Seeking adventure during the school holidays, five teenagers from the Indian suburb of Lenasia accidentally witness a violent crime that has a lasting impact on their lives. Starting in June of 1993, the novel follows the Five through the next decade as they confront, both as individuals and as a group, questions of who they are, who they are allowed to be, and who they are expected to be in the New South Africa. They must query what role they will allow tradition, ancestry, sexuality, skin colour, love, money and culture to play in their lives as they attempt to forge new paths, sometimes stumbling along the way, but always willing to give one another a helping hand.

The themes examined include religion, caste, language, and gender in online communities and call centers, and the roles of these factors in the global economy, Bollywood online and offline, digital music, websites for arranging marriages, and so on. The book attempts to map «South Asia» in relation to global technospaces produced through and as a consequence of economic globalization efforts.

Music for the Piano Volume I Crossway

The best-selling author of *BRINGING UP BÉBÉ* investigates life in her forties, and wonders whether her mind will ever catch up with her face. When Pamela Druckerman turns 40, waiters start calling her "Madame," and she detects a new message in men's gazes: I would sleep with her, but only if doing so required no effort whatsoever. Yet forty isn't even technically middle-aged anymore. And there are upsides: After a lifetime of being clueless, Druckerman can finally grasp the subtext of conversations, maintain (somewhat) healthy relationships and spot narcissists before they ruin her life. What are the modern forties? What do we know once we reach them? What makes someone a "grown-up" anyway? And why didn't anyone warn us that we'd get cellulite on our arms? Part frank

memoir, part hilarious investigation of daily life, *There Are No Grown-Ups* diagnoses the in-between decade when... • Everyone you meet looks a little bit familiar. • You're matter-of-fact about chin hair. • You can no longer wear anything ironically. • There's at least one sport your doctor forbids you to play. • You become impatient while scrolling down to your year of birth. • Your parents have stopped trying to change you. • You don't want to be with the cool people anymore; you want to be with your people. • You realize that everyone is winging it, some just do it more confidently. • You know that it's ok if you don't like jazz. Internationally best-selling author and New York Times contributor Pamela Druckerman leads us on a quest for wisdom, self-knowledge and the right pair of pants. A witty dispatch from the front lines of the forties, *THERE ARE NO GROWN-UPS* is a (midlife) coming-of-age story--and a book for anyone trying to find their place in the world.

Theobald Maske has an unusual problem: his wife's underpants won't stay on. One Sunday morning they fall to her ankles right in the middle of town--a public scandal! Mortified, Theo swears to keep her at home until she can find some less unruly undies. Amid this chaos he's trying to rent a room in their flat. The prospective lodgers have some underlying surprises of their own. In *The Underpants*, Steve Martin brings his comic genius and sophisticated literary style to Carl Sternheim's classic 1910 farce, *Die Hose*. His hilarious new version was staged by Artistic Director Barry Edelstein, and opened in March '02 on Off-Broadway to critical acclaim.

From the Pulitzer Prize-winning culture critic for Time magazine comes the tremendously controversial, yet highly persuasive, argument that our devotion to the largely unexamined myth of egalitarianism lies at the heart of the ongoing "dumbing of America." Americans have always stubbornly clung to the myth of egalitarianism, of the supremacy of the individual average man. But here, at long last, Pulitzer Prize-winning critic William A. Henry III takes on, and debunks, some basic, fundamentally ingrained ideas: that everyone is pretty much alike (and should be); that self-fulfillment is more important than objective achievement; that everyone has something significant to contribute; that all cultures offer something equally worthwhile; that a truly just society would automatically produce equal success results across lines of race, class, and gender; and that the common man is almost always right. Henry makes clear, in a book full of vivid examples and unflinching opinions, that while these notions are seductively democratic they are also hopelessly wrong.

Reports of the death of reading are greatly exaggerated Do you worry that you've lost patience for anything longer than a tweet? If so, you're not alone. Digital-age pundits warn that as our appetite for books dwindles, so too do the virtues in which printed, bound objects once trained us: the willpower to focus on a sustained argument, the curiosity to look beyond the day's news, the willingness to be alone. The shelves of the world's great libraries, though, tell a more complicated story. Examining the wear and tear on the books that they contain, English professor Leah Price finds scant evidence that a golden age of reading ever existed. From the dawn of mass literacy to the invention of the paperback, most readers already skimmed and multitasked. Print-era doctors even forbade the very same silent absorption now recommended as a cure for electronic addictions. The evidence that books are dying proves even scarcer. In encounters with librarians, booksellers and activists who are reinventing old ways of reading, Price offers fresh hope to bibliophiles and literature lovers alike. Fingerpicking Disney (Songbook) Popular Prakashan

From *The Matrix* and *Harry Potter* to *Stargate SG:1* and *The X-Files*, recent science fiction and fantasy offerings both reflect and produce a sense of the religious. This work examines this pop-culture spirituality, or "postmodern sacred," showing how consumers use the symbols contained in explicitly "unreal" texts to gain a secondhand experience of transcendence and belief. Topics include how media technologies like CGI have blurred the lines between real and unreal, the polytheisms of *Buffy* and *Xena*, the New Age Gnosticism of *The DaVinci Code*, the Islamic "Other" and science fiction's response to 9/11, and the Christian Right and popular culture. Today's pervasive, saturated media culture, this work shows, has utterly collapsed the sacred/profane binary, so that popular culture is not only powerfully shaped by the discourses of religion, but also shapes how the religious appears and is experienced in the contemporary world.

Carmine Appice has enjoyed a jaw-dropping rock-and-roll life—and now he is telling his scarcely believable story. Appice ran with teenage gangs in Brooklyn before becoming a global rock star in the Summer of Love, managed by the Mob. He hung with Hendrix, unwittingly paid for an unknown Led Zeppelin to support him on tour, taught John Bonham to play drums (and helped Fred Astaire too), and took part in Zeppelin's infamous deflowering of a groupie with a mud shark. After enrolling in Rod Stewart's infamous Sex Police, he hung out with Kojak, accidentally shared a house with Prince, was blood brothers with Ozzy Osbourne and was fired by Sharon. He formed an all-blond hair-metal band, jammed with John McEnroe and Steven Seagal, got married five times, slept with 4,500 groupies—and, along the way, became a rock legend by single-handedly reinventing hard rock and heavy metal drumming. His memoir, *Stick It!*, is one of the most extraordinary and outrageous rock-and-roll books of the early twenty-first century.
