This decade at Le Mans began with the first victories by Porsche, whose awesome 917 racing car, capable of more than 240mph, established a distance record that would stand for almost four decades. One of a hat-trick of wins by Matra, effectively the French national team, was achieved in a famously frantic, head-to-head duel with Ferrari. In 1975, the oil crisis led the ACO to run its race to a 'fuel formula', and it was won by the Ford-supported Gulf-Mirage team. Porsche, using motorsport to develop its turbocharging technology, won again in 1976 and in 1977, when Jacky Ickx produced one of the greatest drives ever seen in motor racing anywhere. A massive effort by Renault, again with a turbocharged engine, delivered success in 1978. The decade closed, as it had started, with a soaking wet race that was won by Porsche. - Highly detailed year-by-year coverage of the decade's ten races, giving over 30 pages of information and photographs for each year. - Official status provides a number of unique

features, including the reproduction of the full-colour race poster artwork for each year and photographs from the ACO's archives. - The images include rare colour, and the emphasis is on photographs that enthusiasts will not have seen before. - The story of each race is told through photographs and an accompanying commentary. - Complete data for each year includes technical regulations, entry list, circuit changes (with diagram), lap chart, full results and category awards. - The whole work is beautifully designed and presented. - The 1970s boiled down to a Franco-German era, with Matra's three wins of 1972-74 breaking Porsche's new-found supremacy, which was established so memorably by the magnificent 917 cars that won in 1970-71.

 After the 917 broke Porsche's 19-year drought at Le Mans in 1970, it went on to win the Can-Am Series two years running. Porsche expert Peter Morgan gained unprecedented access to Porsche records and 917 engineers and drivers to bring enthusiasts the story of this legendary race car in full-color. Detailed are the rivalry between Ferry Porsche's sons and his nephew, Ferdinand Piech, who spearheaded the development of

the 917. Engineers describe the development of turbochargers for auto racing, while drivers like Dickie Attwood, Hans Herrmann, and Derek Bell chronicle the 917's brilliant motorsport career.

Drivers on Drivers features some of the greatest names in motor racing speaking candidly about their biggest rivals as well as their heroes, teammates and friends. It is a unique concept, with those interviewed ranging from legends of the 1950s such as Tony Brooks and 1960s rally icon Paddy Hopkirk, to Derek Bell, Mika Häkkinen, and current superstars such as Sir Lewis Hamilton. Each driver is in conversation with a leading motorsport writer or broadcaster, and the book is illustrated with stunning photography throughout. Thirty-one revealing interviews, featuring motorsport legends opening up about their fellow drivers and offering unique insights into what separated the great from the good, who they looked up to and learnt from, and who to avoid on-track. Interviews include Tony Brooks on Stirling Moss, Jackie Stewart on Jim Clark, Gerhard Berger on Ayrton Senna, Mark Webber on Sebastian Vettel, and many more...Interviewees include eight Formula One World Champions, nine winners of the Le Mans 24 Hours, and 13 Grand Prix winners. Interviews conducted by Philip Porter along with a team of leading motorsport writers and broadcasters - Mark Cole, Ben Edwards, Louise Goodman, Simon Taylor, David Tremayne, Peter Windsor and Ian Wagstaff. Contains stories of tragedy and humour, triumph and disaster, as these great names give personal insights into motor racing's deepest friendships and fiercest rivalries. More than 100 superb photographs illustrating pivotal career moments, on-track battles, and candid shots of their interactions with fellow drivers.

The 924 Carrera was a homologation model built to qualify the 924 model to race in Group 4. One of the great supercars of the 1980s, the 924 Carrera was considered by many to have better handling characteristics than Porsche's flagship 911. The book features interviews with many of those involved with the car at the time together with race stories, statistics, and a unique exposé of component failures during racing.

