Colour Quest®: Amazing Art Hodder Children's Books

Produce beautiful dog portraits with this second book in the color-by-number Trianimals series, featuring artwork created in the popular "low poly" geometric style that gives each illustration an amazing 3-D appearance. Capture beautiful, lifelike canine faces with this irresistible color-by-number book. Graphic designer and illustrator Hope Little uses a distinctive "low poly" graphic style to fashion clean, contemporary three-dimensional designs made up of hundreds of triangles—an approach to organic subjects that gives them a modern aesthetic that is also relaxing to color. When the dog's face is completely colored in, the "low poly" effect produces an image that is wondrously realistic. Each picture in Trianimals comes with a numbered color palette that can be used as a guide to ensure each of your finished pieces is amazing. Or, you can indulge your creativity and choose shades of your own. The illustrations are printed on heavy paper stock to ensure that whatever medium you use—whether ink, marker, or paint—doesn't bleed through. The pages are also perforated, making your artworks easy to remove and display. In addition, some of the pages are also perforated around

the image so that it can be pressed out and made into a mask for parties, games, playtime, Halloween, birthdays, and more.
