Soulcraft and Statecraft in Renaissance Italy Yale University Press

Although Abu Hamid Muhammad al-Ghazali lived a relatively short life (1058-1111), he established himself as one of the most important thinkers in the history of Islam. The Incoherence of the Philosophers, written after more than a decade of travel and ascetic contemplation, contends that while such Muslim philosophers as Avicenna boasted of unassailable arguments on matters of theology and metaphysics, they could not deliver on their claims; moreover, many of their assertions represented disguised heresy and unbelief. Despite its attempted refutation by the twelfth-century philosopher Ibn Rushd, al-Ghazali's work remains widely read and influential.

Humanism and Professions in Renaissance Italy Red Wheel/Weiser

This important study takes a new approach to understanding Italian Renaissance humanism, one of the most important cultural movements in Western history. Through a series of close textual studies, Patrick Baker explores the meaning that Italian Renaissance humanism had for an essential but neglected group: the humanists themselves.

Culture and Society in Italy Oxford University Press, USA

The Santa Maria di Firenze, the venerable Benedictine abbey located in the heart of Florence, is the subject of this book.

Leader's richly illustrated, interdisciplinary study examines the abbey's history during the Renaissance.

Humanist Narratives of the Sack of Rome Twelve

"The Renaissance" (1300–1500) provides an overview of the years from the Late Middle Ages through the Renaissance.

Special emphasis is given to the natural and political disasters that ravaged 14th-century Europe, as well as the unprecedented intellectual, cultural, and artistic flourishing of the 15th and 16th centuries. The Black Death, The Hundred Years' War, the

invention of the printing press, the birth of humanism, and the life of Leonardo da Vinci are among the dramatic events vividly documented in this richly illustrated text. Challenging map exercises and provocative review questions encourage meaningful reflection and historical analysis. Tests and answer keys are included.

Italian Renaissance Art Cambridge University Press

In this book, Douglas Biow traces the role that humanists played in the development of professions and professionalism in Renaissance Italy, and vice versa. For instance, humanists were initially quite hostile to medicine, viewing it as poorly adapted to their program of study. They much preferred the secretarial profession, which they made their own throughout the Renaissance and eventually defined in treatises in the late sixteenth and early seventeenth centuries. Examining a wide range of treatises, poems, and other works that humanists wrote both as and about doctors, ambassadors, and secretaries, Biow shows how interactions with these professions forced humanists to make their studies relevant to their own times, uniting theory and practice in a way that strengthened humanism. His detailed analyses of writings by familiar and lesser-known figures, from Petrarch, Machiavelli, and Tasso to Maggi, Fracastoro, and Barbaro, will especially interest students of Renaissance Italy, but also anyone concerned with the rise of professionalism during the early modern period.

A.D. 1300-1500 Princeton, N.J. : Princeton University Press

Organized chronologically from early Renaissance precursors to the Mannerist movement, from Giotto to Titian, *Key Monuments of the Italian Renaissance* describes and analyzes in depth from

various points of view major works and major artists, from the fourteenth to the sixteenth centuries. Artists included are Cimabue, Duccio, Giotto, Lorenzetti, Ghiberti, Brunelleschi, Donatello, Massaccio, Gentile da Fabriano, Uccello, Rossellino, Castagno, Piero della Francesca, Alberti, Botticelli, G. Bellini, Verrocchio, Mantegna, G. Sangallo, Leonardo, Michelangelo, Bramante, Raphael, Giorgione, and Titian. The Florentine Renaissance, the High Renaissance in Florence and Rome, and High Renaissance Painting in Venice are covered. Includes a glossary, a bibliography of works cited, and suggested readings.

The Book of the Courtier BRILL

This important and innovative book examines artists' mobility as a critical aspect of Italian Renaissance art. It is well known that many eminent artists such as Cimabue, Giotto, Donatello, Lotto, Michelangelo, Raphael, and Titian traveled. This book is the first to consider the sixteenth-century literary descriptions of their journeys in relation to the larger Renaissance discourse concerning mobility, geography, the act of creation, and selfhood. David Young Kim carefully explores relevant themes in Giorgio Vasari's monumental *Lives of the Artists*, in particular how style was understood to register an artist's encounter with place. Through new readings of critical ideas, long-standing regional prejudices, and entire biographies, *The Traveling Artist in the Italian Renaissance* provides a groundbreaking case for the significance of mobility in the interpretation of art and the wider discipline of art history.

