Explore over 60 of the world's most amazing cities with this activity book for urban explorers. Fill in New York's famous skyline, design a Mexican wrestling mask, find the difference between Viennese dancing horses, and add your own mural to a Melbourne graffiti wall. Start your tour by decorating a totem pole in Vancouver, Canada, and then travel around the world before finding and drawing the world's fastest fish—the black marlin—found near Apia, the capital city of Samoa. With its colorful illustrations, photos and facts about each city, plus over 250 stickers, *The Cities Activity Book* plunges readers into a world full of amazing places and cultures. Activities include: Counting the number of windows on the White House in Washington DC Creating the famous Hollywood sign on the hills overlooking Los Angeles Striking up a conversation with a local in Jamaica Completing the colorful costumes of Carnival goers in Rio de Janeiro Spotting the difference between llamas in Cuzco Adding pirate ships and hoards of gold to Cartagena's old port Drawing a puffin from Iceland Filling in the famous sights along London's River Thames Joining the dots to complete the enormous Eiffel Tower in Paris Matching the aardvark to its yummy termite nest in Timbuktu Creating your own colorful matatu minibus in Nairobi Building the world's tallest skyscraper in Dubai Finding your way through the maze of Beijing's ancient Forbidden City Counting the commuters in Tokyo's super-busy metro system Completing the outfits of Maoris doing a traditional dance Other books in the series: *The Travel Activity Book* *About Lonely Planet Kids: Lonely Planet Kids*—an imprint of the world's leading travel authority Lonely Planet—published its first book in 2011. Over the past 45 years, Lonely Planet has grown a dedicated global community of travelers, many of whom are now sharing a passion for exploration with their children. Lonely Planet Kids educates and encourages young readers at home and in school to learn about the world with engaging books on culture, sociology, geography, nature, history, space and more. We want to inspire the next generation of global citizens and help kids and their parents to approach life in a way that makes every day an adventure. Come explore!

100 Most Beautiful Cities of the World Chronicle Books

Big city life unites the planet. Every habitable continent has metropolitan hot spots that are a hive of activity, a hub of culture—or, to countless millions, the place they call home. Some thrive on a symphony of car horns while for others there's the rhythmic echo of trains or even ships. The air may hang heavy with spices or fragrant flowers, among buildings that are rarefied or regenerated. There's no universal formula that makes a city illustrious. But the spectacle of a horizon brimming with prominent buildings great and small evokes an anticipatory thrill about what lies at its core. And a skyline is that city's iconic signature writ large on a blank canvas, with no two appearing the same. A skyline is a window—shoppers guide to what lays in store. It is a visual code that bridges the language gap and shows you at a glance what has made a city great. From the dizzy heights of the Dubai horizon to the ancient silhouette of Rome, *Skylines* features fifty of the most iconic,

vibrant and often magnificent places from across the globe. This is your key to exploring the world through the architectural triumphs that make our cities famous. Beautiful and atmospheric illustrations accompany an introduction to these iconic vistas, summing up their spirit, history and location. Short histories of each place reveal threads that illuminate often well-trodden streets. This compilation is defined by the one-of-a-kind buildings—including fortresses, palaces, sacred sites, monuments, skyscrapers and cultural hotspots—that makes each one unique. See how well you really know these cities as they are depicted through the silhouettes of their most noteworthy buildings.

50 Cities of the U.S.A. Lonely Planet

A globe-trotting, eye-opening exploration of how cities can—and do—make us happier people Charles Montgomery's *Happy City* will revolutionize the way we think about urban life. After decades of unchecked sprawl, more people than ever are moving back to the city. Dense urban living has been prescribed as a panacea for the environmental and resource crises of our time. But is it better or worse for our happiness? Are subways, sidewalks, and tower dwelling an improvement on the car-dependence of sprawl? The award-winning journalist Charles Montgomery finds answers to such questions at the intersection between urban design and the emerging science of happiness, and during an exhilarating journey through some of the world's most dynamic cities. He meets the visionary mayor who introduced a "sexy" lipstick-red bus to ease status anxiety in Bogotá; the architect who brought the lessons of medieval Tuscan hill towns to modern-day New York City; the activist who turned Paris's urban freeways into beaches; and an army of American suburbanites who have transformed their lives by hacking the design of their streets and neighborhoods. Full of rich historical detail and new insights from psychologists and Montgomery's own urban experiments, *Happy City* is an essential tool for understanding and improving our own communities. The message is as surprising as it is hopeful: by retrofitting our cities for happiness, we can tackle the urgent challenges of our age. The happy city, the green city, and the low-carbon city are the same place, and we can all help build it.

