The Divided Laing Routledge

Before he became a counterculture hero, Alan Watts was known as an incisive scholar of Eastern and Western psychology and philosophy. In this 1961 classic, Watts demonstrates his deep understanding of both Western psychotherapy and the Eastern spiritual philosophies of Buddhism, Taoism, Vedanta, and Yoga. He examined the problem of humans in a seemingly hostile universe in ways that questioned the social norms and illusions that bind and constrict modern humans. Marking a groundbreaking synthesis, Watts asserted that the powerful insights of Freud and Jung, which had, indeed, brought psychiatry close to the edge of liberation, could, if melded with the hitherto secret wisdom of the Eastern traditions, free people from their battles with the self. When psychotherapy merely helps us adjust to social norms, Watts argued, it falls short of true liberation, while Eastern philosophy seeks our natural relation to the cosmos.

In "Archaeology of Personalities," the author tries to fill the gap of a philosophical interpretation of erotic rope bondage. Starting from the vague perspective of bondage as some kind of communication, the study develops step by step a broad basis for an understanding of the power structures with a specific communication discourse. By deconstructing the contexts it ends up at erotic rope bondage being described through the metaphor of an interview. This image not only helps understanding existing ways of practicing erotic rope bondage but it enables to use erotic rope bondage itself as a tool for exploring each others personalities. The book also contains some personal approaches of Georg Barkas to the world of erotic rope bondage. He himself dedicated his life to Kinbaku, to practice it, to teach it and to celebrate it as something that is at once eroticism, art, engineering, and impactful human interaction. Georg Barkas holds a master's degree in mathematical physics, and pursued a PhD in history and philosophy of science in Vienna and Berlin. His research was and is strongly influenced by the French poststructuralist movement. In 2014, Barkas quit academia to become a professional rope bondage artist and educator. Here he applies his academic history and curiosity to rope bondage.

Originally published in 1970, Knots consists of a series of dialogue-scenarios that can be read as poems or brief plays, each complete in itself. Each chapter describes a different kind of relationship: the "knots" of the title: bonds of love, dependency, uncertainty, jealousy. The dialogues could be those between lovers, between parents and children, between analysts and patients or all of these merged together. Each brilliantly demonstrates Laing's insights into the intricacies of human relationships.

Do You Love Me? Soho Press

First published in 1960, this watershed work aimed to make madness comprehensible, and in doing so revolutionized the way we perceive mental illness. Using case studies of patients he had worked with, psychiatrist R. D. Laing argued that psychosis is not a medical condition but an outcome of the 'divided self', or the tension between the two personas within us: one our authentic, private identity, and the other the false, 'sane' self that we present to the world.

As a member of the board of directors of several major international financial services corporations, Patricia Pitcher was in a privileged position to observe the inner workings of the corporate world.

What she witnessed was a crisis of leadership rooted in a misunderstanding of what leading is all about. Not content to simply offer an opinion-opinions come cheap-she embarked on an eight-year research project to document the reasons for the rapid collapse of a global giant. That collapse, she shows us, began with one critical succession error and was compounded by a chronic failure to understand the importance of personality in the leadership equation. One wrong person at the helm turned a dream into a nightmare. In *The Drama of Leadership*, Patricia Pitcher shares her findings and, in the process, explodes a number of popular myths about leadership, including the one that leadership and vision are qualities that can be taught in management seminars. She refutes the common belief that leaders are in short supply and proves that the corporate talent pool abounds with potential leaders whose talents either go unrecognized or are tragically undervalued. And she explains why, at a time when vision, innovation, humanity, and passion are so desperately needed, so many companies cast in leadership roles people who possess none of these qualities, and who

distrust anyone who does. But who are the good and bad leaders, and how do you identify them? In answer to this question, Patricia Pitcher identifies three types of leaders: Artists, who are people-oriented, open-minded, intuitive, and visionary; Craftsmen, to whom the adjectives "humane," "dedicated," and "wise" best apply; and Technocrats - brilliant and well-schooled in the latest theory, they are detail-oriented, rigid, methodical, self-centered, and, when left in control, pose a serious threat to corporate competitiveness. The power struggles between these types are dramas being played out in companies everywhere. Whether the story has a happy or an unhappy ending depends entirely upon which type gets top billing. The author also offers her wise recommendations on what companies can do to protect themselves against a technocratic hegemony and how to cultivate the talents of Artists and Craftsmen. She also tells you how to determine what type of leader you are and how to interact with other types to achieve both personal and corporate success. *The Drama of Leadership* is an articulate, insightful, passionate appeal to develop the kind of leaders and organizations that can take us into the twenty-first century.

In 'The Politics of Experience' and the visionary 'Bird of Paradise', R.D. Laing shows how the straitjacket of conformity imposed on us all leads to intense feelings of alienation and a tragic waste of human potential. He throws into question the notion of normality, examines schizophrenia and psychotherapy, transcendence and 'us and them' thinking, and illustrates his ideas with a remarkable case history of a ten-day psychosis. 'We are bemused and crazed creatures,' Laing suggests. This outline of 'a thoroughly self-conscious and self-critical human account of man' represents a major attempt to understand our deepest dilemmas and sketch in solutions. 'Everyone in contemporary psychiatry owes something to R.D. Laing' Anthony Clare, the Guardian.
