'We'll always be together, won't we?'
Childhood friends and cousins Leo and Alice had imagined their whole lives playing out on their beloved Devon beach. But one night when they are teens, sitting on the sand beneath the stars, Alice tells Leo a secret that must never be shared with anybody else . . . then packs her bag and flees. Leo is left to build his own life - without Alice. He surrounds himself with other family and friends and on the whole is content and fulfilled. But he is left with a sense of what - or who - is missing. So decades later, when he receives a note from Alice asking if she can come home, he doesn't hesitate to agree. But as the stars align and their reunion draws near, Leo is left to consider their separation and what so many years apart means for a relationship solidified in youth and a secret which could affect the whole family. "Macomber hits the sweet spot with this tender tale of impractical love. . . . A delicious Christmas miracle well worth waiting for."—Publishers Weekly (starred review) Carrie Slayton, a big-city society-page columnist, longs to write more serious news stories. So her editor hands her a challenge: She can cover any topic she wants, but only if she first scores the paper an interview with Finn Dalton, the notoriously reclusive author. Living in the remote Alaskan wilderness, Finn has written a megabestselling memoir about surviving in the wild. But he stubbornly declines to speak to anyone in the press, and no one even knows exactly where he lives. Digging deep into Finn's past, Carrie develops a theory on his whereabouts. It is the holidays, but her career is at stake, so she forsakes her family celebrations and flies out to snowy Alaska. When she finally finds Finn, she discovers a man both more charismatic and more stubborn than she even expected. And soon she is torn between pursuing the story of a lifetime and following her heart. Filled with all the comforts and joys of Christmastime, *Starry Night* is a delightful novel of finding happiness in the most surprising places. Don't miss Debbie Macomber's short story "Lost and Found in Cedar Cove" in the back of the book.

The Spirit and the Sky Visible Ink Press Matthew Acciaccatura of Teaneck, New Jersey, begins his freshman year at NYU in the fall of 1995 with one goal in mind: to become cool. A former high school outcast, used to lumbering the hallways alone in oversize turtle necks, Matt seems an unlikely candidate for such a transformation. Yet by dint of effort he lands the coveted position of promoter at one of the hottest clubs in New York in the heyday of rave music and Ecstasy. However, as "Magic" Matt rises to fame,

portents of tragedy begin to appear, literally in the margins of the story. Footnotes from one Dr. Hans Mannheim, an imprisoned German academic obsessed with Matt's dangerous trajectory, suggest that Matt is not as in control of his destiny as he might appear.... A gorgeously written archetypal tale of self-discovery (and self-deception) and a love letter to the enduring possibilities of New York City, *The Answer Is Always Yes* will keep readers guessing until its explosive climax.

The interest of nineteenth-century Lakotas in the Sun, the Moon, and the stars was an essential part of their never-ending quest to understand their world. The Spirit and the Sky presents a survey of the ethnoastronomy of the nineteenth-century Lakotas and relates Lakota astronomy to their cultural practices and beliefs. The center of Lakota belief is the incomprehensible, extraordinary, and sacred nature of the world in which they live. The earth beneath and the stars above constitute their holistic world. Mark Hollabaugh

offers a detailed analysis of aspects of Lakota culture that have a bearing on Lakota astronomy, including telling time, their names for the stars and constellations as they appeared from the Great Plains, and the phenomena of meteor showers, eclipses, and the aurora borealis. Hollabaugh's explanation of the cause of the aurora that occurred at the death of Black Elk in 1950 is a new contribution to ethnoastronomy.

This book is a narrative in dialogue form in which the author, now an octogenarian who is a psychiatrist, psychoanalyst, and a PhD in philosophy, describes his intellectual evolution from a published laboratory researcher to engagement in the full-time clinical teaching and practice of psychoanalysis, psychodynamic psychotherapy, and philosophy. He reviews the development of his ideas through his many

publications and offers commentary on the nature of the origin, environment, and content of his thinking at the time each of these were written, also referring to his voluminous diaries. This serves as a running report on the changing fashions in the field of psychiatry, psychoanalysis, and philosophy over the past sixty-five years, along with the author's opinions about the nature and source of these changes. The book is divided into five parts, arranged chronologically from 1953 to the present time.
