Return to the Dark Valley Liveright Publishing Neuroeconomics, neuromarketing, neuroaesthetics, and neurotheology are just a few of the novel disciplines that have been inspired by a combination of ancient knowledge along with

recent discoveries about how the human brain works. This fascinating and thought provoking new book critically questions our love affair with brain imaging. *City of Panic* Old Street Publishing This book deals with the ideas and institutions which underpinned the Nazi regime's attempt to restructure a 'class' society along racial lines. **Mr Charles Booth's Inquiry** La

cucina pugliese With his face reconstructed into the spitting image of Leonardo DiCaprio (apart from the small matter of an erectile nose) Jude travels on foot to the inferno of Dublin, in hot pursuit of Angela, ex-Galway chip-shop employee and his True Love. A spectacular chase through the city of Ulysses ensues, transformed by Gough's talent into a dazzling metaphor of

21st century violence, alienation and progress. Hokkaido Highway Blues DigiCat When Vladan Borojevic googles the name of his father Nedelko, a former officer in the Yugoslav People's Army, supposedly killed in the civil war after the decay of Yugoslavia, he unexpectedly discovers a dark family secret. The story which then unfolds takes him back to the

catastrophic events of 1991, when he first heard the military term deployment and his idyllic childhood came to a sudden end. Seventeen years later Vladan's discovery that he is the son of a fugitive war criminal sends him off on a journey round the Balkans to find his elusive father. On the way, he also finds out how the falling apart of his family is closely linked with the disintegration of the world

they used to live in. The story of the Borojevic family strings and juxtaposes images of the Balkans past and present, but mainly deals with the tragic fates of people who managed to avoid the bombs, but were unable to escape the war. The Republic, dominated by the human race, is in the

midst of an all-out war with the Teroni Federation. Almost a year has passed since the events of *Starship: Mercenary*. Captain Wilson Cole now commands a fleet of almost fifty ships, and he has become the single greatest military force on the Inner Frontier. With one exception. The Republic still comes and goes as it pleases, taking what it wants, conscripting

men, and extorting taxes, even though the Frontier worlds receive nothing in exchange. And, of course, the government still wants Wilson Cole and the starship Theodore Roosevelt. He has no interest in confronting such an overwhelming force, and constantly steers clear of them. Then an incident occurs that changes everything, and Cole declares war

on the Republic. Outnumbered and always outgunned, his fleet is no match for the Republic's millions of military vessels, even after he forges alliances with the warlords he previously hunted down. It's a hopeless cause...but that's just what Wilson Cole and the Teddy R. are best at. The civil history of the kingdom of Naples University of Chicago Press Updated classic explores

Republic. Since its publication in Italy, Claudio Pavone's masterwork has become indispensable to anyone seeking to understand this period and its continuing importance for the nation's identity. Pavone casts a sober eye on his protagonists' ethical and ideological motivations. He uncovers a multilayered conflict, in which class antagonisms, patriotism and political ideals all played a

part. A clear understanding of this complexity allows him to explain many details of the post-war transition, as well as the legacy of the Resistance for modern Italy. In addition to being a monumental work of scholarship, *A Civil War* is a folk history, capturing events, personalities and attitudes that were on the verge of slipping entirely out of recollection to the detriment of Italy's understanding

of itself and its past."--Jacket.

City of Panic takes the reader on a journey across the airy boulevards of Paris and into the crypt of its Metro. In this highly original work, Steven A. Epstein shows that the ways Italians employ words and think about race and labor are profoundly affected by the language used in medieval Italy to sustain a system of slavery. The author's findings about the surprising persistence of the "language of slavery" demonstrate the difficulty of escaping the legacy of a shameful

past. For Epstein, language is crucial to understanding slavery, for it preserves the hidden conditions of that institution. He begins his book by discussing the words used to conduct and describe slavery in Italy, from pertinent definitions given in early dictionaries, to the naming of slaves by their masters, to the ways in which bondage has been depicted by Italian writers from

Dante to Primo Levi and Antonio Gramsci. Epstein then probes Italian legal history, tracing the evolution of contracts for buying, selling, renting, and freeing people. Next he considers the behaviors of slaves and slave owners as a means of exploring how concepts of liberty and morality changed over time. He concludes by analyzing the language of the market, where medieval

