How many times during writing workshop have you thought, "If only I could clone myself!" Dana and Sonja have a solution for finding more one-on-one teaching time: flipped learning. Imagine students having access to instruction and support when they need it. While not a replacement for you, the teacher, flipped learning allows

students to: access a variety of minilessons on their own; work at their own pace to study the minilesson; move ahead or review concepts, depending on individual needs. Meanwhile, you'll have more time to maximize individualized instruction and conferring. Dana and Sonja walk you through the how's and why's of flipped learning, and illustrate what it looks like in a writing workshop by modeling a flipped lesson. Whether you're a novice or an advanced technology user, you'll find tech tips throughout the book that help you choose the right tools and

resources for creating flipped lessons and incorporating them into your workshop. Discover how a blended approach using flipped learning can increase efficiency in your writing workshop, while fostering independent learning at the same time. -- from back cover.

One snowy day an elderly woman, Sarah, watches children gathering at the bus stop. While they never seem to notice her, she notices them, especially one little boy who has no mittens. That night, Sarah knits the boy a pair of cozy mittens and places them on the blue spruce tree for him to discover. It soon becomes a game, with the children looking for new mittens on the mysterious tree every morning, and Sarah joyfully knitting new ones each night. With its touching message and delightful illustrations, adults and children will enjoy this intergenerational tale for years to come.

Yellow hates Red, so does Green, and no one likes Orange! Can these crayons quit arguing and learn to cooperate? Shane DeRolf's deceptively simple poem celebrates the creation of harmony through diversity. In combination with Michael Letzig's vibrant illustrations, young readers will understand that when we all work together, the results are much more colorful and interesting.

How I Spent My Summer Vacation Bucket Fillers Incorporated

This heartwarming book encourages positive behavior by using the concept of an invisible bucket to show children how easy and rewarding it is to express kindness, appreciation and love by "filling buckets." Updated and revised, this 10th anniversary edition will help readers better understand that "bucket dipping" is a negative behavior, not a permanent label. It also explains that it's possible to fill or dip into our own buckets.

THE TEACHER'S ALMANACK PRACTICAL IDEAS FOR EVERY DAY OF THE SCHOOL YEAR Teaching Resources

My title is taken from the literally

thousands of steps I climbed during my year teaching ESL in Taiwan, but it also indicates the steps I took, to get there, to live and teach there, and to, step by step, share a little of myself with others, as they shared themselves with me. Being a part of the process of education, whether with children or adults, in a country not your own, allows us, as ESL teachers, to make a contribution to our "small, small, global world."

The nuclear family is under siege as never before. With the dramatic increase in divorce, illegitimacy and single parenthood, we are witnessing the voluntary breakup of the minimal family unit on a massive scale. Meanwhile many people question whether marriage should be defined as a relationship between a man and a woman, and some are trying to sever the idea of marriage and procreation completely. Bestselling author William Bennett believes that we are engaging in a reckless and radical social experiment that, unless it is firmly resisted, will have calamitous consequences. In this strong and vigorous, but sophisticated and

informed defense of the traditional nuclear family, Bennett argues that we urgently need to reestablish the idea of marriage as an arrangement between a man and a woman, monogamous and freely chosen, a place of sexual and emotional intimacy, affection and friendship. Marriage should be the institution through which children are conceived and born, loved and disciplined, nurtured and raised. And marital permanence must once again become normative, a high ideal, something to which people commit and strive to maintain. Bennett argues that we are willfully and frivolously casting aside one of our greatest historical achievements under the illusion that we can cheerfully deconstruct the traditional family and then one day decide to pull back from the brink. Having blithely tossed these precious things aside, we will find that we cannot so easily summon them back. Yet Bennett's book is not a jeremiad or a gloom-and-doom scenario but a positive affirmation of family life and an argument for why a certain traditional understanding of the family leads to greater human flourishing and happiness.

From the award-winning creator of *My Dad Used to Be So Cool* and *Tough Guys Have Feelings Too* comes a charming picture book inspired by the true story of Mary Edwards Walker, a trailblazing 19th-century doctor who was arrested many times for wearing pants. Once upon a time (but not that long ago), girls only wore dresses. And only boys wore pants. Until one day, a young girl named Mary had an idea: She would wear whatever she wanted. And she wanted to wear pants! This bold, original picture book encourages readers to think for themselves while gently challenging gender and societal norms.

This wildly funny twist on the "How I spent

my summer vacation" school-essay ritual details one child's imaginary adventures over the summer and is perfect for back-to-school reading! Most kids go to camp over the summer, or to Grandma's house, or maybe they're stuck at home. Not Wallace Bleff. He was supposed to visit his Aunt Fern. Instead, Wallace insists, he was carried off by cowboys and taught the ways of the West--from riding buckin' broncos to roping cattle. Lucky for Aunt Fern, he showed up at her house just in time to divert a stampede from her barbecue party! Perfect for back-to-school read-alouds, here's a western fantasy with sparkling illustrations and enough action to knock kids' boots off!
