Japanese houses today have to contend with unique factors that condition their design, from tiny plots in crowded urban

contexts to ever-present seismic threats. These challenges encourage their architects to explore alternating ideas of stability and ephemerality in various ways, resulting in spaces that are as fascinating as they are idiosyncratic. Their formal innovation and attention to materials, technology and measures to coax in light and air while maintaining domestic privacy make them cutting-edge residences that suggest new ways of being at home. Contemporary Japanese architecture has emerged as a substantial force on the international

scene ever since Kenzo Tange won the Pritzker Prize in 1987. This overview of 50 recent houses powerfully demonstrates Japan's enduring commitment to design innovation.

Ornamentalism offers one of the first sustained and original theories of Asiatic femininity. Examining ornamentality, in lieu of Orientalism, as a way to understand the representation, circulation, and ontology of Asiatic femininity, this study extends our vocabulary about the woman of color beyond the usual platitudes about objectification.

Ever since he can remember, Dom Joly has been fascinated by travel to odd places. In part this stems from a childhood spent in war-torn Lebanon, where instead of swapping marbles in the schoolyard, he had a shrapnel collection -- the schoolboy currency of Beirut. Dom's upbringing was interspersed with terrifying days and nights spent hunkered in the family basement under Syrian rocket attack or

coming across a pile of severed heads from a sectarian execution in the pine forests near his home. These early experiences left Dom with a profound loathing for the sanitized experiences of the modern day travel industry and a taste for the darkest of places. In this brilliantly odd and hilariously told travel memoir, Dom Joly sets out on a quest to visit those destinations from which the average tourist would, and should, run a mile. The more insalubrious the place, the more interesting is the journey and so we follow Dom as he skis in Iran on segregated slopes, spends a weekend in Chernobyl, tours the assassination sites of America and becomes one of the few Westerners to be granted entry into North Korea. Eventually Dom journeys back to his roots in Beirut only to

discover he was at school with Osama Bin Laden. Funny and frightening in equal measure, this is a uniquely bizarre and compelling travelogue from one of the most fearless and innovative comedians around.

The Futuro house designed by Finnish architect Matti Suuronen was first introduced in 1968. Its flying-saucer-like elliptical shape still retains its appeal even today, reflecting the space-age optimism and utopian vision of the sixties. This book offers a detailed, extensively illustrated history of the Futuro as well as a journey into our recent futuristic past. Also included is an exclusive DVD featuring the 29-minute documentary film FUTURO - A New Stance for Tomorrow (1998) plus 45

minutes of rare amateur film and other archive footage.

Originally published in 1991, this book examines the process whereby a modern colloquial style of written Japanese was developed in the context of the overall modernization of Japan. The book examines the process whereby this strategic simplification took place in Japan, beginning with a discussion of the background to the problem and the reasons why change was indicated. The history, characteristics and spheres of the four major styles found in documents of the modern period are examined, as are initial moves towards language reform in the fields of education and printed media. Separate illustrations in

Japanese script are provided to give an idea of the changing visual complexity of texts; in-text references, however, are romanized except where the use of characters is essential. Wherever possible, English sources are cited in addition to Japanese; where published translations are available, these are cited in order to enable non-speakers of Japanese to follow up references if they so desire.

In *The Unnamable Archipelago: Wounds of the Postcolonial in Postwar Japanese Literature and Thought*, Dennitza Gabrakova discusses how the island imagery in the works by Imafuku Ryūta, Ukai Satoshi, Ōba Minako, Ariyoshi Sawako, Hino Keizō, Ikezawa Natsuki, Shimada Masahiko and Tawada Yōko shapes a critical understanding of Japan on multiple intersections of trauma and sovereignty. The book attempts an engagement with the vocabulary of postcolonial critique, while attending to the complexity of its translation into Japanese.

