The Spanish Civil War has gone down in history for the horrific violence that it generated. The climate of euphoria and hope that greeted the overthrow of the Spanish monarchy was utterly transformed just five years later by a cruel and destructive civil war. Here Julián Casanova, one of Spain's leading historians, offers a magisterial new account of this critical period in Spanish history. He exposes the ways in which the Republic brought into the open simmering tensions between Catholics and hardline anticlericalists, bosses and workers, Church and State, order and revolution. In 1936 these conflicts tipped over into the sacas, paseos and mass killings which are still passionately debated

today. The book also explores the decisive role of the international instability of the 1930s in the duration and outcome of the conflict. Franco's victory was in the end a victory for Hitler and Mussolini and for dictatorship over democracy.

Paracuellos is a work of great courage, created at a time when telling the truth about Spain's political past could get one killed. It is arguably the most important graphic memoir ever created in comics. With a preface by Will Eisner. Carlos Giménez's autobiographical account of the plight of children in post-World War II Fascist Spain has won virtually every comics award in Europe, including "Best Album" at the 1981 Angoulême Festival, and the "Heritage Award" at Angoulême in 2010. In the late 1930s when Spanish fascists led by Franco, and aided by Hitler and Mussolini, overthrew the elected government, almost 200,000 men and women fell in battle, were executed, or died in prison. Their orphaned children—and others ripped from the homes of the defeated—were shuttled from Church-run "home" to "home" and fed a steady diet of torture and disinformation by a totalitarian state bent on making them "productive" citizens. Carlos Giménez was one of those children. In 1975, after Franco's death, Carlos began to tell his story. Breaking the code of silence proved to be a milestone, both for the comics medium and for a country coming to terms with its past. An illustrated essay by Carmen Moreno-Nuño, Associate Professor of Hispanic Studies at the University of Kentucky, places the comics in historical perspective. "The stories transcend just being about a historical moment in Spain. Their humanity will speak to everyone. The stories are heartbreakers, but Carlos never loses his sense of humor."—William Stout

*The Move to Global War - Ib History Online Course Book* Yale University Press

The Haitian Revolution has generated responses from commentators in fields ranging from philosophy to historiography to twentieth-century literary and artistic studies. But what about the written work produced at the time, by Haitians? This book is the first to present an account of a specifically Haitian literary tradition in the Revolutionary era. Beyond the Slave Narrative

shows the emergence of two strands of textual innovation, both evolving from the new revolutionary consciousness: the remarkable political texts produced by Haitian revolutionary leaders Toussaint Louverture and Jean-Jacques Dessalines, and popular Creole poetry from anonymous courtesans in Saint-Domingue's libertine culture. These textual forms, though they differ from each other, both demonstrate the increasing cultural autonomy and literary voice of non-white populations in the colony at the time of revolution. Unschooled generals and courtesans, long presented as voiceless, are at last revealed to be legitimate speakers and authors. These Haitian French and Creole texts have been neglected as a foundation of Afro-diasporic literature by former slaves in the Atlantic world for two reasons: because they do not fit the generic criteria of the slave narrative (which is rooted in the autobiographical experience of enslavement); and because they are mediated texts, relayed to the print-cultural Atlantic domain not by the speakers themselves, but by secretaries or refugee colonists. These texts challenge how we think about authorial voice, writing, print culture, and cultural autonomy in the context of the formerly enslaved, and demand that we reassess our historical understanding of the Haitian Independence and its relationship to an international world of contemporary readers.

*Open Veins of Latin America* University of Wisconsin Press

The complete Cambridge History of Latin America presents a large-scale, authoritative survey of Latin America's unique historical experience from the first contacts between the native American Indians and Europeans to the present day. Colonial Spanish America is a selection of chapters from volumes I and II brought together to provide a continuous history of the Spanish Empire in America from the late fifteenth to the early nineteenth centuries. The first three chapters deal with conquest and settlement and relations between Spain and its American Empire; the final six with urban development, mining, rural economy and society, including the formation of the hacienda, the internal economy, and the impact of Spanish rule on Indian societies. Bibliographical essays are included for all chapters. The book will be a valuable text for both students and teachers of Latin American history.

The Origins of the First World War Princeton Review

Francisco Franco: The Times and the Man, is the English translation of Dr. Joaquin Arrarás' biography of Francisco Franco Bahamonde, the Spanish general and politician who ruled over Spain as a military dictator from 1939, after the nationalist victory in the Spanish Civil War, until his death in 1975—a period commonly known as Francoist Spain in Spanish history. Born in 1892 in El Ferrol, Spain, Franco was a career soldier who rose through the ranks until the mid-1930s. When the social and economic structure of Spain began to crumble, he joined the growing right-leaning rebel movement. He soon led an uprising against the leftist Republican government and took control of Spain following the bloody Spanish Civil War (1936-39) when, with the help of Nazi Germany and Fascist Italy, his Nationalist forces overthrew the democratically elected Second Republic. Franco then presided over a brutal military dictatorship, persecuting political opponents, repressing the culture and language of Spain's Basque and Catalan regions, and censoring the media. He died in Madrid in 1975, as Spain transitioned to a democracy. "It is with Franco, then, that [Arrarás] is concerned, with his character, his early upbringing, his entrance into the army, his

thrilling adventures, his dramatic military career that made him through merit alone a captain at the age of twenty and Europe's youngest general at thirty-two. We next find him, on his return home, commissioned to establish the Spanish West Point, immediately destroyed by the new government. Quickly after this there follow the world-stirring events that now are history.[...] "Fortunately the author's work, in its transformation from Spanish into English, has lost none of its freshness and flavor. The velvet is still on the fruit. We have apparent here the same journalistic verve, the same vividness of narration, the same colorful descriptions and sharp-edged statement of facts..."