Italians used words to fix the prices of people they bought and sold. The first history of slavery in Italy ever published, Epstein's work has important implications for other societies, particularly America's. "For too long," Epstein notes, "Americans have studied their own slavery as it if were the only one ever to have existed, as if it were the archetype of all others." His book allows citizens of the United

States and other former slave-holding nations a richer understanding of their past and present. *Fundamentals of Chemistry* Berg Publishers With contributions from experts in the field of sociology of law, this book provides an overview of current perspectives on socio-legal studies. It focuses particularly on the relationship between law and society described in recent social

systems theory as 'structural coupling'. The first part of the book presents a reconstruction of theoretical tendencies in the field of socio-legal studies, characterised by the emergence of a transnational model of legal systems no longer connected to territorial borders and culturally specific aspects of single legal orders. In the following parts of the book, the

give shape to new institutions for the new world. It is like the Babylon referred to by Borges, the country of randomness and uncertainty in which 'no decision is final; all branch into others'. Out of the world that had promised us modernity, what Jean Paul Sartre had summarized with sublime formula 'le choix que je suis' ('the choice that I am'), we inhabit that flattened, mobile and

dematerialized space, where as never before the principle of the heterogenesis of purposes is sovereign. This is Babel. *The New Spoon River* John Wiley & Sons Modern Conflict and the Senses investigates the sensual worlds created by modern war, focusing on the sensorial responses embodied in and provoked by the materiality of conflict and its aftermath. The volume

positions the industrialized nature of twentieth-century war as a unique cultural phenomenon, in possession of a material and psychological intensity that embodies the extremes of human behaviour, from total economic mobilization to the unbearable sadness of individual loss. Adopting a coherent and integrated hybrid approach to the complexities of modern

conflict, the book considers issues of memory, identity, and emotion through wartime experiences of tangible sensations and bodily requirements. This comprehensive and interdisciplinary collection draws upon archaeology, anthropology, military and cultural history, art history, cultural geography, and museum and heritage studies in order to

revitalize our understanding of the role of the senses in conflict. *Theory & History of Historiography* Europa Editions La cucina puglieseNewton Compton Editori **Ecodesign** Bloomsbury Publishing The debate over the place of religion in secular, democratic societies dominates philosophical and intellectual discourse. These arguments often polarize around

simplistic reductions, making efforts at reconciliation impossible. Yet more rational stances do exist, positions that broker a peace between relativism and religion in people's public, private, and ethical lives. Christianity, Truth, and Weakening Faith advances just such a dialogue, featuring the collaboration of two major philosophers known for

their progressive approach to this issue. Seeking unity over difference, Gianni Vattimo and René Girard turn to Max Weber, Eric Auerbach, and Marcel Gauchet, among others, in their exploration of truth and liberty, relativism and faith, and the tensions of a world filled with new forms of religiously inspired violence. Vattimo and Girard ultimately

conclude that secularism and the involvement (or lack thereof) of religion in governance are, in essence, produced by Christianity. In other words, Christianity is "the religion of the exit from religion," and democracy, civil rights, the free market, and individual freedoms are all facilitated by Christian culture. Through an exchange that is both intimate and enlightening, Vattimo and Girard share

their unparalleled insight into the relationships among religion, modernity, and the role of Christianity, especially as it exists in our multicultural world. *Yugoslavia, My Fatherland* Macmillan College "Fans of Roberto Bolaño will feel right at home in this globetrotting tale of misfit poets and ultraviolent drug lords . . . A page turner" (Miami Rail). Manuela is a woman

haunted by a troubled childhood that she tries to escape through books and poetry. Tertullian is an Argentine preacher who claims to be the Pope's son, ready to resort to extreme methods to create a harmonious society. Ferdinand Palacios is a Colombian priest with a dark paramilitary past, now confronted with his guilt. Rimbaud was the precocious,	brilliant poet whose life was incessant exploration. Along with Juana and the consul, these are the central characters in Santiago Gamboa's "complex, challenging story that speaks to the terror and dislocation of the age" (Kirkus Reviews). "Action-packed plotting . . . examines the movement of people across the shifting geopolitical landscape, the impossibility of returning	and the potential redemptive power of poetry." —The New York Times Book Review "An unsettling and brilliant document of contemporary life; highly recommended ." —Library Journal (starred review) "Gamboa possesses considerable talent at creating energetic scenes that spiral off in intriguing directions." —San Francisco Chronicle
