Cynthia J. Brown explains why the advent of print in the late medieval period brought about changes in relationships among poets, patrons, and printers which led to a new conception of authorship. Examining such paratextual elements of manuscripts as title pages, colophons, and illustrations as well as such literary strategies as experimentation with narrative voice, Brown traces authors' attempts to underscore their narrative presence in their works and to displace patrons from their role as sponsors and protectors of the book. Her accounts of the struggles of poets, including Jean Lemaire, Jean Bouchet, Jean Molinet, and Pierre Gringore, over the design, printing, and sale of their books demonstrate how authors secured the

status of literary proprietor during the transition from the culture of script and courtly patronage to that of print capitalism.

James Joyce's novel *Ulysses* is said to be one of the most important works in Modernist literature. It details Leopold Bloom's passage through Dublin on an ordinary day: June 16, 1904. Causing controversy, obscenity trials and heated debates, *Ulysses* is a pioneering work that brims with puns, parodies, allusions, stream-of-consciousness writing and clever structuring. Modern Library ranked it as number one on its list of the twentieth century's 100 greatest English-language novels and Martin Amis called it one of the greatest novels ever written.

As a result of his visits to classrooms across the nation, Brown has compiled an engaging, thought-provoking collection of classroom vignettes which show the ways in which national, state, and local school politics translate into changed classroom practices. "Captures the breadth, depth, and urgency of education reform".--Bill Clinton.
