Shree loves learning new things on the computer. It has games and it has social media sites! She is thrilled to make a new friend on one such site. But is this friend lying to her? Find out for yourself in this cyber thriller. Gives children an exciting story and cyber safety all at the same time.

*The Night the Ghost Got in* Creative Company

»The Adventure of the Dying Detective« is a short story by Arthur Conan Doyle, about the brilliant Victorian detective Sherlock Holmes. It was first published in 1913. SIR ARTHUR CONAN DOYLE [1859-1930], was a Scottish physician and author, best known for his stories about the groundbreaking master detective Sherlock Holmes. Doyle wrote a total of 56 short stories and four novels about Sherlock Holmes and his constant companion Dr. Watson.

*Multiplying Fractions* S. Chand Publishing  
Grade Level: 3-6 CCSS Level: 4-6 Making fractions make sense! This 23-lesson learning unit is packed with hundreds of sequential fraction activities featuring both computation and word problems. As the third book in a series – following Adding Fractions and Subtracting

Fractions – these exercises are designed to build upon what students have already learned. From “writing reciprocals of fractions, whole numbers, and mixed numbers,” to “multiplying a proper fraction by a proper fraction,” and on to “using a banana bread recipe to multiply fractions,” the activities in this book progress from learning basic concepts to mastering an understanding of how to multiply fractions. A Post Test and Answer Key are included.

*A Nice Cup of Tea* Burns & Oates  
Denis De Beaulieu, a French soldier, is made a prisoner by the Sire of De Maletroit, who believes that the soldier has compromised the Maletroit family honor.

The peerless young Kovalan leaves his loyal wife Kannaki for the courtesan Madhavi, and though he returns to her, he still meets his death because of her ill-omened ankle bracelet. The Shilappadikaram has been called an epic and even a novel, but it is also a book of general education. Adigal packed his story with information: history merging into myth, religious rites, caste customs, military lore, descriptions of city and country life. And four Cantos are little anthologies of the poetry of the period (seashore and mountain songs, hunters and milkmaid s song). Thus the story gives us a vivid picture of early Indian life in all its aspects.

How to Prepare for Quantitative Aptitude for the CAT. Penguin Random House

India Private Limited  
Learning Mathematics - Class 7 has been written by Prof. M.L. Aggarwal in accordance with the latest syllabus of the NCERT and Guidelines issued by the CBSE on Comprehensive and Continuous Evaluation (CCE). The subject matter has been explained in a simple language and includes many examples from real life situations. Questions in the form of Fill in the Blanks, True/False statements and Multiple Choice Questions have been given under the heading 'Mental Maths'. Some Value Based Questions have also been included to impart values among students. In addition to normal questions, some Higher Order Thinking Skills (HOTS) questions have been given to enhance the analytical thinking of the students. Each chapter is followed by a

Summary which recapitulates the new terms, concepts and results.

*Tirukkura!* Penguin UK

This edition of a popular Tamil Classic was undertaken mainly with a view of assisting foreigners to acquire some acquaintance with classical Tamil. It is also intended to be a companion volume to the Tamil Classic: the Kural. This book was first published in 1893.

Solubility Data Series, Volume 2:

Krypton, Xenon, and Radon – Gas

Solubilities is a three-chapter text that

presents the solubility data of various forms of the title compounds in different substrates. This series emerged from the fundamental trend of the Solubility Data Project, which is toward integration of secondary and tertiary services to produce in-depth critical analysis and evaluation. Each chapter deals with the experimental solubility data of the noble gases in several substrates, including water, salt solutions, organic compounds, and biological fluids. This book will prove useful to chemists, researchers, and students.

*A Childhood In Malabar* Simon & Schuster Children's

This book collection of 45 chapters draws on the diverse insights of the Post Covid-19 challenges and opportunities to look ahead and across a broad range of

issues – education, trade, governance, health, labour, technology to name a few – and consider where the balance of risk and opportunity may come out. It offers decision-makers a comprehensive picture of expected long term changes, and inspiration to leverage the opportunities this crisis offers to improve the state of the world. Academicians must find and establish a new equilibrium and a new normal for learning amidst the present challenges.

A Study of Number Forschung  
Publications

Whoo-whooo-whoooo cried the wind as it swept down from the Himalayan snows  
The menacing wind rattled windows,

choked chimneys and blew away clothes as it loomed over the little village next to Haunted Hill, where Usha, Suresh and Binya lived. It was even more ominous the day Usha was on her way back from the bazaar. A deep rumble echoed and a sudden flash of lightning lit up the hill as heavy pellets of rain came down in quick succession. Usha was forced to take shelter in the ruins of Haunted Hill that stood before her, grim and forbidding. As the tin sheet above groaned and clattered and streaks of lightning lit up the walls, Usha saw two small figures crouching in the disused fireplace. Then everything was dark again . . . A gritty, hair-raising story about friendship, courage and survival from India's favourite teller of tales, this stunning edition is an absolute must-have to

introduce young readers to the magic of Ruskin Bond's craft.

**Manimekalai** Independently Published Learning Mathematics - Class 8 has been written by Prof. M.L. Aggarwal in accordance with the latest syllabus of the NCERT and Guidelines issued by the CBSE on Comprehensive and Continuous Evaluation (CCE). The subject matter has been explained in a simple language and includes many examples from real life situations.
