The weaving of lau hala represents a living tradition borne on the great arc of Pacific voyaging history. This thriving tradition is made immediate by masters of the art who transmit their knowledge to those who are similarly devoted to, and delighted by, the smoothness, softness, and that particular warm fragrance of a woven lau hala treasure. The third volume in the Hawai'inuiākea series, 'Ike Ulana Lau Hala is an intriguing collection of articles and images about the Hawaiian tradition of ulana lau hala: the weaving, by hand, of dried Pandanus tectorius leaves. 'Ike Ulana Lau Hala considers the humble hala leaf through several, very different lenses: an analysis of lau hala items that occur in historic photographs from the Bishop Museum

collections; the ecological history on hala in Hawai'i and the Pacific including serious challenges to its survival and strategies to prevent its extinction; perspectives-in Hawaiian-of a native speaker from Ni'ihau on master weavers and the relationship between teacher and learner; a review-also in Hawaiian-of references to lau hala in poetical sayings and idioms; a survey of lau hala in Hawaiian cultural heritage and the documentation project underway to share the art with a broader audience; and a conversation with a master artisan known for his distinct and intricate construction of the lei hala. Rich with imagery, this extraordinary volume will guide the reader to a better understanding of the cultural scope and importance of lau hala, fostering an appreciation of the level of excellence to which the art of ulana lau hala has risen under the guidance of masters who continue to steer the Hawaiian form of the tradition into the future.

"Hulihia" refers to massive upheavals that change the landscape, overturn the normal, reverse the flow, and sweep away the prevailing or assumed. We live in such days. Pandemics. Threats to 'āina. Political dysfunction, cultural appropriation, and disrespect. But also powerful surges toward sustainability, autonomy, and sovereignty. The first two volumes of *The Value of Hawai'i* (Knowing the Past, Facing the Future and Ancestral Roots, Oceanic Visions) ignited public conversations, testimony, advocacy, and art for political and social change. These books argued for the value of

connecting across our different expertise and experiences, to talk about who we are and where we are going. In a world in crisis, what does Hawai'i's experience tell us about how to build a society that sees opportunities in the turning and changing times? As islanders, we continue to grapple with experiences of racism, colonialism, environmental damage, and the costs of modernization, and bring to this our own striking creativity and histories for how to live peacefully and productively together. Steered by the four scholars who edited the previous volumes, *The Value of Hawai'i 3: Hulihiia*, the *Turning* offers multigenerational visions of a Hawai'i not defined by the United States. Community leaders, cultural practitioners, artists, educators, and activists share exciting paths forward for the future of Hawai'i, on topics such as education, tourism and other economies, elder care,

agriculture and food, energy and urban development, the environment, sports, arts and culture, technology, and community life. These visions ask us to recognize what we truly value about our home, and offer a wealth of starting points for critical and productive conversations together in this time of profound and permanent change.

Hot Textiles Batsford Books

Recognized the world over for their bright colors and bold graphic designs, Hawaiian applique quilts reflect the lush subtropical flora of the islands where they were born. The book provides an extensive overview of Hawaiian quilting from its beginning as an art form in the 1870s to the present day. The book includes twenty-two quilts created by three influential master quilters and thirty contemporary quilts by six highly respected modern quilters that reflect a new range in styles and techniques,

from traditional to trend setting, being explored by island quilters today. This bilingual publication, English and Japanese, visually explores a vibrant and ongoing cultural treasure of Hawai'i. These quilts demonstrate both the rich tradition of this textile art and its continuing strength in the realm of contemporary art.
