There is no one definition of case law, but rather a plurality of meanings. In this respect, after an analysis of Roman iurisprudencia and Anglo-Saxon case law, this work considers the Spanish legal system, as an example of a Continental jurisdiction.

Bookseller Coffee House Press

Religion and Psychology is a thorough and incisive survey of the current relationship between religion and psychology from the leading scholars in the field. This is an essential resource for students and researchers in the area of psychology of religion. Issues addressed are: * The Psychology-Theology Dialogue * The Psychology-Comparativist Dialogue * Psychology, Religion and Gender Studies * Psychology "as" Religion * Social Scientific Approaches to the Psychology of Religion * The Empirical Approach * International Perspectives

Translations of the Philosophical Works Bloomsbury Publishing

One of the first attempts to present a comprehensive study of legal translation, this book is an interdisciplinary study in law and translation theory. It is not bound to any specific languages or legal systems, although emphasis is placed on translation between common law and civil law jurisdictions. The main focus is on the translation of texts which are authoritative sources of the law; examples are cited primarily from statutes, codes and constitutions (Canada, Switzerland and Belgium), as well as instruments of the European Union and international treaties and conventions. Dealing with theoretical as well as practical aspects of the subject matter, the author analyses legal

translation as an act of communication in the mechanism of the law, thus making it necessary to redefine the goal of legal translation. This book is intended for both lawyers and linguists, translation theorists, legal translators and drafters, legal lexicographers, as well as teachers and students of translation.

Designed to Give the Orthography, Pronunciation, Meaning, and Etymology of about 38,000 Words and Phrases in the Speech and Literature of the English-speaking Peoples, 800 Pictorial Illustrations BRILL

De Spectaculis, also known as On the Spectacles or The Shows, is a surviving moral and ascetic treatise by Tertullian. Written somewhere between 197-202, the work looks at the moral legitimacy and consequences of Christians attending the circus, theatre, or amphitheatre.

Music, Books on Music, and Sound Recordings Princeton University Press

In this penetrating study, Russell Stinson explores how four of the greatest composers of the nineteenth century--Felix Mendelssohn, Robert Schumann, Franz Liszt, and Johannes Brahms--responded to the model of Bach's organ music. The author shows that this quadrumvirate not only borrowed from Bach's organ works in creating their own masterpieces, whether for keyboard, voice, orchestra, or chamber ensemble, but that they also reacted significantly to the music as performers, editors, theorists, and teachers.

Furthermore, the book reveals how these four titans influenced one another as "receptors" of this repertory and how their mutual acquaintances--especially Clara Schumann--contributed as well. As the first comprehensive discussion of this topic ever attempted, Stinson's book represents a major step forward in the literature on the so-called Bach revival. He considers biographical as well as musical evidence to arrive at a host of new and sometimes startling conclusions. Filled with fascinating anecdotes, the study also includes detailed observations on how these composers annotated their personal

copies of Bach's organ works. Stinson's book is entirely up-to-date and offers much material previously unavailable in English. It is meticulously annotated and indexed, and it features numerous musical examples and facsimile plates as well as an exhaustive bibliography. Included in an appendix is Brahms's hitherto unpublished study score of the Fantasy in G Major, BWV 572. Engagingly written, this study should be read by anyone at all interested in the music of Bach or the music of the nineteenth century.

