Motivation is key to substance use behavior change.

Counselors can support clients' movement toward positive changes in their substance use by identifying and enhancing motivation that already exists.

Motivational approaches are based on the principles of person-centered counseling. Counselors'

use of empathy, not authority and power, is key to enhancing clients' motivation to change. Clients are experts in their own recovery from SUDs. Counselors should engage them in collaborative partnerships.

Ambivalence about change is normal.

Resistance to change is an expression of ambivalence about change, not a client trait or characteristic.

Confrontational approaches increase client resistance and discord in the counseling relationship.

Motivational approaches explore ambivalence in a nonjudgmental and compassionate way.

When he's not working

at The Pie Who Loved Me (a spy-themed pizza shop) or passing the time with his girlfriend Sab (occasionally in one of their town's seventeen cemeteries), he carefully avoids the spotlight. But Excel knows that his family is far from normal. His mother, Maxima, was once a Filipina B-movie action star who now makes her living scamming men online. The old man they live with is not his grandfather, but Maxima's lifelong martial arts trainer. And years ago, on Excel's tenth birthday, Maxima revealed a secret that he must keep forever. "We are 'TNT'—tago ng tago," she told him, "hiding and hiding." Excel is undocumented—and one accidental slip

could uproot his entire life. Casting aside the paranoia and secrecy of his childhood, Excel takes a leap, joining Sab on a journey south to a ramshackle desert town called Hello City. Populated by drifters, old hippies, and washed-up techies—and existing outside the normal constructs of American society—Hello City offers Excel a chance to forge his own path for the first time. But after so many years of trying to be invisible, who does he want to become? And is it possible to put down roots in a country that has always considered you an outsider? Thrumming with energy and at once critical and hopeful, *The Son of Good Fortune* is a luminous story of a mother and

son testing the strength of their bond to their country—and to each other.

Among the many who serve in the United States Armed Forces and who are deployed to distant locations around the world, myriad health threats are encountered. In addition to those associated with the disruption of their home life and potential for combat, they may face distinctive disease threats that are specific to the locations to which they are deployed. U.S. forces have been deployed many times over the

years to areas in which malaria is endemic, including in parts of Afghanistan and Iraq. Department of Defense (DoD) policy requires that antimalarial drugs be issued and regimens adhered to for deployments to malaria-endemic areas. Policies directing which should be used as first and as second-line agents have evolved over time based on new data regarding adverse events or precautions for specific underlying health conditions, areas of deployment, and other operational factors At the request of the Veterans Administration, Assessment of Long-Term Health Effects of Antimalarial Drugs When Used for Prophylaxis assesses the scientific evidence

regarding the potential for long-term health effects resulting from the use of antimalarial drugs that were approved by FDA or used by U.S. service members for malaria prophylaxis, with a focus on mefloquine, tafenoquine, and other antimalarial drugs that have been used by DoD in the past 25 years. This report offers conclusions based on available evidence regarding associations of persistent or latent adverse events.

Corporate Finance: Principles and Practice takes a finance-oriented approach to this body of law, instead of the typical casebook approach. Students don't learn finance from the cases; instead, they first learn financial principles, and then apply the finance they've learned to analyze and understand the cases. The book emphasizes what students will

need to know as lawyers practicing in the area -- with an emphasis on the contractual solutions employed to deal with the various conflicts and ambiguities that arise in the area.

This book contains data on over 150 of the most commonly used herbal medicines, dietary supplements and nutraceuticals. *Ephedra and Ephedrine for Weight Loss and Athletic Performance Enhancement* Harmony 10TH ANNIVERSARY EDITION Is the financial plan of mediocrity -- a

dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and

unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition

about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the

rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

The news felt like a punch in the gut. I cried in disbelief as the doctor told me what they found. In the blink of an eye, my world turned upside down. My husband brought me to the Emergency Room after I experienced a seizure. The hospital staff did scans, tests, and a biopsy, and now the doctor told me I had an inoperable brain tumor. The name of my nemesis was

Oligoastrocytoma, Grade 3. My husband and I used the CaringBridge website to keep family and friends informed on how I was doing. A Pilgrimage of Hope, A Story of Faith and Medicine, is my story chronicling the challenges in trying to triumph in the battle for my life. The memoirs capture the frightening details in a crash course with cancer and the possible treatments for this disease. Despite the cancer diagnosis, I found myself being called closer to God. I wanted to share my physical and spiritual journey with others so that when they are challenged, they will have some guidance in how to respond. With recovery in mind, my spiritual growth

deepened as I aligned my will with the will of God. A pilgrimage to the Holy Land at the end of my treatments fulfilled my yearning for a greater understanding of Christ. I shared the details of my trip to the Holy Land on my CaringBridge site and in this book.
