How Ravel Orchestrated Alexander University, Incorporated
Pejrolo is an experienced musician, composer/arranger, MIDI programmer, sound designer and engineer. In this illustrated guidebook he focuses on the leading audio sequencers: ProTools, Digital Performer, Cubase SX and Logic Audio, showing how to get the most out of them.

The accompanying CD includes examples of arrangements and techniques covered in the book.

Live Sound Reinforcement Alexander University, Incorporated
(Berklee Guide). Essential for anyone interested in the business, process and procedures of writing music for film or television, this book teaches the Berklee approach to the art, covering topics such as: preparing and recording a score, contracts and fees, publishing, royalties, copyrights and much more. Features interviews with 21 top film-scoring

professionals, including Michael Kamen, Alf Clausen, Alan Silvestri, Marc Shaiman, Mark Snow, Harry Gregson-Williams and Elmer Bernstein. Now updated with info on today's latest technology, and invaluable insights into finding work in the industry.

Professional Orchestration: A Practical Handbook - From Piano to Strings Forgotten Books
(Berklee Guide). Learn to use strings in your compositions and arrangements! From romantic chord pads to powerful grooves to gut-wrenching passionate melodies, strings do it all. This book

presents time-tested techniques and contemporary developments in writing and arranging for strings. You'll learn strategies for authentic writing in many different styles and find ideas to take your personal sound forward. Discover voicings that work best for each project and explore the intricacies of bowing. Hear articulation approaches from pads to chopping in the online audio examples. See how other composers have used strings to heighten the impact of their music in the written examples. Make your work stand out with the drama and depth that well informed string writing can bring. You will learn: * The tunings, range, and timbres for the violin, viola, cello, and bass, including standard instruments and common variations, including acoustic, electric, and synthesized string instruments and sections * Bowing techniques and possibilities * Characteristic articulations and sounds, such as vibrato, pizzicato, sul tasto, trills, tremolos, and harmonics * Timbral and rhythm effects, such as chop technique, ponticello/feedback, portamento, and falls * String-section arranging techniques, such as melody/countermelody, fills, pads,

and comping * Stylistic nuances of genres such as American roots, Celtic, jazz, rock, klezmer, eastern European, Gypsy jazz, and swing * Mic, recording, and live sound techniques for capturing the best string sounds for both acoustic and electric instruments
Sounds and Scores PC Publishing
 Orchestrating is a highly complex technique and to many, even those with academic training, a mystery fraught with a labyrinth of hazards. What is required, along with innate talent and general musicality, is the practical "know how." This is hard to achieve without actual professional experience and contact with "live" orchestras. To this end, John Cacavas contributes his extensive experience and ability with a practical approach to the practical problems of orchestrating. It is in this context most orchestrators must function, and to whom this book should be of benefit. The author has been a "musical activist" in all the varied aspects of instrumental combination from the "classical" to the "contemporary," and in the diverse application of his skills in all the media that utilize music and "orchestrations."

 In "Professional Orchestration: A Practical Handbook - From Piano to Strings", conductor/composer Joseph Wagner, Founder of the Boston Civic Symphony and former Composer-in-Residence at Pepperdine University, teaches you applied orchestration by demonstrating 30 different techniques within "The Reference Chart of Keyboard Idioms" for transcribing piano parts and piano devices to the string

section. Techniques covered include Broken Intervals, Broken Chords, Melodic Lines and Figurations, Implied Bass Parts, Single Note Interval and Chord Repetitions, 2-3 Part Homophonic Music, Spacing Problems, Contrast Problems, Voice Leading, Obbligato, Antiphonal Effects, Tremolo Types, and Dance Forms. Designed for either personal or classroom use. Included in "From Piano to Strings" is the complete piano solo and separate string ensemble adaption of Grieg's "Holberg Suite" demonstrating how these techniques are applied and work in real practice. The Appendix contains a bonus String Ensemble template for you to copy and do your studies with and the "Chart of String Unisons" to help you work out common string combinations. Available for separate purchase is the "Workbook" with audio files that gives you dozens of homework examples to orchestrate. The "Workbook" is used with all three handbooks in the series - starting with "From Piano to Strings", then "From Piano to Woodwinds", and finally "From Piano to Orchestra". "From Piano to Strings" builds both orchestration and composition skills for live performance, but also develops

MIDI mockup and recording skills. Companion titles for this series available for separate purchase are Alexander Publishing's "Professional Orchestration Volume 1: Solo Instruments and Instrumentation Notes" and "Volume 2A: Orchestrating the Melody Within the String Section".
