Jerahmeel* Stenhouse  
Publishers

"The wedding would go on. Prince Shafir would not let Megan Saxon steal away his cousin's groom-to-be. Stopping her by seduction seemed the easiest plan. He'd simply make Megan fall in love with another man - him.

But what would happen if the seducer found himself falling for a woman he couldn't, by royal rights, truly keep? A royal sheik with an iron-clad destiny - until love changed the rules."--Back cover.

A new edition of the most widely known and popular

collection of Japanese poetry. The best-loved and most widely read of all Japanese poetry collections, the Ogura Hyakunin Isshu contains 100 short poems on nature, the seasons, travel, and, above all, love. Dating back to the seventh century, these elegant, precisely observed waka poems (the precursor of haiku) express deep emotion through visual images based on a penetrating observation of the natural world. Peter MacMillan's new translation of his

prize-winning original conveys even more effectively the beauty and subtlety of this magical collection. Translated with an introduction and commentary by Peter MacMillan.

*Printing Landmarks*

Copper Canyon Press

This book is an in-depth analysis of three of the most crucial years in twentieth-century Italian history, the years 1943-46. After more than two decades of a Fascist regime and a disastrous war experience during which Italy changed sides,

these years saw the laying of the political and cultural foundations for what has since become known as Italy's First Republic. Drawing on texts from the literature, film, journalism, and political debate of the period, Antifascisms offers a thorough survey of the personalities and positions that informed the decisions taken in this crucial phase of modern Italian history. [Encyclopedia of Geomorphology](#) BRILL Printing Landmarks tells the story of the late

Tokugawa period's most distinctive form of popular geography: meisho zue. Beginning with the publication of Miyako meisho zue in 1780, these monumental books deployed lovingly detailed illustrations and informative prose to showcase famous places (meisho) in ways that transcended the limited scope, quality, and reliability of earlier guidebooks and gazetteers. Putting into spellbinding print countless landmarks of cultural significance, the

makers of meisho zue created an opportunity for readers to experience places located all over the Japanese archipelago. In this groundbreaking multidisciplinary study, Robert Goree draws on diverse archival and scholarly sources to explore why meisho zue enjoyed widespread and enduring popularity. Examining their readership, compilation practices, illustration techniques, cartographic properties, ideological import, and production networks, Goree finds that

the appeal of the books, far from accidental, resulted from specific choices editors and illustrators made about form, content, and process. Spanning the fields of book history, travel literature, map history, and visual culture, *Printing Landmarks* provides a new perspective on Tokugawa-period culture by showing how *meisho zue* depicted inspiring geographies in which social harmony, economic prosperity, and natural stability made for a peaceful polity.

The giant statue that has always stood in front of the Church of San Sepolcro in Barletta is called upon to save the town from an army of a

thousand men that is destroying all the towns and cities along the lower Adriatic coast.

VOCABULARY PRODIGY

Penguin  
This volume examines the flourishing of Futurist aesthetics in the European art and literature of the early twentieth century. Futurism was an artistic and social movement that was largely an Italian phenomenon, though there were parallel movements in Russia, England and elsewhere. The Futurists admired

speed, technology, youth and violence, the car, the airplane and the industrial city, all that represented the technological triumph of humanity over nature. This work looks at the prose, visual art, poetry, and the manifestos of Futurists from Russia to Italy. The author reveals the Moment's impulses and operations, tracing its echoes through the years to the work of "postmodern" figures like Roland Barthes. This updated edition reexamines the Futurist Moment in the light of a

new century, in which Futurist aesthetics seem to have steadily more to say to the present

**A Charm of Goldfinches and Other Collective**

**Nouns** Penguin  
Geomorphology, the discipline which analyzes the history and nature of the earth's surface, deals with the landforms produced by erosion, weathering, deposition, transport and tectonic processes. In recent decades there have been major developments in the discipline and these are reflected in this major

Encyclopedia, the first such reference work in the field to be published for thirty-five years.

Encyclopedia of Geomorphology has been produced in association with the International Association of Geomorphologists (IAG) and has a truly global perspective. The entries have been written by an international editorial team of contributors, drawn from over thirty countries, who are all among the leading experts in the discipline. In two lavishly illustrated

volumes, Encyclopedia contains nearly 700 alphabetically organized entries to provide a comprehensive guide both to specific landforms and to the major types of geomorphological processes that create them. The Encyclopedia also demonstrates the major developments that have taken place in recent years in our knowledge of tectonic and climatic changes and in the use of new techniques such as modelling, remote sensing and process measurement. Older

concepts, however, are not forgotten and provide an historical perspective on the development of ideas. Both accessible and authoritative, Encyclopedia of Geomorphology is destined to become the definitive resource for students, researchers and applied practitioners in the field of geomorphology and the cognate disciplines of geography, earth science, sedimentology and environmental science. *Introduction to Human Geography* Orchard Books

Idris is a child refugee, born into a world of tents and fences. He has known no other life than this. He has no memories of the world outside. Then the Wisp arrives, floating in on the evening breeze. Everyone who holds it finds their memories reawakened, their hopes of freedom reborn. But what about Idris, who has no memories? What will happen when he holds the magical Wisp? Storytelling and imagination have the power to offer hope in this extraordinary picture book from the Amnesty

CILIP Honour-winning author of *The Bone Sparrow*, Zana Fraillon, and Kate Greenaway Medal-winning illustrator Grahame Baker Smith.
