A clarion call to rethink natural resource extraction beyond the extractive industries Planetary Mine rethinks the politics and territoriality of resource extraction, especially as the mining industry becomes reorganized in the form of logistical networks, and East Asian economies emerge as the new pivot of the capitalist world-system. Through an exploration of the ways in which mines in the Atacama Desert of Chile—the driest in the world—have become intermingled with an expanding constellation of megacities, ports, banks, and factories across East Asia, the book rethinks uneven geographical development in the era of supply chain capitalism. Arguing that extraction entails much more than the mere spatiality of mine shafts and pits, Planetary Mine points towards the expanding webs of infrastructure, of labor, of finance, and of struggle, that drive resource-based industries in the twenty-first century.

A gorgeous facsimile of the epochal collaboration between Mallarmé and Manet that inspired Nijinsky's most famous dance The second published collaboration between Stéphane Mallarmé and Édouard Manet (after Mallarmé's translation of Poe's "The Raven"), L'après-midi d'un faune is one of the poet's best-known works. It provided the basis for Debussy's Prélude à l'après-midi d'un faune (1894), which in turn inspired Nijinsky's ballet L'après-midi d'un faune, first performed in Paris in 1912, with Nijinsky famously dancing the title role. Mallarmé's poem unfolds in a sensual reverie as a Pan-like faun, arising from slumber, recollects his encounters with two forest nymphs in a monologue filled with pastoral and erotic allusions. For Mallarmé, such publications were total works, with attention paid to every detail of layout, typography, punctuation and artwork. For the original 1876 publication, Manet created four wood engravings: two drawings that open and close the poem, and a frontispiece and ex-libris sheet that the artist hand-tinted with pink wash. This volume reproduces that first edition at full size accompanied by a new translation.

The Oxford Companion to Australian Music is a reference work that will be of interest to music lovers as well as of use to musicians, scholars and students. To date no volume has combined an account of Australia's music with biographical information about its musicians, a critical guide to their works, publishers and recordings, and a guide to the burgeoning literature in the field. With more than 2,000 entries, the Companion ranges across a wide spectrum, from ancient Aboriginal traditions and European-derived orchestral, operatic and concert music, to Australian folk jazz, country, popular, rock, electronic and experimental music. It covers the music not only of mainstream audiences but also of Australia's religious denominations and recent migrant communities. Special attention is given to the distinctive features of Australian musical life: its reliance on government support rather than private or ecclesiastical patronage, its unquenchable appetite for eisteddfods, choral societies and bands; the shadow cast by European traditions; the vicissitudes of its attitudes towards composers; the late development of music criticism and scholarship; and the role of regional cities and towns. There are numerous entries on Aboriginal subjects and on key musical organizations and considerable space is given to a series of longer entries covering musical works, institutions, genres, instruments, terms, and many of the historical contexts of Australian music. These key essays offer an authoritative framework for a better understanding of the shape and originality of music-making in Australia.

Entrer dans une intelligence fine des religions par des contenus déterminés est une urgence pour la réflexion théologique. Leur accès est souvent difficile car il s'agit d'entrer sans a priori, grâce à l'apprentissage de leurs langues, à l'écoute de textes et de pratiques qui font apparaître des visions du monde insoupçonnées, tout à fait singulières, voire étranges et dérangeantes. Le bouddhisme, bien qu'il semble familier aujourd'hui à beaucoup par une promotion et une instrumentalisation de sa « méditation », résiste à toute approche simpliste de ses doctrines. Le théologien Thierry-Marie Courau donne ici accès à la cohérence du chemin graduel vers l'Éveil parfait et complet d'un yogin bouddhiste du Grand Véhicule indien de la fin du VIII^e s., par une analyse des Bhavanakrama de Kamalasila. Son ouvrage est « un de ces exercices de la patience qui sont la marque d'un souci théologique qui veut aller loin dans le service de la vérité à la rencontre de l'autre » (F. Bousquet). Les trois petits traités étudiés ici sont un lieu privilégié pour introduire à l'histoire des idées dans le bouddhisme, et à la compréhension de l'« entraînement de l'esprit » qui conduit à sa libération. Ils sont, à la fois, une démonstration de la continuité, sans fixité, des treize premiers siècles des traditions indiennes dont l'auteur, du courant Yogacara-Madhyamaka, est le récipiendaire qualifié, et une base pour la pratique et les enseignements bouddhiques actuels, en particulier tibétains. Les concepts sont étudiés, ici, à partir d'un corpus choisi de textes bouddhiques antérieurs, selon trois angles de vue : la recherche de l'égalité de l'esprit, les étapes du chemin selon les nouveaux courants, et la gradation des vues théoriques sur l'existence et la nature des choses. Le débat sur la nature de la Sagesse et ses modes d'accès, unitaire ou successif, conclut cette recherche.

Vingt portraits de femmes et d'hommes qui ont suivi un parcours de formation à EMLYON Business School. Vingt portraits, brossés par Corinne Lapras, elle-même diplômée, et autant d'occasions de revenir sur le parcours de ces diplômés, sur leurs réalisations, les défis qu'ils se sont lancés, l'expérience qu'ils retirent de leur cheminement dans le monde de l'entreprise ou en tant qu'entrepreneurs. Et cet ouvrage de dévoiler des trajectoires, en France et à l'international, toujours surprenantes, courageuses, audacieuses, dynamiques, désireuses de réalisations, de dépassements et de constructions... Premier volume d'une collection de cinq consacrés aux diplômés d'EMLYON, "Partage de valeurs", par-delà la rencontre de personnalités toutes fortes et puissantes à leurs manières, rend hommage à une formation d'exception. De quoi inspirer certainement quelques vocations...

La succession des exercices vers l'Eveil bouddhique Editions du Cerf

This collection of reprinted essays starts from the author's doctoral research on Jacopo Peri and the rise of opera and solo song in late sixteenth- and early seventeenth-century Florence. It extends to broader issues concerning music and patronage in the city as they affected individual composers, patrons and institutions, and thence to the commerce of music printing and the book trade. It concludes with an attempt to suggest a broader view of these various issues as they impact upon musical life in the 'provinces' in Tuscany. There is a great deal of new documentary and other information here, but the aim is also to expand methodological horizons so as to prompt new ways of thinking about music in its contexts.