The Story of the World Cornell University Press

David Hotchkiss Price, a specialist in Renaissance cultural and ecclesiastical history, has broken new ground with this comprehensive analysis of Renaissance humanism as the foundation for Drer's religious art and, in particular, for Drer's reception of the Reformation movements. Price also offers an innovative study of the relationships between text and image, and a pioneering assessment of the representation of Jews in Drer's religious art. David Price is Associate Professor of History

and of Church History, Southern Methodist University.

□The Renaissance" provides an overview of the unprecedented intellectual, cultural, and artistic flourishing from the 1300s to the 1500s. The invention of the printing press, the birth of humanism, and the life of Leonardo da Vinci are among the dramatic events vividly documented in this richly illustrated text. Challenging review questions encourage meaningful reflection and historical analysis. A unit test and answer key are included.

Remembering the Renaissance The Renaissance (eBook)

Shopping was as important in the Renaissance as it is in the 21st century. This book breaks new ground in the area of Renaissance material culture, focussing on the marketplace in its various aspects, ranging from middle-class to courtly consumption and from the provision of foodstuffs to the acquisition of antiquities and holy relics. It asks how men and women of different social classes went out into the streets, squares and shops to buy the goods they needed and wanted on a daily or on a once-in-a-lifetime basis during the Renaissance period. Drawing on a detailed mixture of archival, literary and visual sources, she exposes the fears, anxieties and social possibilities of the Renaissance marketplace. Thereafter, Welch looks at the impact these attitudes had on the developing urban spaces of Renaissance cities, before turning to more transient forms of sales such as fairs, auctions and lotteries. In the third section, she examines the consumers themselves, asking how the mental, verbal and visual images of the market shaped the business of buying and selling. Finally, the book explores two seemingly very different types of commodities - antiquities and indulgences, both

of which posed dramatic challenges to contemporary notions of market value and to the concept of commodification itself.

6 Practice Tests + Content Review + Strategies Variorum Publishing

This study, drawing extensively upon manuscript sources, provides the first comprehensive account of how Rome's humanist community coped with the 1527 sack of the city, an event traditionally viewed as signaling the transition from the Renaissance to the Catholic Reformation.

Holiday House

At the beginning of the fifteenth century, painters and sculptors were seldom regarded as more than artisans and craftsmen, but within little more than a hundred years they had risen to the status of "artist." This book explores how early Renaissance artists gained recognition for the intellectual foundations of their activities and achieved artistic autonomy from enlightened patrons. A leading authority on Renaissance art, Francis Ames-Lewis traces the ways in which the social and intellectual concerns of painters and sculptors brought about the acceptance of their work as a liberal art, alongside other arts like poetry. He charts the development of the idea of the artist as a creative genius with a distinct identity and individuality. Ames-Lewis examines the various ways that Renaissance artists like Mantegna, Leonardo da Vinci, Raphael, and Dürer, as well as many other less well known painters and sculptors, pressed for intellectual independence. By writing treatises, biographies, poetry, and other literary works, by seeking contacts with humanists and literary men, and by investigating the arts of the classical past, Renaissance artists honed their social graces and

broadened their intellectual horizons. They also experienced a growing creative confidence and self-awareness that was expressed in novel self-portraits, works created solely to demonstrate pictorial skills, and monuments to commemorate themselves after death.

Art and Observance in a Renaissance Monastery University of Michigan Press

"Renaissance Narrative in Literature and Visual Art shows that perspective only gradually came to dominate the western imagination and to become the default assumption for portrayal in the visual arts. The habit of an older, multipoint perspective long continued, accounting for 'anachronism', discontinuous realism, 'double time-schemes', and presentation of different moments as simultaneous - phenomena closely paralleled in narrative. In this history of the narrative imagination after single-point perspective, Alastair Fowler illuminates significant correlations between the depiction of objects and events in literature and art."--BOOK JACKET.

The Renaissance (eBook) Milliken Publishing Company
Learning about art through the ages has never been as

interesting or fun as in this humorous and very informative graphic novel. As two kids give their grandpa a tour of Paris, he starts an interesting conversation with them--about where all the art they see in their lives--from the movie house to the stadiums to museums and even the subway-- started. Dad's impromptu history lesson goes back to the first Cavemen drawings to the pyramids of Giza, and by the end of the book includes Greco-Roman feats of ingenuity and the frescoes of the Renaissance. Recounted as a narrative about why different civilizations created different kinds of art, centuries of art history are explored entertainingly for young readers. Iconic works, such as Donatello's David and The Book of Kells, are included as well as architectural feats like the Colosseum. Written by a tour guide for museums and historic landmarks, the text is designed to entertain (with many funny asides and jokes) as it informs. The illustrations accurately portray the art and the artists described, with flavor and humor added to keep readers turning the page. Reproductions of the featured artworks and information about each piece are included in the back, along with a glossary of terms.
