Discovering Fiction Prentice Hall

Discovering Fiction is a two-level reading series that introduces students to authentic American literature. Student s Book 2 is an anthology of eighteen short stories by contemporary and classic American authors, including Kate Chopin, Ernest Hemingway, Langston Hughes, and Shirley Jackson. The stories have universal appeal that will touch students and make them think. Designed for high-intermediate to advanced students, the text provides interactive, integrated skills lessons developed around each story. Pre-reading sections include prior knowledge questions, author biographies, discussions of literary terms, and reviews of idioms and expressions found in the stories. Accompanying grammar exercises help students overcome such trouble areas as prepositions, articles, and irregular verbs. Also included are vocabulary sections, reading comprehension questions, and thought-provoking discussion and writing topics. Review sections tie the stories together and provide review tests.

For every major content section, longtime author Richard Straub has divided each module by major topic; each section includes a Preview (objectives that require short answers) and "Stepping Through the Section" (which include detailed, fill-in-the-blank questions). The Study Guide also includes self-tests, critical-thinking exercises, vocabulary and language activities, Internet activities, and crossword puzzles.

The purpose of Grammar for Teachers is to encourage readers to develop a solid understanding of the use and function of grammatical structures in American English. It approaches grammar from a descriptive rather than a prescriptive approach; however, throughout the book differences between formal and informal language, and spoken and written English are discussed. The book avoids jargon or excessive use of technical terminology. It makes the study of grammar interesting and relevant by presenting grammar in context and by using authentic material from a wide variety of sources.

Discovering Fiction Student's Book 1 Bloomsbury Publishing USA

This book about teachers as characters in popular media examines what can be learned from fictional teachers for the purposes of educating real teachers. Its aim is twofold: to examine the constructed figure of the teacher in film, television and text and to apply that examination in the context of teacher education. By exploring the teacher construct, readers are able to consider how popular fiction and film have influenced society's understandings and views of classroom teachers. Organized around four main themes—Identifying with the Teacher Image; Constructing the Teacher with Content; Imaging the Teacher as Savior; The Teacher Construct as Commentary—the chapters examine the complicated mixture of fact, stereotype and misrepresentation that create the image of the teacher in the public eye today. This examination, in turn, allows teacher educators to use popular culture as curriculum. Using the fictional teacher as a text, preservice—and practicing—teachers can examine positive and negative (and often misleading) representations of teachers in order to develop as teachers themselves.