Porsche's fabled 911 represents the ultimate expression of Ferdinand Porsche's original vision of the perfect sports car. In The Complete Book of Porsche 911, author and photographer Randy Leffingwell provides a year-by-year overview of Stuttgart's most famous car, from the original 901 prototype to today's technologically advanced GT2 and GT3 derivatives and the latest 992-generation 911. Along the way, he highlights the racing, prototype, and limited-production cars—offering the most complete reference available to these top-tier sports cars. In this book, you'll find the air-cooled cars of 1963 to 1998, then the water-cooled 911s of 1998 to present day. With behind-the-scenes info on the evolution of this iconic sports car, this book offers the detail craved by Porsche enthusiasts. Illustrated throughout with images from Porsche's own historical archive and complemented by the author's stunning photos, along with detailed technical specification tables, The Complete Book of Porsche 911 offers a thorough account of one of the most beloved enthusiast cars ever produced.

The Jaguar D-type helped to establish the Coventry marque's place in Le Mans 24 Hours folklore, thanks to three successive victories between 1955 and 1957. With its long, elegantly sculptured bonnet and distinctive tail fin, the D-type quickly became one of the world's most recognisable sports racers - as well as one of the most successful in period. Jaguar D-type focuses on the fascinating history of XKD 526, one of only three

D-types registered new in Australia. While its competition pedigree was forged at some internationally celebrated circuits - Bathurst and Longford, for instance - it also raced at delightfully named bygones such as Gnoo Blas and Catalina Park. This is a comprehensive history of its distinguished track record.

Unbekannte Preziosen Wenn Autofirmen Studien und Prototypen zeigen, erlauben sie damit einen Blick hinter den Vorhang, eine Vision von dem, was kommt oder kommen könnte. Neben dem, was bei offiziellen Terminen und auf Messen gezeigt wird, gibt es aber eine überwältigende Menge von Entwürfen und Modellen, die der Öffentlichkeit aus verschiedensten Gründen verborgen bleiben. In diesem Buch wird das unmögliche möglich: ein Blick auf noch nie gesehene Porsche - Porsche Unseen. Stefan Bogner durfte exklusiv im Allerheiligsten des Porsche Designs fotografieren und beschert uns absolute Aha-Momente. Die Porsche-DNA ist in jedem der gezeigten Modelle erkennbar, die Ausführung aber so neu und zum Teil so unerwartet, dass man meint, in einem Paralleluniversum gelandet zu sein. Ein 1-Liter-Auto von Porsche? Ein coupéhafter 4-Sitzer mit 911-Zügen? Einzige Roadster mit dem Geist der 50er-Jahre? Das alles hat Stefan Bogner im Modell oder sogar fahrfertig vor der Linse gehabt. Die erhellenden Hintergründe hat Jan Baedeker im persönlichen Gespräch mit Designchef Michael Mauer notiert. Folgen Sie uns auf eine unvergleichliche Entdeckungsreise durch die Welt des Porsche Designs! Zweisprachig: Deutsch/Englisch
Unknown valuables When car companies present studies and prototypes, they allow a glimpse behind the scenes, a vision of what will come or might come. Apart from what is shown on official events and at fairs, there is an overwhelming number of drafts and models, that remain hidden from the public for various reasons. This book achieves the impossible: a look at Porsche cars the public never laid eyes on - Porsche Unseen. Stefan Bogner was exclusively allowed to take pictures in the Porsche Design sanctum, aha-experiences guaranteed. The Porsche DNA is recognisable in any of the models shown, but the design is so new and unexpected that it suggests the existence of a parallel universe. A 1-litre Porsche? A coupé-like four seater with 911-looks? Single-seated roadsters with 50's flair? Stefan Bogner took photos of all of them - either as models or ready to drive. Jan Baedeker talked with Michael Mauer, Head of Design, and took down the enlightening background information. Join our extraordinary expedition of discovery through the world of Porsche Design!

Ultimate Ferrari GTO explores the story of this iconic family of cars in more detail and with more authority than ever before. Introduced in 1962 as the final evolutionary step in the long-running 250 GT series, the GTO was the last and best GT racer of the front-engine era. It remained at the forefront for three seasons, winning a hat-trick of World Championship titles for Ferrari. Ever since, GTOs have retained their exalted status not just because of their racing achievements but also their exquisite beauty, undoubted charisma and -- for those lucky enough to have experienced this -- peerless driveability. Indeed, the GTO's illustrative reputation has made it the world's most desirable car, as confirmed by the record-breaking prices repeatedly paid for the finest examples. Packed with superb photographs, many not previously published, this lavish two-volume production does true justice to this ultimate car.