The Organ of the Book Trade Walter de Gruyter GmbH & Co KG

This handbook for teachers provides both practical, up-to-date guidance and a theoretical overview on a number of key topics in Latin teaching. Using a wealth of interviews, observations and pupil transcripts, Steven Hunt title utilizes case-study evidence of excellent practice in teaching and learning from a wide variety of institutions: from outreach programmes, community schools and academies in the UK, to New York Charter Schools, KIP schools and schools in Eastern Seaboard states in the USA. Offering practical advice on topics such as essay writing, teaching controversial topics including women, slavery, ethnicity and social hierarchy, making use of primary sources and using ICT to advance language skills, the book also engages with broader questions of approach and theory. These include a survey of the three main approaches to Latin teaching: grammar-translation, communicative and reading approaches; explanation of cognitive and social approaches to learning; and analysis of the differences between intrinsic and extrinsic motivation. Moreover, traditional arguments about the value and purpose of learning Latin at school level are re-examined in the light of current educational thinking and government policy-making. This book is invaluable for trainees, newly qualified teachers and more experienced practitioners looking for practical ideas and strategies to motivate and engage learners of Latin. A companion website www.startingtoteachlatin.org is under construction and will contain a range of resources and information for teachers.

accidentally overhears a radio broadcast that reveals the Red Army's advancement and is forced to tell a series of lies in order to explain his knowledge.

The Book of Pontiffs of the Church of Ravenna (Medieval Texts in Translation) Dalcassian Publishing Company

How do the bodies we inhabit affect our relationship with art? How does art affect our relationship to our bodies? T Fleischmann uses Felix González-Torres's artworks—piles of candy, stacks of paper, puzzles—as a path through questions of love and loss, violence and rejuvenation, gender and sexuality. From the back porches of Buffalo, to the galleries of New York and L.A., to farmhouses of rural Tennessee, the artworks act as still points, sites for reflection situated in lived experience. Fleischmann combines serious engagement with warmth and clarity of prose, reveling in the experiences and pleasures of art and the body, identity and community.

Nouveau dictionnaire historique et critique, pour servir de supplement ou de continuation au Dictionnaire historique et critique de mr. Pierre Bayle. Par Jaques George De Chauffepié. Tome premier [-quatrieme!] Kluwer Law International B.V. This volume presents a novel and distinct contribution to previous research on the rich Lutheran heritage of music. It builds upon a current surge of interest in the field, which resonates with a wider interest in connections between music and religion, as well as with cultural and aesthetic dimensions of faith at large. The book situates the topic in relation to recent developments within historical and cultural studies that have developed a more nuanced and positive view of the interplay between theologians and other cultural agents in the evolution of Western modernity during post Reformation processes of 'confessionalization'. It combines conceptual discussions of key terms relevant to the study of the development and significance of an Early Modern Lutheran Music Culture with theological readings of central texts on music, analytic approaches to historical repertoires and material perspectives on its dissemination.

Ancient Laws and Institutes of England Routledge

What this book intends to do is to study three-dimensionalism (the distinction values-norms-facts) not in what could be called its historical dimension, but in its substantive aspect, as a "form" that, when applied to different legal themes, would construct a "material" theory of law.

The American Addition

That Wagner conceived of himself creatively as both man and woman is central to an understanding of his life and art. So argues Jean-Jacques Nattiez in this richly insightful work, where he draws from semiology, music criticism, and psychoanalysis to explore such topics as Wagner's theories of music drama, his anti-Semitism, and his psyche. Wagner, who wrote the libretti for the operas he composed, maintained that art is the union of the feminine principle, music, and the masculine principle, poetry. In light of this androgynous model, Nattiez reinterprets the Wagnerian canon, especially the Ring of the Nibelung, which is shown to contain a metaphorical transposition of Wagner's conception of

the history of music: Siegfried appears as the poet, Brunnhilde, as music, and their union is an androgynous one in which individual identity fades and the lovers revert to a preconflictual, presexual state. Nattiez traces the androgynous symbol in Wagner's theoretical writings throughout his career. Looking to explain how this idea, so closely bound up with sexuality, took root in Wagner's mind, the author considers the possibility of Freudian and Jungian interpretations. In particular he explores the composer's relationship with his mother, a distant woman who discouraged his interest in the theater, and his stepfather, a loving man whom Wagner suspected was not only his real father but also a Jew. Along with psychoanalysis, Nattiez critically applies various structuralist and feminist theories to Wagner's creative enterprise to demonstrate how the nature of twentieth-

century hermeneutics is itself androgynous. Originally published in 1993. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
