This volume recognizes the need for culturally responsive forms of school counseling and draws on the author's first-hand experiences of working with students in urban schools in the United States to illustrate how hip-hop culture can be effectively integrated into school counseling to benefit and support students. Detailing the theoretical development, practical implementation and empirical evaluation of a holistic approach to school counseling dubbed "Hip-Hop and Spoken Word Therapy" (HHSWT), this volume documents the experiences of the school counselor and students throughout a HHSWT pilot program in an urban high school. Chapters detail the socio-cultural roots of hip-hop and explain how hip-hop inspired practices such as writing lyrics, producing mix tapes and using traditional hip-hop cyphers can offer an effective means of transcending White, western approaches to counseling. The volume foregrounds the needs of racially diverse, marginalized youth, whilst also addressing the role and positioning of the school counselor in using HHSWT. Offering deep insights into the practical and conceptual challenges and benefits of this inspiring approach, this book will be a useful resource for practitioners and scholars working at the intersections of culturally responsive and relevant forms of school counseling, spoken word therapy and hip-hop studies.

This book explores how verbal blessings can change and restore difficult relationships, highlighting the great power of the living God to work in our daily lives. The spoken blessing is a powerful spiritual weapon with enduring impact. By giving spoken blessings, we can see healing brought to aching souls and restoration brought to bruised relationships. Such wonders are accomplished by the power of God's Spirit through the agency of spoken blessings, just as Scripture affirms: "Death and life are in the power of the tongue." Our words have the power to crush or to heal, to break bones or to plant a tree of life where none has grown before. And these dynamics of the spoken blessing may be truer today than ever. Mr. Gothard's timely message brings this awareness to us in a helpful and encouraging way. "Death and life are in the power of the tongue." Proverbs 18:21 What if spoken blessings could grant freedom from years of bitter hurts? What if they could break down the walls that divide husband from wife, parent from child, and friend from friend? Our words have lasting impact not only for harm, but also for great good. By speaking blessings, we can help bring healing to aching souls and restoration to bruised relationships. Let Bill Gothard share with you the secret of spoken blessings, and embark on a rich family tradition that brings harmony and closeness beyond anything you've previously experienced. *Story Behind the Book* While dealing with layer after layer of hurts, fears, and barriers that teenagers experience with their parents and God, I often heard cruel statements by a parent during a time of anger. Statements like "I wish you were never born" or "You'll never amount to anything" were like deadly poison affecting everything in that teenager's life. Such is the power of a verbal curse. However, more powerful have been the verbal blessings of a parent to a son or daughter. They have been like sources of refreshment and energy that have guided the goals and decisions of those who received them. With such lasting results from the life-and-death power of the tongue, it was essential to me that this book be written.

Spoken Like a Woman Routledge

"A powerful book on an important topic. *Speak Up* helps us understand the subtle elements that contribute to our holding back valuable ideas and observations. Their TRUTH framework - which is as practical as it is rigorous - identifies essential elements to help individuals find their voice. " Amy Edmondson, Professor, Harvard Business School, Author, *The Fearless Organization* (Wiley, 2019) What you say or don't say in a conversation can have life-defining consequences on ourselves and those around us. *Speak Up* helps you to navigate power differences so you can speak up with confidence and enable others to find their voice in a way that will be heard. Our day-to-day conversations define how we see ourselves and how we're seen. The choices we make about what to say and who to say it to are decisive factors in whether we get promoted, or side-lined. Whether we steer clear of trouble, or find ourselves in it up to our necks. With daily scandals hitting the headlines and the continuous need to innovate to survive, creating a more honest, open, fulfilling and productive workplace has never been more pressing. Our conversational choices harness the ideas and intelligence of the people we work with, or result in that revolutionary concept never seeing the light of day. They make us feel proud or ashamed of ourselves for what we have or have not said. They cause us to flourish and feel motivated, or result in us feeling dissatisfied and resentful. *Speak Up* helps you to navigate power differences and speak up with confidence in a way that you will be heard. But it's no good speaking up if there isn't anyone listening so we also help you to understand how your power enables others to speak up and how it might silence them.

Your Word is Your Wand Simon and Schuster

The Room Is on Fire offers an overview of youth spoken word poetry's history, its practitioners, participants, and practices. Susan Weinstein explores its grounding in earlier literary/performance/educational traditions and discusses its particular challenges. In order to analyze these issues, the story of how youth spoken word poetry developed as a field is told through the voices of those involved. Interviewees include the people who organized the first youth poetry slam festivals, the founders of central youth spoken word organizations, and a selection of young people who have participated in their local programs and in regional and national events over the last two decades. Narratives about individual and communal efforts and experiences are supported by analyses of full-text poems by youth poets and by reference to contemporary scholarship in performance studies, critical youth studies, and new literacy studies. Blending history and theory with practical descriptions of how spoken word poetry is taught and how to produce spoken word events, the book will appeal to researchers, teacher educators, and K-12 teachers.
