Secoli di storia ci hanno insegnato che lo sviluppo dell'economia non procede mai in modo continuo e regolare, ma a scatti e spasmi. E, nella stagione dell'incertezza, la risorsa primaria di cui disponiamo è la conoscenza. Come si legge Il Sole 24 ORE parte dai fatti quotidiani - il costo della vita e il costo del denaro, i Bot, le tasse, le azioni e così via - e spiega i meccanismi delle tante transazioni che ognuno di noi prima o poi si trova ad affrontare. Giornalisti e collaboratori del Sole 24 ORE si alternano nei diversi campi dell'economia e della finanza - bilanci delle società, governance, protezione del risparmio, mercati azionari, obbligazioni, valute e Borse merci - e illustrano le rubriche e le tabelle che il lettore ritroverà sulle pagine di uno dei quotidiani economico-finanziari più venduti in Europa.

The US-Soviet arms race, told through the story of a colorful and visionary American Air Force officer—melding biography, history, world affairs, and science to transport the reader back and forth from individual drama to world stage. "Compulsively readable and important." —The New York Times Book Review In this never-before-told story, Neil Sheehan—winner of the Pulitzer Prize and the National Book Award -- details American Air Force officer Bernard Schriever's quest to prevent the Soviet Union from acquiring nuclear superiority, and describes American efforts to develop the unstoppable nuclear-weapon delivery system, the intercontinental ballistic missile, the first weapons meant to deter an atomic holocaust rather than to be fired in anger. In a sweeping narrative, Sheehan brings to life a huge cast of some of the most intriguing characters of the cold war, including the brilliant physicist John Von Neumann, and the hawkish Air Force general, Curtis LeMay.

In August 2002 the National Council of the Resistance in Iran (NCRI) revealed in Washington to a stunned world how advanced Iran's nuclear programme was. And in September 2009 US President Barack Obama exposed yet another clandestine nuclear site there, bringing the possibility of a nuclear arsenal ever closer. For seven fruitless years the international community has been too divided to counter this threat. Russia and China view Iran as a tool to counter US influence. US efforts to engage Iran have yielded no results. Sunni Arab governments fear Iran, but are powerless to keep it in check. And Israel, fearing that the bomb will be used against them, might decide on a pre-emptive strike, with drastic consequences for the region. Preventing Iran from

building a nuclear arsenal is a European priority. But the EU is Iran's biggest commercial partner: Europe's strategic and economic interests collide. Iran: the Looming Crisis is a new and completely revised edition of Emanuele Ottolenghi's well-received Under a Mushroom Cloud (2009). Fully updated to take account of the current diplomatic stalemate, the latest developments in Iran's nuclear and ballistic missile programmes, Obama's diplomatic overtures, the re-election of President Ahmadinejad, and mounting protest within Iran against oppression, this uncompromising analysis offers a compelling answer to the dilemmas facing the West.
