## EFRAIN ABBEY

*The Believer's Code* Univ of California Press  
 Presents brief entries describing the gods and goddesses from the mythology and religion of a wide variety of cultures throughout history.

**Being the Preface and the Fourteenth and Fifteenth, Books of Boccaccio's *Genealogia Deorum Gentilium* in an English Version With Introductory Essay and Commentary (Classic Reprint)** Vintage

Racism in America has been the subject of serious scholarship for decades. At Harvard University Press, we've had the honor of publishing some of the most influential books on the subject. The excerpts in this volume—culled from works of history, law, sociology, medicine, economics, critical theory, philosophy, art, and literature—are an invitation to understand anti-Black racism through the eyes of our most incisive commentators. Readers will find such classic selections as Toni Morrison's description of the Africanist presence in the White American literary imagination, Walter Johnson's depiction of the nation's largest slave market, and Stuart Hall's theorization of the relationship between race and nationhood. More recent voices include Khalil Gibran Muhammad on the pernicious myth of Black criminality, Elizabeth Hinton on the link between mass incarceration and 1960s social welfare programs, Anthony Abraham Jack on how elite institutions continue to fail first-generation college students, Mehrsa Baradaran on the racial wealth gap, Nicole Fleetwood on carceral art, and Joshua Bennett on the anti-Black bias implicit in how we talk about animals and the environment. Because the experiences of non-White people are integral to the history of racism and often bound up in the story of Black Americans, we have included writers who focus on the struggles of Native Americans, Latinos, and Asians as well. Racism in America is for all curious readers, teachers, and students who wish to discover for themselves the complex and rewarding intellectual work that has sustained our national conversation on race and will continue to guide us in future years.

*Over 2,500 Deities of the World* Presbyterian Publishing Corp  
 This debut book boldly seeks to argue competitively in the same intellectual field as famous atheists such as RICHARD DAWKINS, CHRISTOPHER HITCHENS, and BERTRAND RUSSELL, and to do so in the spirit and style of such famous Christian apologists as C.S. Lewis and RAVI ZACHARIAS, drawing heavily on basic science, history, physics, psychology, paleontology, anthropology, archeology, neurology, child development and even science fiction. It describes the evolution of the human brain in ancient hominids allowing humans to eventually conceive a non-physical

realm (the spirit world), and as the mind evolved intellectually from primitive animism to Christology, God revealed himself gradually as the developing hominid brain became able to comprehend new ideas. For Believers, the author presents a new, intellectually satisfying way to understand and defend the Bible. For both Skeptics and Believers, a worldview is offered that is spiritually meaningful and scientifically sound.

*A Manual of the Mythology and Religion of the People of Southern India, Including a Description of Popular Hinduism* Forgotten Books

Finest heroic poem in Old English celebrates the exploits of Beowulf, a young nobleman of southern Sweden. Combines myth, Christian and pagan elements, and history into a powerful narrative. Genealogies.

*The Pagan Christ* Harvard University Press

Provides information on the gods, heroes, rituals, beliefs, symbols, and stories of Norse mythology.

*Recovering the Lost Light* Greenhaven Publishing LLC

"Readers may find themselves ordering their own DNA testing kit upon finishing this." —Publishers Weekly "The Soul of the Family Tree posits that a spiritual grounding in one's family history can combat 'historical amnesia' and nurture a sense of belonging." —Foreword Reviews Growing up in a passionately Norwegian-American Iowa town, Lori Erickson rolled her eyes at traditions like Nordic Fest and steaming pots of rømmegrøt. But like many Americans, she eventually felt drawn to genealogy, the "quintessential hobby of middle age." Her quest to know more about the Vikings and immigrants who perch in her family tree led her to visit Norse settlements and reenactments, medieval villages and modern museums, her picturesque hometown and her ancestor's farm on the fjords. Along the way, Erickson discovers how her soul has been shaped by her ancestors and finds unexpected spiritual guides among the seafaring Vikings and her hardscrabble immigrant forebears. Erickson's far-ranging journeys and spiritual musings show us how researching family history can be a powerful tool for inner growth. Travel with Erickson in *The Soul of the Family Tree* to learn how the spirits of your ancestral past can guide you today.

*Prose Edda* Infobase Publishing

The Eddic poem Vafþrúðnismál serves as a representation of early pagan beliefs or myths and as a myth itself; the poem performs both of these functions, acting as a poetic framework and functioning as sacred myth. In this study, the author looks closely at the journey of the Norse god Óðinn to the hall of the ancient and wise giant Vafþrúðnir, where Óðinn craftily engages his adversary in a life-or-death contest in knowledge.

*Norse Mythology* Thomas Nelson

This book, developed out of the 1969 Sather lectures at Berkeley, California, confronts a wide range of problems concerning the

nature, meaning and functions of myths. Professor Kirk's aim is to introduce a degree of coherence and of critical awareness into a subject that arouses profound interest today, but which for too long has been the target of excessive theorizing and interdisciplinary confusion between anthropologists, sociologists, classicists, philosophers and psychologists. Professor Kirk begins by discussing the relation of myths to rituals and folktales, and the weakness of universalist theories of function. He then subjects Lévi-Strauss's structuralist theory to an extended exposition and criticism; he considers the character and meaning of ancient Near Eastern myths, their influence on Greece, and the special forms with rational modes of thought, and finally, he assesses the status of myths as expressions of the unconscious, as elements of dreams, universal symbols, as accidents along the way to some narrative objective. The result is a significant critical venture into the history and philosophy of thought, imagination, symbol and society.—From publisher description.

