This research collection presents a critical review of the materials used for learning English around the world. The first section includes a discussion of materials for specific learners and purposes, such as young learners, self-study, academic writing and general proficiency. The second section presents a detailed study of the materials used in Europe, Asia, North America, South America, Africa and Australia, and critically evaluates their effectiveness in the teaching of English to speakers of other languages. Taking both the teacher's and the learner's needs into consideration, the book makes a positive contribution to the future of research in materials development, and has practical applications. This comprehensive, critical analysis of materials in use around the world will be useful for academics researching materials development and applied linguistics and for students on post-graduate applied linguistics and ELT courses.

Language Assessment: Principles and Classroom Practices is designed to offer a comprehensive survey of essential principles and tools for second language assessment. Its first and second editions have been successfully used in teacher-training courses, teacher certification curricula, and TESOL master of arts programs. As the third in a trilogy of teacher education textbooks, it is designed to follow H. Douglas Brown's other two books, Principles of Language Learning and Teaching (sixth edition, Pearson Education, 2014) and Teaching by Principles (fourth edition, Pearson Education, 2015). References to those two books are made throughout the current book. Language Assessment features uncomplicated prose and a systematic, spiraling organization. Concepts are introduced with practical examples, understandable explanations, and succinct references to supportive research. The research literature on language assessment can be quite complex and assume that readers have technical knowledge and experience in testing. By the end of Language Assessment, however, readers will have gained access to this not-so-frightening field. They will have a working

knowledge of a number of useful, fundamental principles of assessment and will have applied those principles to practical classroom contexts. They will also have acquired a storehouse of useful tools for evaluating and designing practical, effective assessment techniques for their classrooms.

An instant #1 New York Times bestseller! This "timely and compelling" (Kirkus Reviews) middle grade novel about courage, hope, and resilience follows an Asian American boy fighting to keep his family together and stand up to racism during the initial

outbreak of the coronavirus. When the coronavirus hits Hong Kong, ten-year-old Knox Wei-Evans's mom makes the last-minute decision to move him and his siblings back to California, where they think they will be safe. Suddenly, Knox has two days to prepare for an international move—and for leaving his dad, who has to stay for work. At his new school in California, Knox struggles with being the new kid. His classmates think that because he's from Asia, he must have brought over the virus. At home, Mom just got fired and is panicking over the loss of health insurance, and Dad doesn't even know when he'll see them again, since the flights have been cancelled. And everyone struggles with Knox's blurting-things-out problem. As racism skyrockets during COVID-19, Knox tries to stand up to hate, while finding his place in his new country. Can you belong if you're feared; can you protect if you're new? And how do you keep a family together when you're oceans apart? Sometimes when the world is spinning out of control, the best way to get through it is to embrace our own lovable uniqueness.

"A swift-paced survival tale that's a cool blend of Lord of the Flies and Journey to the Center of the Earth." —School Library Journal  
"A sharp meditation on the seemingly universal difficulties of being young, smart, and uncertain." —BCCB "A multifaceted journey from darkness to light." —Kirkus Reviews Winner of the Red Maple Fiction Award A class field trips turns into an underground quest for survival in the latest middle grade novel from the author of Edgar Award winner OCDaniel. Mr. Baker's eighth grade class thought they were in for a normal field trip to Carlsbad Caverns in New Mexico. But when an earthquake hits, their field trip takes a terrifying turn. The students are plunged into an underground lake...and their teacher goes missing. They have no choice but to try and make their way back above ground, even though no one can agree on the best course of action. The darkness brings out everyone's true self. Supplies dwindle and tensions mount. Pretty and popular Silvia does everything she can to hide her panic attacks, even as she tries to step up and be a leader. But the longer she's underground, the more frequent and debilitating they become. Meanwhile, Eric has always been a social no one, preferring to sit at the back of the class and spend evenings alone. Now, he finds himself separated from his class, totally by himself underground. That is, until he meets an unexpected stranger. Told from three different points of view, this

fast-paced adventure novel explores how group dynamics change under dire circumstances. Do the students of Mr. Baker's class really know each other at all? Or do they just think they do? It turns out, it's hard to hide in the dark.

The long-awaited memoir by Canada's most celebrated Olympian and advocate for mental health. From one of Canada's most decorated Olympians comes a raw but life-affirming story of one woman's struggle with depression. In 2006, when Clara Hughes stepped onto the Olympic podium in Torino, Italy, she became the first and only athlete ever to win multiple medals in both Summer and Winter Games. Four years later, she was proud to carry the Canadian flag at the head of the Canadian team as they participated in the opening ceremony of the Vancouver Olympic Winter Games. But there's another story behind her celebrated career as an athlete, behind her signature billboard smile. While most professional athletes devote their entire lives to training, Clara spent her teenage years using drugs and drinking to escape the stifling home life her alcoholic father had created in Elmwood, Winnipeg. She was headed nowhere fast when, at sixteen, she watched transfixed in her living room as gold medal speed skater Gaétan Boucher effortlessly raced in the 1988 Calgary Olympics. Dreaming of one day competing herself, Clara channeled her anger, frustration, and raw ambition into the endurance sports of speed skating and cycling. By 2010, she had become a six-time Olympic medalist. But after more than a decade in the gruelling world of professional sports that stripped away her confidence and bruised her body, Clara began to realize that her physical extremes, her emotional setbacks, and her partying habits were masking a severe depression. After winning bronze in the last speed skating race of her career, she decided to retire from that sport, determined to repair herself. She has emerged as one of our most committed humanitarians, advocating for a variety of social causes both in Canada and around the world. In 2010, she became national spokesperson for Bell Canada's Let's Talk campaign in support of mental health awareness, using her Olympic standing to share the positive message of the power of forgiveness. Told with honesty and passion, *Open Heart, Open Mind* is Clara's personal journey through physical and mental pain to a life where love and understanding can thrive. This revelatory and inspiring story will touch the hearts of all Canadians.

