This book is an interview of Elijah Muhammad explaining his initial encounter with his teacher, Master Fard Muhammad and how his messengership came about. The subjects discussed are Master Fard Muhammad's whereabouts, the races and what makes a devil and

satan. He answers questions dealing the concept of divine and how ideas are perfected. More basic subjects include Malcolm X, Noble Drew Ali, C. Eric Lincoln, Udom, and a comprehensive range of information.

My First Book about the Qur'an Dundurn

"In this satisfying, lyrical memoir," an American woman discovers her true faith—and true love—by converting to Islam and moving to Egypt (Publishers Weekly). Raised in Boulder, Colorado, G. Willow Wilson moved to Egypt and

converted to Islam shortly after college. Having written extensively on modern religion and the Middle East in publications such as The Atlantic Monthly and The New York Times Magazine, Wilson now shares her remarkable story of finding faith, falling in love, and marrying into a traditional Islamic family in this "intelligently written and passionately rendered memoir" (The Seattle Times, 27 Best Books of 2010). Despite her atheist upbringing, Willow always felt a connection to god. Around the time of 9/11, she took an Islamic Studies course at

Boston University, and found the teachings of the Quran astounding, comforting, and profoundly transformative. She decided to risk everything to convert to Islam, embarking on a journey across continents and into an uncertain future. Settling in Cairo where she taught English, she soon met and fell in love with Omar, a passionate young man with a mild resentment of the Western influences in his homeland. Torn between the secular West and Muslim East, Willow—with her shock of red hair, shaky Arabic, and Western candor—struggled to forge a “third culture” that might accommodate her values as well as her friends and family on both sides of the divide. Part travelogue, love story, and memoir, “Wilson has written one of the most beautiful and believable narratives about finding closeness with God” (The Denver Post).

In this original and illuminating book, Denise A. Spellberg reveals a little-known but crucial dimension of the story of American religious freedom—a drama in which Islam played a surprising role. In 1765, eleven years before composing the

Declaration of Independence, Thomas Jefferson bought a Qur’an. This marked only the beginning of his lifelong interest in Islam, and he would go on to acquire numerous books on Middle Eastern languages, history, and travel, taking extensive notes on Islam as it relates to English common law. Jefferson sought to understand Islam notwithstanding his personal disdain for the faith, a sentiment prevalent among his Protestant contemporaries in England and America. But unlike most of them, by 1776 Jefferson could imagine Muslims as future citizens of his new country. Based on groundbreaking research, Spellberg compellingly recounts how a handful of the Founders, Jefferson foremost among them, drew upon Enlightenment ideas about the toleration of Muslims (then deemed the ultimate outsiders in Western society) to fashion out of what had been a purely speculative debate a practical foundation for governance in America. In this way, Muslims, who were not even known to exist in the colonies, became the imaginary outer limit for an unprecedented, uniquely American religious pluralism that would also

encompass the actual despised minorities of Jews and Catholics. The rancorous public dispute concerning the inclusion of Muslims, for which principle Jefferson’s political foes would vilify him to the end of his life, thus became decisive in the Founders’ ultimate judgment not to establish a Protestant nation, as they might well have done. As popular suspicions about Islam persist and the numbers of American Muslim citizenry grow into the millions, Spellberg’s revelatory understanding of this radical notion of the Founders is more urgent than ever. Thomas Jefferson’s Qur’an is a timely look at the ideals that existed at our country’s creation, and their fundamental implications for our present and future. From Islam to Christ Mango Media Inc. In Little X, Sonsyrea Tate reveals, through the acute vision and engaging voice of a curious child, the practices and policies of the mysterious organization most know only through media portrayals of its controversial leaders Elijah Muhammad, Malcolm X, and Louis Farrakhan. First published in 1997, Little X chronicles the multigenerational experience of Tate's family, who broke from the traditional black church in the 1950s to join the radical Nation of Islam, then struggled to remain intact through disillusionment, shifting loyalties, and forays into Orthodox Islam. Little X is also an absorbing story of a little girl whose strict Muslim education filled her with pride, confidence, and a longing for freedom, of a teenager in an ankle-length dress and headwrap struggling to fit in with non-Muslim peers, and of a young woman whose growing disillusionment with the Nation finally led to her break with the Muslim religion. Little X offers a rare glimpse into the everyday experience of the Nation of Islam, and into a little-understood part of America's history and heritage. Sonsyrea Tate-

