The Cabuliwallah CreateSpace Awards: How to Write a Book in 8 Days is the winner of 5 International Awards. Synopsis: Imagine what it would be like if you had a fully completed manuscript of a book you have been thinking of writing for years, in about eight days, without having to quit your job, wait for retirement or to take a sabbatical. A lot of people are under the impression that it takes years to write a good book; and to go years without any income or a future prospect of remuneration, scares them and puts them off right from the start. Whether you publish that book or not, in applying the strategies that I outline here, you will be able to have in your hands a full and

complete manuscript, bringing you to the status of being an author, one of the most creative professions in the world, a profession that holds the power of evolution and revolution in any area you choose to direct your interests. How to Write a Book in Eight Days demystifies and simplifies the phenomenon of writing a book and writing it in such a way that it will bring you and the reader the success you desire.
