A state-of-the-art, one-stop resource, *Public Administration in South Asia: India, Bangladesh, and Pakistan* examines public administration issues and advances in the Indian subcontinent. The book fulfills a critical need. These nations have the largest public administration programs in South Asia, yet existing knowledge on them is fragmented at best. Bringing together leading scholars from these countries, this book provides both an insider perspective and a scholarly look at the challenges and accomplishments in the region. Focusing on the machinery of government, the book explores questions such as: What is the history of public administration development? How are major decisions made in the agencies? Why are anti-corruption efforts so much a challenge? What is the significance of intergovernmental relations? What is the success of administrative reform? What are

examples of successful social development programs? How successful is e-government, and what are its challenges? Why is civil service reform difficult to achieve? How is freedom of information being used as a means to combat corruption and invoke grassroots activism? What can be learned from the successes and failures? While public administration practice and education have become considerably professionalized in the last decade, a sufficiently in-depth and well-rounded reference on public administration in these countries is sorely lacking. Most available books tackle only aspects of public administration such as administrative reforms, civil service, economic developments, or public policy, and are country specific. None provide the in-depth analysis of the sphere of public action in South Asia found in this book. It supplies an understanding of how public administration can be either the source of, or solution to, so many of the problems and achievements in the Indian subcontinent.

Measures for Clinical Practice and Research, Volume 1 Tata McGraw-Hill Education

Considered by many the greatest war novel of all time, *All Quiet on the Western Front* is Erich Maria Remarque's masterpiece of the German experience during World War I. I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive. "The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or

of inanimate nature, his touch is sensitive, firm, and sure.”—The New York Times Book Review

A hilarious and nostalgic account of twentieth-century Muslim life on the Indian subcontinent Basharat and his family are Indian Muslims who have relocated to Pakistan, but who remain deeply steeped in the nostalgia of pre-Partition life in India. Through Mirages of the Mind’s absurd anecdotes and unforgettable biographical sketches—which hide the deeper unease and sorrow of the family’s journey from Kanpur to Karachi—Basharet emerges as a wise fool, and the host of this unique sketch comedy. From humorous scenes in colonial north India, to the heartbreak and homesickness of post-colonial life in Pakistan, Mirages of the Mind forms an authentic portrait of life among South Asia’s Urdu speakers, rendered beautifully into English by Matt Reeck and Aftab Ahmad.

Since the late 1980s, growing migration from countries with a Muslim cultural background, and increasing Islamic fundamentalism related to terrorist attacks in Western Europe and the US, have created a new research field investigating the way states and ordinary citizens react to these new phenomena. However, whilst we already know much about how Islam finds its place in Western Europe and North America, and how states react to

Muslim migration, we know surprisingly little about the attitudes of ordinary citizens towards Muslim migrants and Islam. Islamophobia has only recently started to be addressed by social scientists. With contributions by leading researchers from many countries in Western Europe and North America, this book brings a new, transatlantic perspective to this growing field and establishes an important basis for further research in the area. It addresses several essential questions about Islamophobia, including: what exactly is Islamophobia and how can we measure it? how is it related to similar social phenomena, such as xenophobia? how widespread are Islamophobic attitudes, and how can they be explained? how are Muslims different from other outgroups and what role does terrorism and 9/11 play? Islamophobia in the West will be of interest to students and scholars of sociology, religious studies, social psychology, political science, ethnology, and legal science.