For most of us, traveling means visiting the most beautiful places on Earth—Paris, the Taj Mahal, the Grand

Canyon. It's rare to book a plane ticket to visit the lifeless moonscape of Canada's oil sand strip mines, or to seek out the Chinese city of Linfen, legendary as the most polluted in the world. But in *Visit Sunny Chernobyl*, Andrew Blackwell embraces a different kind of travel, taking a jaunt through the most gruesomely polluted places on Earth. From the hidden bars and convenience stores of a radioactive wilderness to the sacred but reeking waters of India, *Visit Sunny Chernobyl* fuses immersive first-person reporting with satire and analysis, making the case that it's time to start appreciating our planet as it is—not as we wish it would be. Irreverent and reflective, the book is a love letter to our biosphere's most tainted, most degraded ecosystems, and a measured

consideration of what they mean for us. Equal parts travelogue, expose, environmental memoir, and faux guidebook, Blackwell careens through a rogue's gallery of environmental disaster areas in search of the worst the world has to offer—and approaches a deeper understanding of what's really happening to our planet in the process.

Tetsumi Kudo *Haikyo*

Focusing on one landmark catastrophic event in the history of an emerging modern nation—the Great Kanto Earthquake that devastated Tokyo and surrounding areas in 1923—this fascinating volume examines the history of the visual production of the disaster. The Kanto earthquake triggered cultural responses that ran the gamut from voyeuristic and macabre thrill to the

romantic sublime, media spectacle to sacred space, mournful commemoration to emancipatory euphoria, and national solidarity to racist vigilantism and sociopolitical critique. Looking at photography, cinema, painting, postcards, sketching, urban planning, and even scientific visualizations, Weisenfeld demonstrates how visual culture has powerfully mediated the evolving historical understanding of this major national disaster, ultimately enfolding mourning and memory into modernization.

Though constantly in decay, ruins continue to fascinate the observer. Their still-standing survival is a loud affirmation of their presence, in which we can admire the struggle against the

power of Nature aesthetically manifested during the decay. This volume takes a thematic approach to examining the aesthetics of ruins. It looks at the general aspects of architectural decay and its classical forms of admiration and then turns towards ruins from both classical and contemporary periods, from both Western and non-Western areas, and with examples from “high art” as well as popular culture.

Combining the methodologies of art history, aesthetics and cultural history, this book opens up new ways of looking at the phenomenon of ruins.

This book provides the first recent philosophical account of how ruins acquire aesthetic value. It draws on a variety of sources to explore modern ruins, the ruin tradition, and the phenomenon of “ruin porn.” It features an unusual and original combination of philosophical analysis, the author’s photography, and reviews of both new and historically influential case studies, including Richard Haag’s Gas Works Park, the ruins of Detroit, and remnants of the steel industry of Pennsylvania. Tanya Whitehouse shows how the users of ruins can become architects of a new

order, transforming derelict sites into aesthetically significant places we should preserve.

For a majority of filmgoers, the names most usually associated with classic Japanese cinema are those of Kurosawa and Ozu. Yet during the early 1950s, at the same time that Kurosawa was becoming known to the public through the release of classics like Rashomon and The Seven Samurai, another Japanese director, Kenji Mizoguchi, quietly came out with a trilogy of films - The Life of Oharu, Ugetsu Monogatari and Sansho the Bailiff - that are the equal of Kurosawa's in mastery, and which by any account rank among the greatest and most enduring masterpieces of world cinema. As a

storyteller, Mizoguchi was drawn to the plight and oppression of women throughout the ages - it was, for him, the 'subject of subjects'. So in addition to the movies just mentioned, he is remembered for a string of masterly contemporary films that examined, with unprecedented candour and ferocity, the conditions of life in Japanese brothels and geisha houses. Yet, as well as being a moralist. Mizoguchi was a stylist. His films are considered by critics to be among the most beautiful ever made, from a purely pictorial point of view. Filmgoers who have responded enthusiastically in recent years to Chinese classics like Farewell My Concubine or to the colourful works of Zhang Yimou will be delighted to discover 'pre-echoes' of this cinema in

such late films by this Japanese master as The Empress Yang Kwei Fei and Tales of the Taira Clan (both released in 1955) works in which colour, costume and decor are deployed with compelling refinement. Despite his extraordinary qualities as a film-maker, Mizoguchi and Japan is the first full -length study in English for over 20 years of a director whose work is as vibrant now as it ever was in its heyday, and whom the French film review Cahiers du Cinema recently hailed 'the greatest of all cineastes.'
