Will Israel and the U.S. be destroyed or partially destroyed in 2012-2019 or 2026-2030 and beyond and Muslims, Catholics and communism take over most of the world? Were there strange things going around the sun, the moon changing degrees and phases, stars that aren't where they suppose to be and the magnetic poles changing mostly reported secretly in 2001-2011? Did NASA or scientists and astronomers brush the pictures of them away so not to scare people? Did the Bible Code predict strange behavior of the moon in 2011? Will a great tidal wave hit the U.S. East Coast in 2012-2019 and Yellowstone Park super volcano erupt or a comet or asteroid hits the earth or Ocean in 2026-2030 and utterly destroy the entire United States if it still around after the war of 2012-2019? Will the Muslims, communism and Catholics persecute Christians, Americans and Jews all over the world bringing them before Kings and have them sent to prisons and torture and killed if they don't deny Christ and convert to Islam? Will Muslims and people all over the world begin to mock and scoff at Christians and the Bible because Israel and the U.S. are destroyed and no Rapture or end or Second Coming of Christ happened? Several of the Bible prophecies predict God will not make a full end of the U.S., Israel and the world at this time and pockets of people and nations may or may not survive. God may save the U.S., Israel and the world if the people repent and turn from their

sins and begin to humble themselves and heed the harbingers. But if they don't then these events may start to happen. This book was written by June 12, 2012.

**Leo - July 23 August 22** Simon and Schuster

Reveals how Christian mythology has more to do with long-standing pagan traditions than the Bible • Explains how the church fathers knowingly incorporated pagan elements into the Christian faith to ease the transition to the new religion • Identifies pagan deities that were incorporated into each of the saints • Shows how all the major holidays in the Christian calendar are modeled on pagan rituals and myths, including Easter and Christmas In this extensive study of the Christian mythology that animated Europe in the Middle Ages, author Philippe Walter reveals how these stories and the holiday traditions connected with them are based on long-standing pagan rituals and myths and have very little connection to the Bible. The author explains how the church fathers knowingly incorporated pagan elements

into the Christian faith to ease the transition to the new religion. Rather than tear down the pagan temples in Britain, Pope Gregory the Great advised Saint Augustine of Canterbury to add the pagan rituals into the mix of Christian practices and transform the pagan temples into churches. Instead of religious conversion, it was simply a matter of convincing the populace to include Jesus in their current religious practices. Providing extensive documentation, Walter shows which major calendar days of the Christian year are founded on pagan rituals and myths, including the high holidays of Easter and Christmas. Examining hagiographic accounts of the saints, he reveals the origin of these symbolic figures in the deities worshipped in pagan Europe for centuries. He also explores how the identities of saints and pagan figures became so intermingled that some saints were transformed into pagan incarnations, such as Mary Magdalene's conversion into one of the Celtic Ladies of the Lake. In revealing the pagan roots of many Christian figures, stories, and rituals, Walter provides a new understanding of the evolution of religious belief.