*Norse Mythology* Princeton University Press

Our foremost theorist of myth, fairytale, and folktale explores the magical realm of the imagination where carpets fly and genies grant prophetic wishes. *Stranger Magic* examines the profound impact of the Arabian Nights on the West, the progressive exoticization of magic, and the growing acceptance of myth and magic in contemporary experience.

*Ireland's Immortals* Rav Sha'ul

*365 Devotions to Unlock the Blessings in God's Word* God's Word is filled with blessings and insights that encourage, comfort, and bring joy. Delve into the riches of Scripture through *The Believer's Code*, and find each day's devotional, including Scripture, a daily reading, and a Code Word. The unique Code Words offer a challenge and practical suggestion to put your faith in action. All author royalties from the book are donated to Mission:Dignity to help pastors, their wives and widows in financial need in their declining years.

*Dictionary of Gods and Goddesses* New Leaf Publishing Group  
 An engaging account of the world of the Vikings and their gods.

*Germanic Gods and Myths Art Coloring Book* Harvard University Press

Excerpt from Boccaccio on Poetry: Being the Preface and the Fourteenth and Fifteenth, Books of Boccaccio's *Genealogia Deorum Gentilium* in an English Version With Introductory Essay and Commentary Partly for the historic worth of these books, partly because the ideas which they contain may not be wholly unsalutary in this latter day, and partly because they lead to intimacy with that very engaging person, the author, this version has seemed worth the making. It had its origin more than twenty years ago in a suggestion of the late Professor Cook. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com)

This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

-Title page verso.

**The Soul of the Family Tree** Llewellyn Worldwide

A study of the role of the devil in biblical and modern times theorizes that dissident social groups that resisted Christianity, such as pagans and Jews, were typically portrayed as demons and therefore established as threats. Reprint. 60,000 first printing.

**A Reader** Medieval & Renais Text Studies

This text re-reads Western history in the light of nihilistic logic, which pervades two millennia of Western thought. From Parmenides to Alain Badiou, via Plotinus, Avicenna, Duns Scotus, Ockham, Descartes, Spinoza, Kant, Hegel, Heidegger, Sartre, Lacan, Deleuze and Derrida, a genealogy of nothingness can be witnessed in development, with devastating consequences for the way we live.

**365 Devotions to Unlock the Blessings of God's Word** SUNY Press

Much more than a mere compilation of pagan myths, Boccaccio's Genealogy of the Pagan Gods incorporates hundreds of excerpts from and comments on ancient poetry. It is both the most ambitious work of literary scholarship of the early Renaissance and a demonstration to contemporaries of the moral and cultural value of studying ancient poetry.

**A Translation with Glossary** WestBow Press

Peter Andreas Munch (1810-1863) was a Norwegian historian, known for his work on the medieval history of Norway. His scholarship included Norwegian archaeology, geography, ethnography, linguistics, and jurisprudence. Munch is noted for his Norse Legendary saga translations.

**Badass Ancestors** Routledge

This book is about the Old Norse god Odin. It includes references to all occurrences of Odin in the Old Norse/Icelandic texts, including Saxo's Gesta Danorum, the eddic poems, Snorri's Edda, and Ynglinga saga and analyses the high medieval reception and literary representations of Odin rather than the religious character of the god. This is the only existing study of Odin in all the Old Norse/Icelandic texts and applies a contextual method: the

different guises of Odin are studied on the basis of the various textual contexts and on their background in the literary and Christian intellectual milieu of the time. Contrary to existing studies, this method is non-reductive in that it does not aim at providing a synthesis about Odin's original nature on the basis of the differing textual uses of Odin in the Middle Ages. The book argues that the perceived complexity of Odin, often highlighted in research, is first and foremost a function of the complex textual material spanning a wide variety of genres each with its particular literary conventions and of the reception of Odin in early modern and modern mythological studies.

*Genealogy of Nihilism* Dundurn.com

Ireland's Immortals tells the story of one of the world's great mythologies. The first account of the gods of Irish myth to take in the whole sweep of Irish literature in both the nation's languages, the book describes how Ireland's pagan divinities were transformed into literary characters in the medieval Christian era—and how they were recast again during the Celtic Revival of the late nineteenth and early twentieth centuries. A lively narrative of supernatural beings and their fascinating and sometimes bizarre stories, Mark Williams's comprehensive history traces how these gods—known as the Túatha Dé Danann—have shifted shape across the centuries. We meet the Morrígan, crow goddess of battle; the fire goddess Brigit, who moonlights as a Christian saint; the fairies who inspired J.R.R. Tolkien's elves; and many others. Ireland's Immortals illuminates why these mythical beings have loomed so large in the world's imagination for so long.