This book, the first in Evro's new Formula 1 Greats series, covers one of the most revered Formula 1 cars ever made. Introduced in 1970, the wedge-shaped Lotus 72 competed for six seasons, winning 20 World Championship Grands Prix, two Drivers' titles (for Jochen Rindt in 1970 and Emerson Fittipaldi in 1972) and three Constructors' titles (in 1970, 1972 and 1973), racing first in Lotus's evocative red, white and gold livery, then the equally eye-catching black and gold of the John Player Special period. Pete Lyons, Autosport's renowned Formula 1 reporter for part of the Lotus 72 era, explores the car's entire race-by-race career in his insightful commentary accompanying a magnificent array of more than 300 photos. The 1970 season: after troubled early development, the 72 finally took over from the long-serving 49, its four consecutive race wins enough to secure the World Championship for Jochen Rindt, posthumously after his death during practice for the Italian Grand Prix. The 1971 season: with promising youngster Emerson Fittipaldi elevated to team leader after Rindt's death, great things were expected of the 72's second season but it proved to be winless. The 1972 season: now in black and gold John Player livery, the 72 became far more competitive and Fittipaldi's four Grand Prix victories made him World Champion. The 1973 season: Ronnie 'SuperSwede' Peterson joined Fittipaldi to form a dream team and together they won seven races, but because Lotus's spoils were divided between the two drivers Jackie Stewart was able to come through to become World Champion. The 1974 season: still the 72 soldiered on, now as the fall-back car after its successor, the 76, failed to deliver; partnered by Jacky Ickx, Peterson won three Grands Prix. The 1975 season: well beyond its sell-by date, the 72 did a final season but by now it was far from effective, with Ickx's second place in the tragic Spanish Grand Prix its best result.

Unleashed in 1982, the Porsche 956 became the most successful purpose-built race car in history. Over the following decade, the 956 and its later long-wheelbase version, the 962, would win five consecutive world championships, as well as every single classic sportscar race in the world a record number of times: the Le Mans 24 Hours seven times, the Daytona 24 Hours six times and the Sebring 12 Hours four times, plus 39 world championship events and 55 IMSA races, to name but a few of its remarkable achievements. Many of the successes were achieved by works-entered cars, almost always in the iconic white-and-blue colours of sponsor Rothmans, and they form the focus of an extraordinary body of work researched and written by author Serge Vanbockryck over the past 30 years. This is the first part of his project, a two-volume production about the Works 956s, with a second such title on the Works 962s to follow in the summer of 2020.

The Lola T70 was developed in 1965 for sports car racing - Lola built the chassis, which were typically powered by large American V8 engines, predominantly Chevrolets and Fords. The T70 was prolific throughout the mid- to late-1960s, and over 100 examples were built in three versions - both open-topped and coupé models. The first successes for the T70 were in the US, and in 1966, the T70 dominated the Can-Am championship, winning five of the six races in the series - with John Surtees becoming

champion in a Chevrolet-powered example. In 1968, T70s finished 1 - 2 in the Daytona 24 Hours, and the T70 was highly successful in the domestic UK and European championships, winning regularly. Today, Lola T70s are regular competitors on the historic racing scene, and examples are highly sought after by collectors. This Lola T70 Owner's Workshop Manual looks at the design, evolution, anatomy and operation of the T70.

