Twenty years ago, noted film scholars Tom Gunning and André Gaudreault introduced the phrase "cinema of attractions" to describe the essential qualities of films made in the medium's earliest days, those produced between 1895 and 1906. Now, *The Cinema of Attractions Reloaded* critically examines the term and its subsequent wide-ranging use in film studies. The collection opens with a history of the term, tracing the collaboration between

Gaudreault and Gunning, the genesis of the term in their attempts to explain the spectacular effects of motion that lay at the heart of early cinema, and the pair's debts to Sergei Eisenstein and others. This reconstruction is followed by a look at applications of the term to more recent film productions, from the works of the Wachowski brothers to virtual reality and video games. With essays by an impressive collection of international film scholars—and featuring contributions by Gunning and Gaudreault as well—*The Cinema of Attractions Reloaded* will be necessary reading for all scholars of early film and its continuing influence.

From apple pie to baklava, cannoli to gulab jamun, sweet treats have universal appeal in countries around the world. This encyclopedia provides a comprehensive look at global dessert culture. Few things represent a culture as well as food. Because sweets are universal foods, they are the perfect

basis for a comparative study of the intersection of history, geography, social class, religion, politics, and other key aspects of life. With that in mind, this encyclopedia surveys nearly 100 countries, examining their characteristic sweet treats from an anthropological perspective. It offers historical context on what sweets are popular where and why and emphasizes the cross-cultural insights those sweets present. The reference opens with an overview of general trends in desserts and sweet treats. Entries organized by country and region describe cultural attributes of local desserts, how and when sweets are enjoyed, and any ingredients that are iconic. Several popular desserts are discussed within each entry including information on their history, their

importance, and regional/cultural variations on preparation. An appendix of recipes provides instructions on how to make many of the dishes, whether for school projects or general entertaining. *The Story of Lingerie* Multilingual Matters Gal Ventura explores the ideological sources promoting maternal breastfeeding in modern Western society, through a survey of hundreds of artworks produced in France from the French Revolution to the beginning of the twentieth century.

The Media Book Dorling Kindersley Takes readers behind the scenes at five animal sanctuaries and rescue zoos, and one care farm.

What is the social merit or purpose of all those bras and panties on perfectly sculpted bodies that we see spread across billboards and magazines? Many women indulge in lingerie to please men. Yet, ever since Antiquity, women have always kept lingerie hidden away under outer garments. Thus, lingerie must be more than erotic bait. Authors Muriel Barbier and Shazia Boucher have researched iconography to explore the relationship of lingerie to society, the economy and the corridors of intimacy. They correlate lingerie with emancipation, querying whether it

asserts newfound freedoms or simply adjusts to conform to changing social values. The result is a rigorous scientific rationale spiced with a zest of humour. And the tinier lingerie gets, the more scholarly attention it deserves.
