, and mains to snacks, appetizers, drinks, and desserts--for everyday meals, along with celebration menus and ideas for casual gatherings with family and friends. Gorgeously designed with dreamy full-colour photography throughout, the recipes also incorporate

vegan, vegetarian, and gluten-free options. You'll find dishes like West Coast Eggs Benny, Vanilla Cherry Scones, Harvest Kale Salad, Squash Risotto with Fried Sage, Granny's Beet Rolls, Cedar-Plank Salmon Burgers, Veggie Stew with Dumplings, Cherry Sweetheart Slab Pie, and Naked Coconut Cake.

Starships of the Galaxy Cambridge University Press

Reviews of over 300 graphic adventure games, focusing on games from prominent publishers such as LucasArts, Sierra On-Line, and Legend Entertainment but covering games from independent developers as well. Reviews primarily cover games published 1984-2000. Interviews with game

creators/developers Al Lowe, Corey Cole, Bob Bates, and Josh Mandel are included.
