From the bestselling author of *The Firebird*, comes a new, exquisitely crafted novel of modern-day and historical intrigue. For nearly 300 years, the mysterious journal of Jacobite exile Mary Dundas has lain unread—its secrets safe from prying eyes. Now, amateur codebreaker Sara Thomas has been hired by a once-famous historian to crack the journal's cipher. But when she arrives in Paris, Sara finds herself besieged by

complications from all sides: the journal's reclusive owner, her charming Parisian neighbor, and Mary, whose journal doesn't hold the secrets Sara expects. It turns out that Mary Dundas wasn't keeping a record of everyday life, but a first-hand account of her part in a dangerous intrigue. In the first wintry months of 1732, with a scandal gaining steam in London, driving many into bankruptcy and ruin, the man accused of being at its center is concealed among the Jacobites in Paris, with Mary posing as his sister to aid his disguise. When their location is betrayed, they're forced to put a desperate plan in action, heading south along the road to Rome, protected by the enigmatic Highlander Hugh MacPherson. As Mary's tale grows more and more dire, Sara, too, must carefully choose which turning to take...to find the road that will lead her safely home.

A tragedy of Virginian colonial frontier In the summer of 1786 a large war party of Shawnee Indians entered Abb's Valley, Virginia, and descended on the household of militia officer Captain John Moore which included members of his immediate family together with hired labourers. The family occupied a substantial log building and were well armed, so Moore believed that his family was well placed to fight off a small Indian attack. The nearest homestead was six miles away and Moore, relying on his own abilities, thought it unnecessary to follow the example of neighbours by taking refuge in the nearest fort. The attack achieved complete surprise and Moore was killed before he could reach the safety of the house. What followed was an appalling, but typical, Indian massacre of the colonial period frontier in the 18th century. Various family members, young and old, were slaughtered on the spot, the property was set alight and a substantial herd of livestock was taken. Surviving members of the Moore family were taken as captives to the Indian townships, several of them being murdered on the journey. Once the survivors reached the Indian village there followed another period of torture which for Mrs. Moore and a teenage daughter proved fatal. Two young women survived their ordeals to eventually be ransomed. The story of this notable frontier tragedy was written by James Moore, a son of Mary Moore, who was one of the two ransomed

captives. This a vital account of the struggles endured by the early settlers of the American wilderness and will be of essential interest to anyone interested in the early history of the state of Virginia. How modern philosophers use and perpetuate myths about prehistory
The state of nature, the origin of property, the origin of government, the primordial nature of inequality and war why do political philosophers talk so much about the Stone Age? And are they talking about a Stone Age that really happened, or is it just a convenient thought experiment to illustrate their points?
Karl Widerquist and Grant S. McCall take a philosophical look at the origin of civilisation, examining political theories to show how claims about prehistory are used. Drawing on the best available evidence from archaeology and anthropology, they show that much of what we think we know about human origins comes from philosophers imagination, not scientific investigation.
Key Features
Shows how modern political theories employ ambiguous factual claims about prehistory
Brings archaeological and anthropological evidence to bear on those claims
Tells the story of human origins in a way that reveals many commonly held misconceptions

Service learning, as defined by the editors, is the generation of knowledge that is of benefit to the community as a whole. This seventh volume in the Outreach Scholarship book series contributes a unique discussion of how service learning functions as a critical cornerstone of outreach scholarship. The sections and chapters of this book marshal evidence in support of the idea that undergraduate service learning, infused throughout the curriculum and coupled with outreach scholarship, is an integral means through which higher education can engage people and institutions of the communities of this nation in a manner that perpetuate civil society. The editors, through this series of models of service learning, make a powerful argument for the necessity of "engaged institutions".

From World War II until the 1980s, the United States reigned supreme as both the economic and the military leader of the world. The major shifts in global politics that came about with the dismantling of the Eastern bloc have left the United States unchallenged as the preeminent military power, but American economic might has declined drastically in the face of competition, first from Germany and Japan and more recently from newly prosperous countries elsewhere. In *Deterring Democracy*, the impassioned dissident intellectual Noam Chomsky points to the potentially catastrophic consequences of this new imbalance. Chomsky reveals a world in which the United States exploits its advantage ruthlessly to enforce its national interests--and in the process destroys weaker nations. The new world order (in which the New World give the orders) has arrived. *History of Wayne County, New York* Open Road Media
