Dressed to Kill Sarup &  
Sons

After years of  
searching through  
dusty museum  
collections and royal  
stores across India,

acclaimed designer  
Ritu Kumar has  
uncovered many of the  
last surviving examples  
of traditional royal  
clothing. Her book is a  
celebration of this rich  
legacy of textiles and  
craftsmanship. This in-  
depth study of the  
evolution of Indian  
royal costume spans  
the centuries from the

first representations of clothing in ancient India, through the reign of the Mughal emperors and the days of the British Raj, to Indian independence and royalty in the present day. The author covers both men's and women's garments, Hindu and Muslim styles, and documents the evolution of European-Indian fashions. This sumptuous volume is illustrated with a variety of material, much of which has never been published before ranging from archive photographs, miniatures, royal portraits and cinema stills, to detailed images of garments and textiles from as far back as the seventeenth century. A separate section explains in detail the

techniques behind the traditional crafts of weaving, dyeing, printing and embroidery, with sketches and patterns illustrating a variety of garments. Specially commissioned photographs of members of royalty wearing their traditional clothes emphasise the colour, shape, ornament and texture of these stunning costumes. This royal family album is supplemented by stories of royal India told to the author by the last Rajmatas who still remember the splendours of courtly life. AUTHOR: Ritu Kumar is one of India's foremost designers, who has developed a unique style combining the ancient traditions of Indian craftsmanship with contemporary

innovations. She began her work many years ago in a small village near Calcutta with just four hand-block printers and a couple of tables. 360 colour & 100 b/w illustrations

 The wave of liberalization in the 1990s changed forever the face of India. It bolstered the economy. It raised the stock index. It raised hem lines of skirts even more. It led to the growth of the fashion police And also the moral police.  
 Numbered items became item numbers.

To the twenty-two scheduled languages were added C, Cobol, Java. You were either watching sitcoms or starting dotcoms. News became entertainment. Entertainment became news. Terror struck the country-sometimes in the form of gunmen from across the border and sometimes in the form of Bollywood movies. To SMS-ize-'It wuz da best of tyms, it wuz da wrst of tyms' Having been a part of this chaotic revolution in popular culture, blogger Arnab Ray of greatbong.net takes a funny, sarcastic, politically incorrect and totally irreverent look at assorted random stuff including Bollywood C-grade revenge masalas, ribald songs of the people, movie punching, fake

educational institutes, stubborn bathroom flushes, unreal reality shows, the benefits of corruption, opulent weddings, brains in toaster ovens, seedy theatres and pompous non-resident Indians. Nothing here is off-limits and no cow too holy. We guarantee it

This is a worthy addition to the publications of the National Museum, New Delhi. The novelty of the textile collection in the National Museum is that unlike the Indian Museum, Kolkata and the Maharaja Sawai Man Singh II Museum Jaipur, it has no heritage collections upon which it can draw. This has its advantages. The

collections based on gifts and purchase offer a heterogeneity which a scholar can utilize while alluding to the continuity between the past and present. As the catalogue is devoted to the master pieces of the costume from the collection, pagris, head gear have not been included and the same applies to the unstitched garment, the sari. However, India has a vast continuum from which it is possible to elicit information and the costume collection mirrors this. While Lotika Varadarajan, as Tagore Fellow, brings her wide knowledge of textiles to bear on the subject, Sushmit Sharma adds another dimension to the work by his understanding of visual language in its many dimensions. This

has opened up further avenues of investigation adding additional depth to the subject. The work has been envisaged keeping in mind the transformation of the role of museum in modern times from being geared to the needs of a research scholar to that of translating works of art into quotidian language.

What do I wear today?  
The way we answer  
this question says  
much about how we  
manage and express

our identities. This detailed study examines sartorial style in India from the late nineteenth century to the present, showing how trends in clothing are related to caste, level of education, urbanization, and a larger cultural debate about the nature of Indian identity. Clothes have been used to assert power, challenge authority, and instigate social change throughout Indian society. During the struggle for independence, members of the Indian elite incorporated elements of Western style into their clothes, while Gandhi's adoption of the loincloth symbolized the rejection of European power and the contrast between Indian poverty and

British wealth. Similar tensions are played out today, with urban Indians adopting "ethnic" dress as villagers seek modern fashions. Illustrated with photographs, satirical drawings, and magazine advertisements, this book shows how individuals and groups play with history and culture as they decide what to wear.

Harper Collins  
Because clothing, food, and shelter are basic human needs, they provide excellent entries to cultural values and individual aesthetics. Everyone gets dressed every day, but body art has not received the attention it deserves as the most common and universal of material expressions of culture.

The Grace of Four Moons aims to document the clothing decisions made by ordinary people in their everyday lives. Based on fieldwork conducted primarily in the city of Banaras, India, Pravina Shukla conceptualizes and realizes a total model for the study of body art—understood as all aesthetic modifications and supplementations to the body. Shukla urges the study of the entire process of body art, from the assembly of raw materials and the manufacture of objects, through their sale and the interactions between merchants and consumers, to the consumer's use of objects in creating personal decoration. *Costume Close-up*

A remarkable social and cultural inversion has occurred in the last fifty years: where once culture was the monopoly of the upper classes, it now, more often than not, bubbles up from those on the wrong side of the tracks. This

transformation has been especially evident in the world of style - with the authenticity of streetstyle challenging and then toppling the dictatorship of High Fashion.

In the beginning there was the fig leaf... and the toga. Crinolines and ruffs. Chain mail and corsets. What do these antiquated items have to do with the oh-so-twenty-first-century skinny jeans, graphic tee, and sexy pumps you slipped into this morning?

Everything! Fashion begets fashion, and life—from economics to politics, weather to warfare, practicality to the utterly

impractical—is reflected in the styles of any given era, evolving into the threads you buy and wear today. With the candidness, intelligence, and charm that made him a household name on Project Runway, Tim Gunn reveals the fascinating story behind each article of clothing dating back to ancient times, in a book that reads like a walking tour from museum to closet with Tim at your side. From Cleopatra's crown to Helen of Troy's sandals, from Queen Victoria's corset to Madonna's cone bra, Dynasty's power suits to Hillary Clinton's pantsuits, Tim Gunn's Fashion Bible takes you on a runway-ready journey through the highs and lows of

fashion history. Drawing from his exhaustive knowledge and intensive research to offer cutting-edge insights into modern style, Tim explains how the 1960s ruined American underwear, how Beau Brummell created the look men have worn for more than a century, why cargo capri pants are a plague on our nation, and much more. He will make you see your wardrobe in a whole new way. Prepare to be inspired as you change your thinking about the past, present, and future of fashion!

This volume brings together a group of international scholars in new explorations of the world of Byzantine

women in the period 800-1200. The specific aim of this collection is to investigate the participation of women - non-imperial women in particular - in supposedly 'masculine' fields of operation.

Contributions focus on women's participation in the street life of Constantinople, their appearance in Byzantine fiscal documents, their monastic foundations, their costume and engagement with entertainment at the imperial court, and the way heroines are portrayed in the Byzantine novels.
