"I want to be a better man. Hindi ko kayang gawin iyon nang mag-isa. I need inspiration. I need you." Moving in to a new apartment was Cece's first taste of independence. Sa edad na beinte-sais ay hindi pa niya nasusubukang malayo sa kanyang pamilya nang higit sa beinte-kuwatro oras.

Wala siyang ibang pinagkakaabalahan kundi ang kanyang trabaho. Her parents thought it was the reason why she was still single. Sa katunayan, isa siyang certified NBSB, as in "no boyfriend since birth." Pero hindi naman problema iyon para sa kanya. Naniniwala siya na sooner or later, darating

ang araw na mai-in love siya. But what she didn't know was that it would come sooner rather than later. And it happened without her even realizing it. Nang masilayan niya ang magagandang mata ng bagong kapitbahay niya ay wala siyang kaalam-alam na iyon na pala ang magiging simula ng pagbabago ng kanyang social status. That was probably because she was busy getting mesmerized by the most captivating eyes she had ever seen, the eyes that belonged to a certain Jasper Montecillo...

Warning: This book can transform your entire life. Why? Because this book can change your relationships. There's a direct link between the quality of your relationships and the quality of your happiness. The equation is pretty simple: If you have happy relationships, you'll have a happy life. But if you have unhappy relationships, you'll have an unhappy life. But why stop at being happy? Bo Sanchez believes that beyond happiness is enduring success and that it is based on enduring relationships too.

Never Have I Ever Shepherds Voice Publications, Inc.

A provocative and deeply important study of women's lives, women's choices—and an 'unspoken

taboo'—that questions the societal pressures forcing women into motherhood Women who opt not to be mothers are frequently warned that they will regret their decision later in life, yet we rarely talk about the possibility that the opposite might also be true—that women who have children might regret it. Drawing on years of research interviewing women from a variety of socioeconomic, educational, and professional backgrounds, sociologist Orna Donath treats regret as a feminist issue: as regret marks the road not taken, we need to consider whether alternative paths for women currently are blocked off. She asks that we pay attention to what is forbidden by rules governing motherhood, time, and emotion, including the cultural assumption that motherhood is a "natural" role for women—for the sake of all women, not just those who regret becoming mothers. If we are disturbed by the idea that a woman might regret becoming a mother, Donath says, our response should not be to silence and shame these women; rather, we need to ask honest and difficult questions about how society pushes women into motherhood and why those who reconsider it are still seen as a danger to the status quo. Groundbreaking, thoughtful, and provocative, this is an especially needed book in our current political climate, as women's reproductive rights continue to be at the forefront of national debates.

From the creators of the popular online dating site HowAboutWe.com comes the definitive guide for navigating the modern dating world. The single woman is having a moment. In the worlds of work, personal finances, and education, women are more successful than ever before. When it comes to dating, they're happy to take their time exploring lots of different relationships before deciding if they want to settle down. Women today, like the generations of women before them, want to fall in love. But they want it to happen organically, at its own pace, and with the right person. Rather than listing a set of "rules," Modern Dating offers advice on modern challenges, like how to send a relatively unembarrassing sext, how to create a failproof first date idea, and how to make sure you're getting into a relationship for the right reasons. Instead of telling you How to Win a Husband in Just 3 Easy Steps!, it will gently guide you through all the triumphs and pitfalls of what dating is actually like, from one-night stands, to confusing texts and emails, to your first online date. Frank, funny, and totally relatable, this is a book that really gets at how women are dating today—the ideal travel companion for your dating life. The only rule is that there are no rules, but this book will be there for guidance, or just for laughs, every step of the way.

It's been three years since the Virgil County High School Massacre. Three years since my best friend, Sarah, was killed in a bathroom stall during the mass shooting. Everyone knows Sarah's story--that she died proclaiming her faith. But it's not true. I know because I was with her when she died. I didn't say anything then, and people got hurt because of it. Now Sarah's parents are publishing a book about her, so this might be my last chance to set the record straight . . . but I'm not the only survivor with a story to tell about what did--and didn't--happen that day. Except Sarah's martyrdom is important to a lot of people, people who don't take kindly to what I'm trying to do. And the more I learn, the less certain I am about what's right. I don't know what will be worse: the guilt of staying silent or the consequences of speaking up . . .