Montgomery has been a staff writer for the *Virginian Pilot*, *Chicago Tribune*, and the *Washington Post*. The recipient of four coveted Echoes of Excellence awards from the National Association of Black Journalists, Tate has also worked as assistant to Congresswoman Eleanor Holmes Norton. She currently works as a political reporter for *The Gazette*, a Post-Newsweek publication.

Thomas Jefferson's Qur'an Princeton University Press

Interviews with young Muslims in Chicago explore the complexity of identities formed at the crossroads of Islam and hip hop. This groundbreaking study of race, religion and popular culture in the 21st century United States focuses on a new concept, "Muslim Cool." Muslim Cool is a way of being an American Muslim—displayed in ideas, dress, social activism in the 'hood, and in complex relationships to state power. Constructed through hip hop and the performance of Blackness, Muslim Cool is a way of engaging with the Black American experience by both Black and non-Black young Muslims that challenges racist norms in the U.S. as well as dominant

ethnic and religious structures within American Muslim communities. Drawing on over two years of ethnographic research, Su'ad Abdul Khabeer illuminates the ways in which young and multiethnic US Muslims draw on Blackness to construct their identities as Muslims. This is a form of critical Muslim self-making that builds on interconnections and intersections, rather than divisions between "Black" and "Muslim." Thus, by countering the notion that Blackness and the Muslim experience are fundamentally different, *Muslim Cool* poses a critical challenge to dominant ideas that Muslims are "foreign" to the United States and puts Blackness at the center of the study of American Islam. Yet *Muslim Cool* also demonstrates that connections to Blackness made through hip hop are critical and contested—critical because they push back against the pervasive phenomenon of anti-Blackness and contested because questions of race, class, gender, and nationality continue to complicate self-making in the United States.

Progress in biomedical science has called for an international discussion of the medical, ethical, and legal problems that confront physicians, medical researchers,

infertile couples, pregnant women, and parents of premature or disabled infants. In addition, the unprecedented technological developments in obstetrical, perinatal, and neonatal medicine in recent years have indicated a need for an international forum for interdisciplinary dialogue regarding the definition of early human life, the neurological development of early human life, the value of early human life, the obligations for its protection and prolongation, and the limits to these obligations.

The Muslims W. W. Norton & Company Malcolm X's blazing, legendary autobiography, completed shortly before his assassination in 1965, depicts a remarkable life: a child born into rage and despair, who turned to street-hustling and cocaine in the Harlem ghetto, followed by prison, where he converted to the Black Muslims and honed the energy and brilliance that made him one of the most important political figures of his time - and an icon in ours. It also charts the spiritual journey that took him beyond militancy, and led to his murder, a powerful story of transformation, redemption and betrayal. Vilified by his critics as an anti-white

demagogue, Malcolm X gave a voice to unheard African-Americans, bringing them pride, hope and fearlessness, and remains an inspirational and controversial figure today.

The Butterfly Mosque Chronicle Books

A compelling portrait of a group of boys as they navigate the complexities of being both American teenagers and good Muslims This book provides a uniquely personal look at the social worlds of a group of young male friends as they navigate the complexities of growing up Muslim in America. Drawing on three and a half years of intensive fieldwork in and around a large urban mosque, John O'Brien offers a compelling portrait of typical Muslim American teenage boys concerned with typical teenage issues—girlfriends, school, parents, being cool—yet who are also expected to be good, practicing Muslims who don't date before marriage, who avoid vulgar popular culture, and who never miss their prayers. Many Americans unfamiliar with Islam or Muslims see young men like these as potential ISIS recruits. But neither militant Islamism nor Islamophobia is the main concern of these boys, who are focused

instead on juggling the competing cultural demands that frame their everyday lives. O'Brien illuminates how they work together to manage their "culturally contested lives" through subtle and innovative strategies—such as listening to profane hip-hop music in acceptably "Islamic" ways, professing individualism to cast their participation in communal religious obligations as more acceptably American, dating young Muslim women in ambiguous ways that intentionally complicate adjudications of Islamic permissibility, and presenting a "low-key Islam" in public in order to project a Muslim identity without drawing unwanted attention. Closely following these boys as they move through their teen years together, *Keeping It Halal* sheds light on their strategic efforts to manage their day-to-day cultural dilemmas as they devise novel and dynamic modes of Muslim American identity in a new and changing America.

