Selected Studies [for Saxophone] Oxford University Press
 Sociolinguists have been pursuing connections between language and identity for several decades. But how are language and identity related in bilingualism and multilingualism? Mobilizing the most current methodology, this collection presents new research on language identity and bilingualism in three regions where Spanish coexists with other languages. The cases are Spanish-English contact in the United States, Spanish-indigenous language contact in Latin America, and Spanish-regional language contact in Spain. This is the first comparativist book to examine language and identity construction among bi- or multilingual speakers while keeping one of the languages constant. The sociolinguistic standing of Spanish varies among the three regions depending whether or not it is a language of prestige. Comparisons therefore afford a strong constructivist perspective on how linguistic ideologies affect bi/multilingual identity formation.

In Praise of Diversity John Benjamins Publishing
 Designed specifically for teachers with little subject knowledge or experience in history, this book provides trainees with the confidence they need to teach primary history. Based on Curriculum 2000, the book provides valuable step-by-step guidance on how to create, plan, develop, organize and assess high-quality teaching activities in primary history. This book: is full of teaching approaches, practical ideas, teaching activities, real-life case studies and vignettes of good teaching practice; covers both conventional and modern approaches - such as drama, role-play, story telling, music and dance; and explains how each approach can be adapted to suit all primary ages and abilities. Children with a range of learning needs and styles respond with enthusiasm to a wide variety of teaching approaches - and this book provides trainee teachers with that repertoire and variety.

Why and how to Teach Music Composition Hassell Street Press

"Dialogue in Spanish" provides a strong theoretical and empirical foundation for the study of dialogue. This edited collection of twelve original studies contributes to a broad comprehension of dialogue in two general contexts: personal interactions among friends and family; and public speech, such as political debates, medical interviews, court translations and service encounters. The studies, written by authors from Canada, Mexico, Spain, Sweden, the United States and Venezuela, present an in-depth look at issues and elements of dialogue such as irony, narrativity, discourse markers, coherence, conflict and expectations.

Background research on dialogue grounds the articles in such areas as discourse analysis, pragmatics, philosophy, sociology, anthropology and linguistics. The book will prove useful to those who study conversational interaction, pragmatics, and discourse analysis as applied to various functions and contexts, and it will be of particular interest to researchers and students of linguistics, anthropology, sociology, philosophy, communications and education.

The Spirituals of Harry T. Burleigh John Benjamins Publishing

The Music of Multicultural America explores the intersection of performance, identity, and community in a wide range of musical expressions. Fifteen essays explore traditions that range from the Klezmer revival in New York, to Arab music in Detroit, to West Indian steel bands in Brooklyn, to Kathak music and dance in California, to Irish music in Boston, to powwows in the midwestern plains, to Hispanic and Native musics of the Southwest borderlands. Many chapters demonstrate the processes involved in supporting, promoting, and reviving community music. Others highlight the ways in which such American institutions as city festivals or state and national folklife agencies come into play. Thirteen themes and processes outlined in the introduction unify the collection's fifteen case studies and suggest organizing frameworks for student projects. Due to the diversity of music profiled in the book—Mexican mariachi, African American gospel, Asian West Coast jazz, women's punk, French-American Cajun, and Anglo-American sacred harp—and to the methodology of fieldwork, ethnography, and academic activism described by the authors, the book is perfect for courses in ethnomusicology, world music, anthropology, folklore, and American studies. Audio and visual materials that support each chapter are freely available on the ATMuse website, supported by the Archives of Traditional Music at Indiana University.

[Dialogue in Spanish](#) Oxford University Press

This book explores the many dialogues that exist between the arts and literacy. It shows how the arts are inherently multimodal and therefore interface regularly with literate practice in learning and teaching contexts. It asks the questions: What does literacy look like in the arts? And what does it mean to be arts literate? It explores what is important to know and do in the arts and also what literacies are engaged in, through the journey to becoming an artist. The arts for the purpose of this volume include five art forms: Dance, Drama, Media Arts, Music and Visual Arts. The book provides a more productive exploration of the arts-literacy relationship. It acknowledges that both the arts and literacy are open-textured concepts and notes how they accommodate each other, learn about, and from each other and can potentially make education 'better'. It is when the two stretch each other that we see an educationally productive dialogic relationship emerge.

Trumpet Technique combines the newest research on skill acquisition and peak performance with the time-honored and proven techniques of master teachers and performers. All aspects of brass technique are discussed in detail, including the breath, embouchure, oral cavity, tongue, jaw, and proper body use, as well as information on performance psychology, practice techniques, musicians' occupational injuries, and much more. Comprehensive and detailed, Trumpet Technique is an invaluable resource for performers, teachers, and students at all levels seeking to move to the highest level of skill with their instrument.
