This New York Times Book Review Editors' Choice, is "hilarious . . . a riotous success. Equal parts campus novel, buddy comedy and meditation on art-making under late capitalism, the novel is a hugely funny portrait of an egomaniac and his nebbish best friend" (The Washington Post). It's the end of summer 2003. George W. Bush has recently declared the mission in Iraq accomplished, the unemployment rate is at its highest in years, and Martha Stewart has just been indicted for insider trading. Meanwhile, somewhere in the Midwest, Troy Augustus Loudermilk (fair-haired, statuesque, charismatic) and his companion Harry Rego (definitely none of those things) step out of a silver Land Cruiser and onto the campus of The Seminars, America's most prestigious creative writing program, to which Loudermilk has recently been accepted for his excellence in poetry. Loudermilk, however, has never written a poem in his life. Wickedly entertaining, beguiling, layered, and sly, Loudermilk is a social novel for our time: a comedy of errors that deftly examines class, gender, and inheritance, and subverts our pieties about literature, authorship, art making, and the institutions that sustain them.

Find out how to protect yourself from the number one crime in the U.S. Former con-man-turned-FBI-consultant Frank Abagnale, whose life was the basis for the Steven Spielberg movie "Catch Me If You Can," is the premiere authority on identity theft. In this guide, he reveals everything you need to know to avoid becoming a victim yourself. "In addition to excellent, up-to-date advice about the newest identity scams and how to avoid them, Frank Abagnale (played by Leonardo DiCaprio in the movie) offers up choice tidbits from his life story, which demonstrate how easy it is to take advantage of unsuspecting victims. No one knows better than Abagnale just how prevalent identity theft has become. Among the facts he has uncovered, perhaps the most alarming is this: 49% of all victims have no idea how their identity was stolen, and they "never find out." The guide does answer many key questions, however, including: -How to protect your personal information at the office, at home, and online -How to decipher your credit report -How to find out if this crime has "already" happened to you -How and why identity thieves get away with it Although the facts are chilling, the *Real U Guide to Identity Theft* "is anything but cold. In typical *Real U* style, Abagnale takes a wry look at the truth and spells out the facts in colorful, magazine-style spreads, so that learning how to protect yourself from this crime is almost as much fun as catching one of the criminals would be.