'Full of heart.' Michael Harris, author of *Solitude* Being alone isn't something to endure - it's something to relish. _____ The average adult spends about a third of his or her waking time alone. Yet research suggests we aren't very good at using, never mind enjoying, alone time. Rising to the challenge, travel writer Stephanie Rosenbloom explores the joys and benefits of being alone in four mouth-watering journeys to the cities of Paris, Istanbul, Florence and New York, in four seasons. This is a book about the pleasures and benefits of savouring the moment, examining things closely, using all your senses to take in your surroundings, whether travelling to faraway places or walking the streets of your own city. Through on-the-ground observations and anecdotes, and drawing on the thinking of artists, writers and innovators who have cherished solitude, *Alone Time* illuminates the psychological arguments for alone time and lays bare the magic of going solo.

Skylines Columbia University Press

Refusing to cast gangs in solely criminal terms, Robert J. Durán, a former gang member turned

scholar, recasts such groups as an adaptation to the racial oppression of colonization in the American Southwest. Developing a paradigm rooted in ethnographic research and almost two decades of direct experience with gangs, Durán completes the first-ever study to follow so many marginalized groups so intensely for so long, revealing their core characteristics, behavior, and activities within two unlikely American cities. Durán spent five years in Denver, Colorado, and Ogden, Utah, conducting 145 interviews with gang members, law enforcement officers, prosecutors, and other relevant individuals. From his research, he constructs a comparative outline of the emergence and criminalization of Latino youth groups, the ideals and worlds they create, and the reasons for their persistence. He also underscores the failures of violent gang suppression tactics, which have only further entrenched these groups within the barrio. Encouraging cultural activists and current and former gang members to pursue grassroots empowerment, Durán proposes new solutions to racial oppression that challenge and truly alter the conditions of gang life.

****Winner, Phillip D. Reed Award for Outstanding Writing on the Southern Environment** **A**

Planetizen Top Planning Book for 2017** After decades of sprawl, many American city and suburban residents struggle with issues related to traffic (and its accompanying challenges for our health and productivity), divided neighborhoods, and a non-walkable life. Urban designer Ryan Gravel makes a case for how we can change this. Cities have the capacity to create a healthier, more satisfying way of life by remodeling and augmenting their infrastructure in ways that connect neighborhoods and communities. Gravel came up with a way to do just that in his hometown with the Atlanta Beltline project. It connects 40 diverse Atlanta neighborhoods to city schools, shopping districts, and public parks, and has already seen a huge payoff in real estate development and local business revenue. Similar projects are in the works around the country, from the Los Angeles River Revitalization and the Buffalo Bayou in Houston to the Midtown Greenway in Minneapolis and the Underline in Miami. In *Where We Want to Live*, Gravel presents an exciting blueprint for revitalizing cities to make them places where we truly want to live.

In the Shadow of the Cities Jason Aronson

Here is a collection of the best work of Jan Morris, considered by many the preeminent travel writer of our age. Reviewing her most recent book, *The Matter of Wales*, the *Christian Science Monitor* wrote, "With this book, Morris joins the immortals. The splendors of the prose are like Homer's sea, simply everywhere. She is an absolute master of the sentence." Included are 37 separate pieces drawn from earlier books that span Morris's entire career as well as pieces originally written for this book. Whether taking us back to Berlin and Beirut of the 1950's or to Houston and Sydney of the 1980s, Morris depicts each place with elegance, passion and wit. She captures and conveys its complex personality and makes us see the familiar in a new light or introduces us to places off the beaten track, taking us around the globe from Sri Lanka and Cashmir to Trouville and Cozco to Wyoming and Bath.

The images are sure to inspire dreams of escape, and the 40 pages of insider resources—from favorite hotels and restaurants to secret shopping sources and must-see monuments—will make planning future trips reassuring and easy.

Invisible Cities Lonely Planet

Slow Cities: Conquering Our Speed Addiction for Health and Sustainability demonstrates, counterintuitively, that reducing the speed of travel within cities saves time for residents and creates more sustainable, liveable, prosperous and healthy environments. This book examines the ways individuals and societies became dependent on transport modes that required investment in speed. Using research from multiple disciplinary perspectives, the book demonstrates ways in which human, economic and environmental health are improved with a slowing of city transport. It identifies effective methods, strategies and policies for decreasing the speed of motorised traffic and encouraging a modal shift to walking, cycling and public transport. This book also offers a holistic assessment of the impact of speed on daily behaviours and life choices, and shows how a move to slow down will - perhaps surprisingly - increase accessibility to the city services and activities that support healthy, sustainable lives and cities. - Includes cases from cities in North and South America, Europe, Asia, Africa and Australasia - Uses evidence-based research to support arguments about the benefits of slowing city transport - Adopts a broad view of health, including the health of individuals, neighbourhoods and communities as well as economic health and environmental health - Includes text boxes, diagrams and photos illustrating the slowing of transport in cities throughout the world, and a list of references including both academic sources and valuable websites

The Ultimate Book of Cities Random House

Among the Cities Universe Publishing(NY)

A highly-illustrated, pocket-sized guide to understanding the forces that have shaped the world's cities from the dawn of civilisation to the present day. The fortunes of towns and cities rise and fall along with the fate of the civilisations to which they belong. Some are lost entirely, now no more than ruins; others have thrived as urban centres for millennia; and all contain vital clues embedded in their streets and skylines which reveal why their inhabitants grouped together, and tell of their unique social, political and cultural histories. Packed with plans, maps, and drawings, this book takes you on an international journey of discovery to explore the history of cities from our earliest urban origins to the contemporary world city - from Babylon to Beijing, London to Paris, and from the skyscrapers of New York to the streets of their own home town. A must-read for anyone interested in history, cities, and travel, this fascinating book turns you into an urban detective to see how our towns and cities grew the way they are.