From one of contemporary literature's bestselling, critically acclaimed, and beloved authors: a "luminous" novel (Jennifer Egan, *The New York Times Book Review*) about a fiercely compelling young widow navigating grief, fear, and longing, and finding her own voice—"heartrendingly transcendent" (*The New York Times*, Janet Maslin). Set in Wexford, Ireland, Colm Tóibín's magnificent seventh novel introduces the formidable, memorable, and deeply moving Nora Webster. Widowed at forty, with four children and not enough money, Nora has lost the love of her life, Maurice, the man who rescued her from the stifling world to which she was born. And now she fears she may be sucked back into it. Wounded, selfish, strong-willed, clinging to secrecy in a tiny community where everyone knows your business, Nora is drowning in her own sorrow and blind to the suffering of her young sons, who have lost their father. Yet she has moments of stunning insight and empathy, and when she begins to sing again, after decades, she finds solace, engagement, a haven—herself. Nora Webster "may actually be a perfect work of fiction" (*Los Angeles Times*), by a "beautiful and daring" writer (*The New York Times Book Review*) at the zenith of his career, able to "sneak up

on readers and capture their imaginations" (*USA TODAY*).

"Miraculous...Tóibín portrays Nora with tremendous sympathy and understanding" (Ron Charles, *The Washington Post*).

The co-founder and longtime president of Pixar updates and expands his 2014 *New York Times* bestseller on creative leadership, reflecting on the management principles that built Pixar's singularly successful culture, and on all he learned during the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. "Might be the most thoughtful management book ever."—*Fast Company* For nearly thirty years, Pixar has dominated the world of animation, producing such beloved films as the *Toy Story* trilogy, *Finding Nemo*, *The Incredibles*, *Up*, and *WALL-E*, which have gone on to set box-office records and garner eighteen Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986. Nine years later, *Toy Story* was released, changing animation forever. The essential ingredient in that movie's success—and in the twenty-five movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on philosophies that protect the creative process and defy convention, such as:

- Give a good idea to a mediocre team and they will screw it up. But give a mediocre idea to a great team and they will either fix it or come up with something better.
- It's not the manager's job to prevent risks. It's the manager's job to make it safe for others to take them.
- The cost of preventing errors is often far greater than the cost of fixing them.
- A company's communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody.

*Creativity, Inc.* has been significantly expanded to illuminate the continuing development of the unique culture at Pixar. It features a new introduction, two entirely new chapters, four new chapter postscripts, and changes and updates throughout. Pursuing excellence isn't a one-off assignment but an ongoing, day-in, day-out, full-time job. And *Creativity, Inc.* explores how it is done.

Companies in the business of providing knowledge -- for profit -- will dominate the 21st-century global marketplace. Can your business compete? In today's fast-paced world, knowledge is doubling nearly every seven years, while the life cycle of a business grows increasingly shorter. The best way -- and perhaps the only way -- to succeed is to become a "knowledge-based" business. In *The Monster Under the Bed*, Stan Davis and Jim Botkin show how:

- \* Every business can become a knowledge business
- \* Every employee can become a knowledge worker
- \* Every customer can become a lifelong learner

*The Monster Under the Bed* explains why it's necessary for businesses to educate employees and consumers. Consider the fact that the vast majority of 60 million PC owners, for example, learned to use their computers not at school but at work or at home. Davis and Botkin explain how any high-tech, low-tech, or no-tech company can discover new markets and create new sources of income by building future business on a knowledge-for-profit basis -- and how, once it does, its competitors must follow or fail. Filled with examples of high-profile companies that are riding the crest of this powerful wave, *The Monster Under the Bed* is an insightful exploration of the many ways that the knowledge-for-profit

revolution will profoundly affect our businesses, our educational processes, and our everyday lives.

\*#1 NATIONAL BESTSELLER \*Winner, Kobo Emerging Writer Prize Nonfiction \*Winner, Indigenous Voices Awards \*Winner, High Plains Book Awards \*Finalist, CBC Canada Reads \*A Globe and Mail Book of the Year \*An Indigo Book of the Year \*A CBC Best Canadian Nonfiction Book of the Year In this extraordinary and inspiring debut memoir, Jesse Thistle, once a high school dropout and now a rising Indigenous scholar, chronicles his life on the streets and how he overcame trauma and addiction to discover the truth about who he is. If I can just make it to the next minute...then I might have a chance to live; I might have a chance to be something more than just a struggling crackhead. From the Ashes is a remarkable memoir about hope and resilience, and a revelatory look into the life of a Métis-Cree man who refused to give up. Abandoned by his parents as a toddler, Jesse Thistle briefly found himself in the foster-care system with his two brothers, cut off from all they had known. Eventually the children landed in the home of their paternal grandparents, whose tough-love attitudes quickly resulted in conflicts. Throughout it all, the ghost of Jesse's drug-addicted father haunted the halls of the house and the memories of every family member. Struggling with all that had happened, Jesse succumbed to a self-destructive cycle of drug and alcohol addiction and petty crime, spending more than a decade on and off the streets, often homeless. Finally, he realized he would die unless he turned his life around. In this heartwarming and heart-wrenching memoir, Jesse Thistle writes honestly and fearlessly about his painful past, the abuse he endured, and how he uncovered the truth about his parents. Through sheer perseverance and education—and newfound love—he found his way back into the circle of his Indigenous culture and family. An eloquent exploration of the impact of prejudice and racism, *From the Ashes* is, in the end, about how love and support can help us find happiness despite the odds.
