In this  
dramatic  
memoir of  
early-  
twentieth  
century  
immigration,  
author Li Keng  
Wong shares  
her family's  
difficult  
journey from  
rural China to  
a new life in

California. In  
1933, seven-  
year-old Li  
Keng's life  
changed  
forever when  
her father  
decided to  
bring his  
family from a  
small village  
in southern  
China to  
California.

Getting to America was not easy, as their family faced America's strict anti-Chinese immigration laws that meant any misstep could mean deportation and disgrace. Life in America during the Great Depression brought many exciting surprises as well as many challenges. Hunger, poverty, police raids, frequent moves, and the occasional sting of racism

were a part of everyday life, but slowly Li Keng and her family found stability and a true home in "Gold Mountain." An author's note contains photos and an update on Li Keng Wong's family. This evocative memoir presents the joys and sorrows of pursuing the American Dream during a time of racism and great poverty, but also immense opportunity. The book also contains information on

Angel Island and its significance in history as well as an explanation of the Chinese Exclusion Act. *The Mountain of Gold* Mystery Cameron Books An epic graphic novel about the experience of Chinese immigrants in North America over the past 150 years. *Ghosts of Gold Mountain* Vintage A groundbreaking, breathtaking history of the Chinese workers who

built the Transcontinental Railroad, helping to forge modern America only to disappear into the shadows of history until now.

Drawing on

the real

background of

the Chinese role in the gold rush, the building of the railway and the settling of the west coast in the nineteenth century, noted historian and children's author Paul Yee has created eight original stories that combine the rough-and-tumble adventure of frontier life with the rich folk traditions that these immigrants brought from China. These tales are funny, sad, romantic and earthy, but ultimately, as

a collection, they reflect the gritty optimism of the Chinese who overcame prejudice and adversity to build a unique place for themselves in North America.

Out of the stories heard in her childhood in Los Angeles's Chinatown and years of research, See has constructed this sweeping chronicle of her Chinese-

American family, a work that takes in stories of racism and romance, entrepreneurial genius and domestic heartache, secret marriages and sibling rivalries, in a powerful history of two cultures meeting in a new world. 82 photos.

A deranged mother, a

wayward father, a horde of gold, a naïve young man, and a mysterious but beautiful Lady. . . .

These are the ingredients of a coming-of-age tale in which our hero grapples with the elements, his sense of morality, and the Devil himself, and eventually finds salvation at the hands of an entirely selfless but sibylline Lady in Green. The Mountain of Gold addresses themes of love, doubt,

avarice, and the liberating and redemptive powers of self-sacrifice.

Routledge  
 “Swashbuckling suspense, royal intrigue, and high seas naval action” abound in this saga of a Royal Navy captain’s search for treasure in Africa (Publishers Weekly).  
 1663: Captain Matthew Quinton is thrilled to capture a corsair from under the nose of

menacing Maltese Knight Montnoir. But his triumph is short lived. The “pirate” is in fact the infamous Irish adventurer O’Dwyer, who comes with talk of a vast West African gold mine . . . Ordered by the avaricious King Charles to accompany O’Dwyer to Africa and unearth the gold, Quinton sets sail for the Gambia. Dogged by misfortune, with sabotage and murder darkening the mission, Quinton discovers

Montnoir is on his trail. The race for gold will put everything at risk . . . Can Quinton emerge in one piece? The Mountain of Gold is the second novel in the thrilling Matthew Quinton Journals naval adventure series. Praise for the writing of J.D. Davies: “Hornblower, Aubrey and Quinton—a pantheon of the best adventures at sea!” —Conn Iggulden, #1 New York Times–bestselling author of The Conqueror

and War of the Roses series “A hero worth rooting for.”

—Publishers Weekly “Utterly impossible to put down . . . Finely-shaded characters, excellent plotting, gut-clenching action and immaculate attention to period detail . . . Superb.”

