Outlaw bikers represent a very small percentage of motorcycle riders who join motorcycle clubs, but they receive disproportionate attention due to their mystique, unconventional behavior, and violence. Although the outlaw biker phenomenon started in the United States, it has since spread throughout the world. The involvement of Outlaw Motorcycle Gangs (OMGs) in organized crime at the local, regional, national, and transnational levels fosters violence that puts innocent persons at risk for death or injury and leads to the demonization of "bikers" and the overcriminalization of motorcycle enthusiasts and club members. *The Outlaw Biker Legacy of Violence*, written by internationally known expert Thomas Barker, addresses the legacy of violence in the outlaw biker culture and tackles the implications of the violence that progressed as outlaw biker clubs evolved into adult criminal gangs engaged in crimes for profit over long periods of time and across borders. Beginning with a history of outlaw bikers and the construction of the "folk devil" of the biker, the book outlines the distinctions between conventional motorcycle clubs, Outlaw Motorcycle Clubs, and Outlaw Motorcycle Gangs, and then traces the expansion of these groups across the globe. This book will be relevant to those interested in the examination or investigation of biker gangs in particular or organized criminal groups in general. It is essential reading for criminal justice

students and others studying social groups, gangs, and organizations, or the sociology of deviance, and is also relevant for law enforcement professionals dealing with these organizations

Steven Soderbergh and Richard Lester are a generation apart, but they share a sense of humour and a passion for cinema.

Soderbergh's freshman film, *sex, lies and videotape*, inaugurated a movement in US independent cinema. Lester's freewheeling work in the '60s and '70s (*Help!*, *A Hard Day's Night*, *The Knack*, *How I Won the War*, *Petulia*) helped create a 'new wave' of British film-making. Here, the two cineastes discuss their mutual passion for the medium in a frank, funny and free-ranging series of interviews. Also included is Soderbergh's diary of an extraordinary twelve months in which he ventured into 'guerilla film-making' with offbeat projects *Schizopolis* and *Gray's Anatomy*, before returning to the Hollywood fray with the George Clooney hit *Out of Sight*.

From Nobel Prize-winning economist and New York Times bestselling author Robert Shiller, a groundbreaking account of how stories help drive economic events—and why financial panics can spread like epidemic viruses. Stories people tell—about financial confidence or panic, housing booms, or Bitcoin—can go viral and powerfully affect economies, but such narratives have traditionally been ignored in economics and finance because they seem anecdotal and unscientific. In this groundbreaking book, Robert Shiller explains why we ignore these stories at our peril—and how we can begin to take them seriously. Using a rich array of examples and data, Shiller argues that studying popular stories that influence individual and collective economic behavior—what he calls "narrative economics"—may vastly improve our ability to predict, prepare for, and lessen the damage of financial crises and other major economic events. The result is nothing less than a new way to think about the economy, economic change, and economics. In a new preface, Shiller reflects on some of the challenges facing narrative economics, discusses the connection between disease epidemics and economic epidemics, and suggests why epidemiology may hold lessons for fighting economic contagions.

First came video and more recently high definition home entertainment, through to the internet with its streaming videos and not strictly legal peer-to-peer capabilities. With so many sources available, today's fan of horror and exploitation movies isn't necessarily educated on paths well-trodden — Universal classics, 1950s monster movies, Hammer — as once they were. They may not even be born and bred on DAWN OF THE DEAD. In fact, anyone with a bit of technical savvy (quickly becoming second nature for the born-clicking generation) may be viewing MYSTICS IN BALI and S.S. EXPERIMENT CAMP long before ever hearing of Bela Lugosi or watching a movie directed by Dario Argento. In this world, H.G. Lewis, so-called "godfather of gore," carries the same stripes as Alfred Hitchcock, "master of suspense." SPINEGRINDER is one man's ambitious, exhaustive and utterly obsessive attempt to make sense of over a century of exploitation and cult cinema, of a sort that most critics won't care to write about. One opinion; 8,000 reviews (or thereabouts).
