Briefe Über Alexander Von Humboldt's Kosmos Otto Harrassowitz Verlag

This Festschrift honours Günter Stemberger on the occasion of his 75th birthday on 7 December 2015 and contains 41 articles from colleagues and students. The studies focus on a variety of subjects pertaining to the history, religion and culture of Judaism – and, to a lesser extent, of Christianity – from late antiquity and the Middle Ages to the modern era.

The Russian Image of Goethe, Volume 2 Northwestern University Press

Poetry for the Queen Queen Elizabeth II and Poetry. A small anthology of poems for the Queen. This volume contains 20 of 50 poems and ballads in German and English that an admirer named Elizabeth sent to the Queen between 1966 and 2015 - presumably: How wonderfully / Nature shines for me ... Spring lets his blue ribbon / Fluttering through the air again ... Two sails illuminating / The deep blue bay ... It was as if heaven / Had silently kissed the earth ... It beat my heart, swiftly, on horseback ... Do you know the land where the lemons bloom ... The leaves fall, fall as if from far ... Oh, it's eerie to walk across the moor ...

The anthology brings together small and large works of art by Baudelaire, Claudius, Droste-Hülshoff, Eichendorff, Fontane, Goethe, Heine, Hofmannsthal, Morgenstern, Mörike, Rilke and Schiller, among others. Read familiar and discover new favourite poems to enjoy, ponder and continue writing poetry.

A Brief History of German Literature Scarecrow Press

No study of Goethe's early lyric poetry has been published in English in the last fifty years. But the reading of this poetry the author presents is not intended merely to introduce an English readership to a major body of work; rather, the book delineates for the first time in any language an account of the symbolic network or organizing myth that underlies Goethe's individual poems. This marks a decisive break with the previous research on Goethe, which has tended to view his poetry as the expression of occasional experiences. The author shows, on the contrary, that Goethe's lyric work circles around a core set of problems and figures, that it evinces a systematic coherence unperceived until now.

Multiphysics Phase-Field Fracture Courier Corporation

This classic text first published in 1966 has withstood the test of time as a teaching aid for English-speaking singers, coaches, and accompanists, in order that their art may be more communicative to the public. This word-by-word translation allows the artist to properly interpret and express the feelings and emotions that the words require at the proper time.

This monograph is centered on mathematical modeling, innovative numerical algorithms and adaptive concepts to deal with fracture phenomena in multiphysics. State-of-the-art phase-

field fracture models are complemented with prototype explanations and rigorous numerical analysis. These developments are embedded into a carefully designed balance between scientific computing aspects and numerical modeling of nonstationary coupled variational inequality systems. Therein, a focus is on nonlinear solvers, goal-oriented error estimation, predictor-corrector adaptivity, and interface conditions. Engineering applications show the potential for tackling practical problems within the fields of solid mechanics, porous media, and fluidstructure interaction.

Gustav Mahler Peter Lang

Johann Wolfgang von Goethe (1749-1832) is universally recognized as a towering figure in world literature. This major new collection brings together poems from every decade of Goethe's writing life, in both their German originals and John Whaley's magnificent new translations--complete with their astonishing technical virtuosity, depth of feeling, wit, and occasional bawdry.

Since the publication of the first edition in 1964, *Phonetic Readings of Songs and Arias* has served singers, teachers of singing, and students of lyric diction as a guide to the correct pronunciation of songs in foreign languages.

'Shall I embrace you, must I let you go? Again you haunt me: come then, hold me fast!' Goethe viewed the writing of poetry as essentially autobiographical and the works selected in this volume represent over sixty years in the life of the poet. In early poems such as 'Prometheus' he rails against religion in an almost

ecstatic fervour, while 'To the Moon' is an enigmatic meditation on the end of a love affair. The Roman Elegies show Goethe's use of Classical metres in homage to ancient Rome and its poets, and 'The Diary', suppressed for more than a century, is a narrative poem whose eroticism is unusually combined with its morality. Arranged chronologically, David Luke's verse translations are set alongside the German originals to give a picture of Goethe's poetic development. This edition also includes an introduction and notes placing the poems in the context of the poet's life and times.

