Cambridge English Empower is a general adult course that combines course content from Cambridge University Press with validated assessment from Cambridge English Language Assessment.

English Unlimited for Spanish Speakers Pre-intermediate Teacher's Pack (Teacher's Book with DVD-ROM) Marshall Cavendish Ltd

This is the teachers edition of the textbook of the same name. It consists of 15 4-page units, that deal with the most important Grammar points. Each unit starts by briefly introducing the new Grammar point and then students have to practise a variety of exercises. These books can also be used as time fillers; perfect for when teachers have some extra time at the end of a lesson, or want to revise a specific Grammar point. Levels B1, and B2 have also been written for students who are planning to take the IELTS exam. Although Grammar is not tested directly on the IELTS, it is tested indirectly in the speaking and writing sections of the exam. You can gain or lose points based on your command of English grammar. Therefore, it would help to undertake a general review of English grammar while preparing for the IELTS.

The focus of Paradigms in Word Formation: Theory and applications is on the relevance of paradigms for linguistic description. Paradigmatic organization

has traditionally been considered an inherent feature of inflectional morphology, but research in the last decades clearly shows the existence of paradigms in word formation, especially in affixal derivation, often at the expense of other word-formation processes. This volume seeks to address the role that paradigms may play in the description of compounding, conversion and participles. This volume should be of interest to anyone specialized in the field of English morphology and word formation.

NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and

free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