*The Great Republic* Chapman & Hall/CRC

Since its U.S. debut a quarter-century ago, this brilliant text has set a new standard for historical scholarship of Latin America. It is also an outstanding political economy, a social and cultural narrative of the highest quality, and perhaps the finest description of primitive capital accumulation since Marx. Rather than chronology, geography, or political successions, Eduardo Galeano has organized the various facets of Latin American history according to the patterns of five centuries of exploitation. Thus he is concerned with gold and silver, cacao and cotton, rubber and coffee, fruit, hides and wool, petroleum, iron, nickel, manganese, copper, aluminum ore, nitrates, and tin. These are the veins which he traces through the body of the entire continent, up to the Rio Grande and throughout the Caribbean, and all the way to their open ends where they empty into the coffers of wealth in the United States and Europe. Weaving fact and imagery into a rich tapestry, Galeano fuses scientific analysis with the passions of a plundered and suffering people. An immense gathering of materials is framed with a vigorous style that never falters in its command of themes. All readers interested in great historical, economic, political, and social writing will find a singular analytical achievement, and an overwhelming narrative that makes history speak, unforgettably. This classic is now further honored by Isabel Allende's inspiring introduction. Universally recognized as one of the most important writers of our time, Allende once again contributes her talents to literature, to political principles, and to enlightenment.

**Franco** Free Press

Prior to September 11, 2001, most Americans viewed globalization as primarily -perhaps exclusively-an economic

phenomenon.<sup>1</sup> The economic evidence -rapidly shifting flows of world capital, expansion of overseas markets and investments, the global connections of e-commerce and the Internet, as examples -seemed readily apparent, even if some critics viewed globalization itself as an illdefined term. But appropriately defined or not, the concept of globalization had already achieved considerable stature, causing corporate boards and shareholders to thirst after presumably growing international markets, Internet junkies to claim their own transnational community, and antiglobalization protestors to smash municipal trash cans from Seattle to Washington.

AP European History Premium Bloomsbury Publishing

Widely recognized as a groundbreaking text, *The New Urban Sociology* is a broad and expert introduction to urban sociology that is both relevant and accessible to the student. A thought leader in the field, the book is organized around an integrated paradigm (the sociospatial perspective) which considers the role played by social factors such as race, class, gender, lifestyle, economics, culture, and politics on the development of metropolitan areas. Emphasizing the importance of space to social life and real estate to urban development, the book integrates social, ecological and political economy perspectives and research through a fresh theoretical approach. With its unique perspective, concise history of urban life, clear summary of urban social theory, and attention to the impact of culture on urban development, this book gives students a cohesive conceptual framework for understanding cities and urban life. In this thoroughly revised 5th edition, authors Mark Gottdiener, Ray Hutchison, and Michael T. Ryan offer expanded discussions of created cultures, gentrification, and urban tourism, and have incorporated the most recent work in the field throughout the text. *The New Urban Sociology* is a necessity for all courses on the subject.

How can we determine the big ideas worth understanding? Why is understanding an important teaching goal, and how do we know when students have attained it? How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high-stakes, standards-based environment? Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of *Understanding by Design*. Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998, the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum, assessment, and instruction. With an improved UbD Template at its core, the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks. Readers will learn why the familiar coverage- and activity-based approaches to curriculum design fall short, and how a focus on the six facets of understanding can enrich student learning. With an expanded array of practical strategies, tools, and examples from all subject areas, the book demonstrates how the research-based principles of *Understanding by Design* apply to district frameworks as well as to individual units of curriculum. Combining provocative ideas, thoughtful analysis, and tested approaches, this new edition of *Understanding by Design* offers teacher-designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike.

*World Civilizations* Yale University Press

On 20th November 1975, General Francisco Franco died in Madrid, just before his 83rd birthday. At the time of his death he had been the head of a dictatorial regime with the title of 'Caudillo' for almost 40 years. In this book, Enrique Moradiellos redraws Franco in three dimensions - Franco, the man; Franco, the Caudillo and Franco's Spain. In so doing, he offers a reappraisal of Franco's personality, his leadership style and the nature of the regime that he established and led until his death.

As a dictator who established his power prior to World War II and maintained it well into the 1970s, Franco was one of the most central figures of twentieth-century European history. In Spain today, he is a spectre from a regrettable recent past, uncomfortable yet still very real and significant. Although a relatively minor dictator in comparison with Mussolini, Hitler or Stalin, Franco was more fortunate than them in terms of survival, long-lasting influence and public image. A study of his regime and its historical evolution sheds new light on fundamental questions of European history, including the social and cultural bases for totalitarian or authoritarian challenges to democracy and sources of political legitimacy grounded in the charisma of a leader. In this book, Enrique Moradiellos Garcia examines the dictatorship as well as the dictator and, in doing so, reveals new aspects to our understanding of General Franco, the Caudillo.

**Franco** Simon and Schuster

Casta painting is a distinctive Mexican genre that portrays racial mixing among the Indians, Spaniards & Africans who inhabited the colony, depicted in sets of consecutive images. Ilona Katzew places this art form in its social & historical context.

*Understanding by Design* New York : BasicBooks, a division of HarperCollins

This text is based on current research findings and is written for students and general readers who want a deeper understanding of this period in German history. It provides a balanced approach in examining Hitler's role in the history of the Third Reich and includes coverage of the economic, social, and political forces that made the rise and growth of Nazism possible; the institutional, cultural, and social life of the Third Reich; the Second World War; and the Holocaust.

A Conspiracy So Immense Routledge