Inside the Nation of Islam Penguin Modern Classics

Considers the question: what does it mean to be Muslim and American? In *Islam Is a Foreign Country*, Zareena Grewal explores

some of the most pressing debates about and among American Muslims: what does it mean to be Muslim and American? Who has the authority to speak for Islam and to lead the stunningly diverse population of American Muslims? Do their ties to the larger Muslim world undermine their efforts to make Islam an American religion? Offering rich insights into these questions and more, Grewal follows the journeys of American Muslim youth who travel in global, underground Islamic networks. Devoutly religious and often politically disaffected, these young men and women are in search of a home for themselves and their tradition. Through their stories, Grewal captures the multiple directions of the global flows of people, practices, and ideas that connect U.S. mosques to the Muslim world. By examining the tension between American Muslims' ambivalence toward the American mainstream and their desire to enter it, Grewal puts contemporary debates about Islam in the context of a long history of American racial and religious exclusions. Probing the competing obligations of American Muslims to the nation and to the umma

(the global community of Muslim believers), *Islam is a Foreign Country* investigates the meaning of American citizenship and the place of Islam in a global age.

Prophet Muhammad The Muslims

Perhaps no other Western writer has more deeply probed the bitter struggle in the Muslim world between the forces of religion and law and those of violence and lawlessness as Noah Feldman. His scholarship has defined the stakes in the Middle East today. Now, in this incisive book, Feldman tells the story behind the increasingly popular call for the establishment of the shari'a--the law of the traditional Islamic state--in the modern Muslim world. Western powers call it a threat to democracy. Islamist movements are winning elections on it. Terrorists use it to justify their crimes. What, then, is the shari'a? Given the severity of some of its provisions, why is it popular among Muslims? Can the Islamic state succeed--

should it? Feldman reveals how the classical Islamic constitution governed through and was legitimated by law. He shows how executive power was balanced by the scholars who interpreted and administered the shari'a, and how this balance of power was finally destroyed by the tragically incomplete reforms of the modern era. The result has been the unchecked executive dominance that now distorts politics in so many Muslim states. Feldman argues that a modern Islamic state could provide political and legal justice to today's Muslims, but only if new institutions emerge that restore this constitutional balance of power. *The Fall and Rise of the Islamic State* gives us the sweeping history of the traditional Islamic constitution--its noble beginnings, its downfall, and the renewed promise it could hold for Muslims and Westerners alike. In a new introduction, Feldman discusses developments in Egypt, Tunisia, Libya, and other Muslim-majority countries since the Arab Spring and describes how Islamists must meet the challenge of balance if the new Islamic states are to succeed.

Amazing Muslims Who Changed the World

NYU Press

Explores the doctrines and beliefs of Islam, its practices and institutions, the history of the religion, and Islam today.

Temptations of Power Penguin UK

"Humility is a fundamental attribute of a believer. It may well be the one virtue of strong character that is a precondition of all the others. Humility is a modest view of oneself. In Islam, it is also having the awareness that all good qualities we have are granted by God, and that all praise and thanks is to Him. In our first story, "Down to Earth," Shireen challenges Jafar to see who can survive better in the wild. In her arrogance, she gets hurt, learning that she should be humble instead. We should have humility because it helps us become better human beings. Humble people recognize that we can work on our limitations by being open to new ideas, advice, and criticism. In our second story, "Know-It-All Asad," Asad learns that pride comes before a fall when he becomes overconfident and is humiliated as a result. He realizes that not only can humility prevent embarrassment, but it also allows us to learn and improve ourselves, which is an important part of

being a Muslim.”—Provided by publisher.