Touring Car Racing, a feast of nostalgia, celebrates the 60-year heritage of the British Touring Car Championship. From the era of Mini Coopers and Lotus Cortinas to the Vauxhall Astras and Honda Civics of recent years, all the highlights of Britain's ever-spectacular touring car scene are captured in a year-by-year visual extravaganza with over 600 photos and expert commentary. Compiled by long-time touring car journalist Matt James, the book has a chapter for each year featuring a summary of the season, 10 photos showing all the top cars and drivers in action, key statistics and a profile of the champion driver. Anyone who has ever enjoyed touring car racing as a participant, spectator or television viewer will treasure this book. The 1950s. The British Saloon Car Championship was inaugurated in 1958 and from the start it was super-competitive, ending in a tie that was resolved by a shoot-out in favour of Jack Sears. The 1960s. There were three Mini champions but mainly this was a Ford era, epitomised by Lotus Cortinas (with Jim Clark ever spectacular) and big Falcons, Galaxies and Mustangs from America. The 1970s. Smaller classes came to the fore in this decade, with three drivers sharing seven titles - Bill McGovern took three in Sunbeam Imps while two apiece went to Bernard Unett (Chrysler Avenger GT) and Richard Longman (Mini 1275GT). The 1980s. Three drivers also bestrode this decade but in a wider range of cars, including Mazda RX-7, Alfa Romeo GTV, Rover Vitesse and Ford Sierra XR4i; Win Percy and Andy Rouse each took three titles, Chris Hodgetts two. The 1990s. Overseas drivers arrived in force to mix it with home-grown stars during the highly competitive Super Touring years, the decade's champions including Joachim Winkelhock (BMW 318is), Frank Biela (Audi A4 quattro), Alain Menu (Renault Laguna), Rickard Rydell (Volvo S40) and Laurent Aiello (Nissan Primera). The 2000s. Vauxhalls were the star cars, taking six titles, while the decade brought three double champions in the form of James Thompson (Vauxhall Astra), Matt Neal (Honda Integra) and Fabrizio Giovanardi

(Vauxhall Vectra VXR). The 2010s. Yet more variety and brilliant racing has characterised the current decade, with Gordon Shedden becoming the winningest driver with three titles in Honda Civics.

The prestigious publication in two volumes, Ferrari 1000 GP: The Official Book, in a limited edition, is an extraordinary tribute to Scuderia Ferrari and the remarkable objective of 1,000 Grands Prix achieved by the team from Maranello in 2020. Over the course of more than 700 pages enriched with more than 1,000 illustrations, many of which are previously unpublished, the work traces the incredible story of Ferrari's participation in Formula 1 that began in 1950 with the Monaco Grand Prix, continued with no less than 230 victories, 15 drivers' titles and 16 constructors' titles and has reached the unique total of 1,000 Grands Prix. Made in collaboration with Ferrari Spa and available in a limited edition of 2,000 copies, the book is contained in an exclusive slipcase in "Rosso Storico 127", the same colour as the 125 S, the first Ferrari from 1947, and the SF1000, which in 2020 competed in the Scuderia's 1,000th Grand Prix on the Mugello circuit. An indispensable volume for the bookshelves of all enthusiasts of the Prancing Horse: a precious collector's item as well as an invaluable source of information regarding the results obtained by the cars from Maranello in every race and the team's placings in the Drivers' and Constructors' championships. The book features a foreword by Louis Camilleri and Mattia Binotto.

Shelby Cobra Daytona Coupe tells the fascinating history of the Daytona Coupe version of Carroll Shelby's fabled Cobra with special focus on one of the six cars built. The fabulous Daytona Coupe, brutally purposeful in both looks and performance, was

created to win the FIA World Sportscar Championship and duly did so in 1965, beating Ferrari in the large-capacity class – the category that really counted as it fired the public's imagination. The specific car covered in detail in this book, CSX2300, took part in five championship rounds (one in 1964, four in 1965) and played its part in Shelby American's unique team success. Truly one of the 'Great Cars', the Shelby Cobra Daytona Coupe is a most worthy addition to this acclaimed series of books. The expert text is supplemented by 300 period photographs, many previously unpublished, supported by a portfolio of commissioned special photography.

The Group B cars marked one of the most thrilling yet most tragic periods in the history of world rallying and beyond. The 037, the S4, the EVC and the ECV2, "ephemeral player" of a still-born Group S, were the unforgettable protagonists of the 1982-1986 seasons that for the Lancia marque were constellated by a series of World, European and Italian titles, but also by terrible accidents that cost the lives of Attilio Bettega, Henri Toivonen and Sergio Cresto. Sergio Remondino, a historic journalist and great expert in the multifaceted field of rallying, traces that unforgettable era, year by year, through a text rich in anecdotes and thanks to the contribution of the engineer Sergio Limone, one of the artificers of the Group B cars. This invaluable book is completed by the evocative images of Reinhard Klein, one of the most successful rallying photographers.