—Angus Donald, author of The Outlaw Chronicles series “Destined to be a classic of nautical adventure series.” —Eric Jay Dolin,

author of Leviathan and Fur, Fortune, and Empire “A naval adventure that goes well beyond the usual outlines of the genre to paint a lively portrait of England in the 1600s.”

—Kirkus Reviews Litres Mining extracts a surplus to link the State with the international market, and therefore the State has not been an objective arbiter of conflicting claims. Faced with a debt

crisis, the State has favored mining investors, condoning the plunder of the island's natural resources for gold and copper. The hegemony of this dominant ideology of private accumulation has cast indigenous peoples in the role of subversives. Indigenous landowners have had to struggle for social justice and equity, at times even taking up arms against mining

projects to protect their culture and their ancestral homeland. *Annual Reports of the Mountain Gold and Silver Mining Company* Holiday House

 There's Gold on Top of That Mountain will take the reader on a journey of self discovery. Nelson Brown gets to the real root of what keeps people from living their best life. "It's not what goes on around us, it's what's going on

within us" that keeps us from having what we truly desire from life. It happens to all of us. This book was written to inspire people to realize they can still accomplish whatever is in their heart. It takes recognizing success does not come without challenges and obstacles, but having the courage to continue despite those struggles. *Good Fortune* SUNY Press  
 The ancestral rain forests for

the Wopkaimin people have long been a sacred geography, a place that has allowed them to act out the obligations of the male cult system and social relations of production based on kinship. Based on fieldwork spanning more than a decade, David Hyndmans book traces the extraordinary socioecologica l transformation of a traditional society confronting modern

technological risk. There's Gold on Top of That Mountain The Mountain of Gold The greed to accumulate untold wealth has driven men in search of rare precious metals in all the mountain ranges of the world. They have scraped at the river beds and streams, dug shafts and caves into the lofty peaks and deep in the bellies of the rocky giants. They have lied, cheated, stole, killed and

many died just for a glimpse of the sparkle that could lead to the treasure of the mother lode. The Hudson Valley and surrounding mountain ranges have not been immune to this lust for riches: the search for gold and silver. The Mountain Region of this valley has not been ravaged by any extensive search, but the drive to grasp instant wealth, power and fame from the ground

and to get "something for nothing" has not left it untouched. In the beginning the Native Americans were in awe of these mountains. For it is in these mountains where Manitou, the Great Spirit, lived and perhaps still does. If these indigenous peoples did come across any precious metals, chances are they would have left them largely untouched, for everything in the mountains

belonged to the Great Spirit! Stories of a Lost Gold Mine in the Hudson River Valley has dwindled into obscurity. While sitting around a campfire at Dylan Keenig's 13th birthday party, the stories have returned. The Sacandaga Treasure Hunters Club is formed. Local Indian Legend tells when Manitou calls upon the Spirits of the Bear and Panther to meet, the Mountain will give up its secrets one

last time. Can Dylan Keenig and the rest of the Sacandaga Treasure Hunters find and piece together enough clues to find the Lost Gold Mine of the Hudson Valley before it is lost forever?

When she was a girl, Lisa See spent summers in the cool, dark recesses of her family's antiques store in Los Angeles' Chinatown. There, her grandmother and great-aunt told her intriguing, colourful stories about their family's past - stories of missionaries, concubines, tong wars, glamorous nightclubs,

and the determined struggle to triumph over racist laws and discrimination. They spoke of how Lisa's great-great-grandfather emigrated from his Chinese village to the United States, and how his son followed him. As an adult, See spent five years collecting the details of her family's remarkable history. She interviewed nearly one hundred relatives and pored over

documents at the National Archives, the immigration office, and in countless attics, basements, and closets for the intimate nuances of her ancestors' lives. The result is a vivid, sweeping family portrait that is at once particular and universal, telling the story not only of one family, but of the Chinese people in America - and of America itself, a country that both

welcomes and  
reviles its  
immigrants  
like no other  
culture in the  
world.