Cities Around the World Chartwell Books

In spite of the enormous differences between these 100 towns and cities, they all have one thing in common. Each of them bears the indelible character of its people and their history. It is the combination of magnificent architecture created by former rulers, the temples and church towers together with the narrow alleys of the old city centres, and the colorful life along their grand avenues that imparts the special atmosphere that make these places a magnet for those who admire culture and beauty.

World's Greatest Cities UNM Press

Presents scenes and impressions of eighteen of the world's great cities, exhibiting the diverse ways in which their inhabitants live, work, travel, and have fun.

How Cities Work Black Dog & Leventhal

In this delightful series written by BabyLit author Jennifer Adams and illustrated by kidlit darling Greg Pizzoli, each book showcases a different city with sweet baby-appropriate text, ridiculously charming illustrations, and a light introduction to rhyme and opposites. High-chair travelers can explore the City by the Bay: cruise along the majestic Golden Gate Bridge, play with the sea lions at Pier 39, ride cable cars up steep hills, and have a picnic in lovely San Francisco. Plus, this is the fixed format version, which looks almost identical to the print edition.

The Cities Book National Geographic Books

World's Greatest Cities is an illuminating visual guide to 30 incredible cities around the globe—with annotated 3-D reconstructions and cutaway models that allow you to journey right to the soul of each of them. For thousands of years, cities built by humans have reflected their beliefs, their power, their needs, and their desires. Palaces and prisons, churches and mosques, skyscrapers and suspension bridges are the tracks that history, sometimes glorious, often violent, imprints on these cities. But these cities are also the men and women who inhabit them and who stamp a unique character onto each of them. The spirit of each city is also etched in the daily coming and going of the streets, the hustle and bustle of the markets, and in the unhurried discussions of the cafés. Explore the cities of the world today that leave a lasting impression on those who visit them. These cities offer rich architectural heritage and spectacular natural environments. But above all, they have a vitality that makes them unique. They are cities that know how to grow, transform, and reinvent themselves without losing their essence. Feel the heartbeat of the most vibrant and exciting cities around the globe. Skyscrapers, alongside ancient marvels, are beautifully illustrated and perfectly complement the engaging text that describes the creation and history of these celebrated destinations. Cities dissected are Paris, San Francisco, New York; City, Toronto, Mexico City, Buenos Aires, Rio de Janeiro, London, Barcelona, Rome, Venice, Vienna, Stockholm, Amsterdam, Brussels, Berlin, Prague, Athens, Moscow, Istanbul, Jerusalem, Dubai, Sydney, Auckland, Cairo, Johannesburg, Mumbai, Beijing, Seoul, Tokyo and all of their landmark sites.

Travel Berghahn Books

Delve into the social and cultural history of 100 of the world's most important cities. From the first towns in Mesopotamia to today's global metropolises, cities have marked the progress of civilization. Written in the form of illustrated "biographies", Great Cities offers a rich historical overview of each featured city, brought to vivid life with paintings, photographs, timelines, maps, and artefacts. The latest title in the series style of Artists, Writers, Philosophers, and Composers, this lavish ebook goes under the skin of cities both ancient and modern - from Persepolis and Tikal, Paris and Vienna to Prague, Amsterdam, Tokyo, and Dubai. Which ancient civilization founded the precursor to Mexico City? Why was Venice the gateway to the East? What was the Belle Epoque? Which was the first city to build sewers? Great Cities takes you there, and tells you all this and more. Stunning images of city life and key moments in history are complemented by close-ups of revealing details and feature panels that provide additional context. An ebook not just about history but also about art, architecture, commerce, and politics, Great Cities provides a fascinating insight into what has shaped the places where we live. Perfect for history, geography, and arts enthusiasts and a stunning gift for armchair explorers of all ages, it is your window into the world's most fascinating cities.

The Great Jewish Cities of Central and Eastern Europe The Cities Book

In this delightful series written by BabyLit author Jennifer Adams and illustrated by kidlit darling Greg Pizzoli, each book showcases a different city with lighthearted baby-appropriate text and ridiculously charming illustrations. Cross the pond and explore the city on the Thames: feed the pigeons in Trafalgar Square, watch the changing of the guard at Buckingham Palace, marvel at the spinning lights of the London Eye, and say good night to London's landmark skyline.