The Specular Moment Hal Leonard Corporation

Proceedings of international conference at NUI Maynooth on Goethe's contribution to music. Goethe was interested in, and acutely aware of, the place of music in human experience generally - and of its particular role in modern culture. Moreover, his own literary work - especially the poetry and Faust - inspired some of the major composers of the European tradition to produce some of their finest works.' (Martin Swales) [Subject: Music Studies, Goethe]

In "Deconstructing Periodization," Tia DeNora examines how historical depictions of Beethoven's work in late eighteenth-century Vienna. K. M. Knittel have tended to impose patterns rather than reveal them. When perceived through modern sociological and ethnographic methods, Beethoven's early career is neither as neat nor as evolutionary as often supposed. K. M. Knittel also looks critically at traditional assumptions in "Imitation, Individuality, and Illness: Behind Beethoven's Three

Styles." Two of Beethoven's most beloved piano sonatas are placed in wider cultural contexts by Janet Schmalfeldt and Thomas Sipe. Schmalfeldt examines "Form as the Process of Becoming: The Beethoven-Hegelian Tradition and the 'Tempest' Sonata: and Sipe considers the critical reception of op. 57 in "Beethoven, Shakespeare, and the 'Appassionata'." Beethoven's Fifth Symphony is his most famous, sometimes, it seems, too famous to be heard afresh. But Richard Taruskin identifies a potential borrowing in "Something New about the Fifth." And, drawing on Beethoven's sketches, Alain Frogley demonstrates subtle connections between rhythmic patterns and tonal plan in "Beethoven's Struggle for Simplicity in the Sketches for the Third Movement of the Sixth Symphony." In "Florestan Reading Fidelio," Christopher Reynolds clarifies how Romantic composers trod the narrow path between emulating great composers and expressing themselves originally. Reynolds looks at Brahms and Wagner, among others, with special attention to Schumann's studies of Fidelio. In "Beethoven with or without Kunstgepräg": Metrical Ambiguity Reconsidered," William Rothstein contributes a precise analysis of one of Beethoven's complex compositional techniques.

The works of seventeen German poets from the mid-eighteenth century to the present are supplemented by brief notes and an introductory essay on the history and nature of lyric poetry.

Dream in the twilight University of Arkansas Press

German song in the nineteenth century offers some of the greatest pleasures available to the singer, pianist, and listener. The great German poets - Goethe, Schiller, Ruckert, Eichendorff,

Heine, Morike, Hesse, and many lesser figures - inspired such perennial masterpieces as Schubert's song cycles Die Schone Mullerin and Winterreise, Schumann's Dichterliebe, and Mahler's Kindertotenlieder. This book provides the German texts of the most frequently studied and performed songs, and gives literal, word-for-word translations under each line, plus clear English prose versions of each poem. The composers represented are Beethoven, Schubert, Schumann, Wagner, Brahms, Wolf, Mahler, and Richard Strauss. This new edition includes numerous corrections and improvements to the translations.

The German Classics from the Fourth to the Nineteenth Century ... Cambridge University Press

Amanda Glauert revisits Beethoven's songs and studies his profound engagement with the aesthetics of the poets he was setting, particularly those of Herder and Goethe. The book offers readers a rich exploration of the poetical and philosophical context in which Beethoven found himself when composing songs. It also offers detailed commentaries on possible responses to specific songs, responses designed to open up new ways for performing, hearing and appreciating this provocative song repertoire. This study will be of great interest to researchers of Beethoven; German song; aesthetics of words and music.

Lieder Line by Line, and Word for Word Stanford University Press

The two volumes of The Russian Image of Goethe constitute the only study in a Western language on Goethe's reception in Russia. Volume II is a seamless continuation of the earlier book, covering the second half of the nineteenth century and the first two decades of the twentieth. Von Gronicka examines the attitudes toward Goethe and his work of, among others, Turgenev, Dostoevski, Tolstoj, and the Russian symbolists. He draws on the Russian writers' diaries, letters, and essays, quoting from them extensively in faithful translation or felicitous paraphrase. In developing The Russian image of Goethe, von Gronicka traces the course of Russian literature in the nineteenth and early twentieth centuries and provides not only a clear idea of how Russian writers viewed Goethe, but an excellent introduction to that literature. Both volumes of The Russian Image of Goethe are of interest to scholars of Russian, German, and comparative literature.
