A chilling account of a turn-of-the-century child murder in Kentucky, the ensuing manhunt, trial, and verdict that remains questionable to this day. On a bitterly cold day in December 1909, eight-year-old Alma Kellner simply disappeared from the altar of St. John's Church in Louisville. Her body was found months later near the site of the church, and news of the murder rocked the city. The manhunt for the suspect took Louisville police Captain John Carney eleven thousand miles across the country, and even to South America, to return the killer to justice. Author Shawn M. Herron details the fascinating story of a tragedy that still remains under a cloud of suspicion. Do Not Play the Game With an Inmate!!!

Oxford University Press
More than two million people are incarcerated in America's prisons--one in nine is serving a life

sentence. Mass long-term imprisonment devours state budgets, adversely affects community well-being and skews our collective moral compass. This study examines the human costs of keeping the convicted out of sight, out of mind.

Beginning in 1994, the author began recording the personal stories of 50 incarcerated felons--17 of them were still in prison 20 years later.

The men candidly discuss what it means to commit a serious crime and to be confined for perhaps the remainder of their lives. Their stories are balanced by conversations with correctional officers, prison administrators, chaplains and parole board members. The author identifies circumstances that ruin some prisoners and save others and presents insights for possible

improvements in the criminal justice system.

Sex, Surveillance, and the Decades-Long Government Plan to Imprison "Promiscuous" Women

The scope of criminal justice surveillance has expanded rapidly in recent decades. At the same time, the use of big data has spread across a range of fields, including finance, politics,

healthcare, and marketing. While law enforcement's use of big data is hotly contested, very little is known about how the police actually use it in daily operations and with what consequences. In *Predict and Surveil*, Sarah Brayne offers an unprecedented, inside look at how police use big data and new surveillance technologies, leveraging on-the-ground fieldwork with one of the most

technologically advanced law enforcement agencies in the world-the Los Angeles Police Department. Drawing on original interviews and ethnographic observations, Brayne examines the causes and consequences of algorithmic control. She reveals how the police use predictive analytics to deploy resources, identify suspects, and conduct investigations; how the adoption of

big data analytics transforms police organizational practices; and how the police themselves respond to these new data-intensive practices. Although big data analytics holds potential to reduce bias and increase efficiency, Brayne argues that it also reproduces and deepens existing patterns of social inequality, threatens privacy, and challenges civil liberties. A groundbreaking

g examination of the growing role of the private sector in public policing, this book challenges the way we think about the data-heavy supervision law enforcement increasingly imposes upon civilians in the name of objectivity, efficiency, and public safety. *Programs and Activities* Christian Faith Publishing, Inc. Registered for Life with Jesus Christ is a powerful true memoir of a mother's

tragedy, police civil rights misconduct cover up, and a guide to serving time God's way. Undoubtedly, prison was the most intense period of spiritual warfare that Lori Franklin ever encountered. During her fourteen and half years at the Kentucky Correctional Institution for Women in Pewee Valley, Kentucky, formerly nicknamed the Valley of the Dolls but prophetically it was more of

the Valley of the Dry Bones as described in Ezekiel 37, full of spiritually dead women in need of leadership. During Lori's stay, she rose to her call of spiritual warfare leader and jailhouse lawyer to defend the constitutional civil rights of other inmates as the prison's grievance clerk and an active member of Women in Mission Bible study group. Lori allowed God to use her within the prison walls as

a missionary, all while battling her post-traumatic stress disorder from the tragic death of her child and by being left to suffer in solitary confinement in a cold windowless jail cell for over three hundred days straight without exercise, awaiting her trial at the Jefferson County Jail in Louisville, Kentucky in violation of her eighth amendment constitutional rights. Lori put together the

ordeals that God lead her through to guide inmates that are currently incarcerated and families that are left behind, while under a shelter-in-place order due to the 2020 COVID-19 pandemic. While writing her last chapter, she could hear the Black lives Matter protesters march down her street, shouting "No justice, no peace," bringing attention to the police

misconduct in Louisville, Kentucky, all the while crying that the statute of limitation is up in her case, and she will be registered for Life.

The nearly forgotten story of the American Plan, a government program to regulate women's bodies and sexuality—and how they fought back—told through the lens of one of its survivors

“A consistently surprising page-turner . . . a brilliant study of the way social anxieties have historically congealed in state control over women's bodies and behavior.”—New York Times Book Review

Nina McCall was one of many women unfairly imprisoned by the United States government throughout the twentieth century. Tens, probably hundreds, of thousands of women and girls were

locked up—usually without due process—simply because officials suspected these women were prostitutes, carrying STIs, or just “promiscuous.” This discriminatory program, dubbed the “American Plan,” lasted from the 1910s into the 1950s, implicating a number of luminaries, including Eleanor Roosevelt, John D. Rockefeller Jr., Earl Warren, and even Eliot

Ness, while laying the foundation for the modern system of women's prisons. In some places, vestiges of the Plan lingered into the 1960s and 1970s, and the laws that undergirded it remain on the books to this day. Nina McCall's story provides crucial insight into the lives of countless other women incarcerated under the American Plan. Stern demonstrates the pain and shame felt by these women

and details the multitude of mortifications they endured, both during and after their internment. Yet thousands of incarcerated women rioted, fought back against their oppressors, or burned their detention facilities to the ground; they jumped out of windows or leapt from moving trains or scaled barbed-wire fences in order to escape. And, as Nina McCall did, they sued their captors. In an age of

renewed activism surrounding harassment, health care, prisons, women's rights, and the power of the state, this virtually lost chapter of our history is vital reading. *Document Retrieval Index* Turner Publishing Company Provides a comprehensive overview of the Civil War from a variety of perspectives, describing the causes of the war, the battles and campaigns, the military

 “Heartbreaking and uplifting... a searing book about race and prejudice in America... brims with insights that only someone who has lived on both sides of the racial divide could gain.”—Cleveland Plain Dealer “A triumph of storytelling as

well as a triumph of spirit.”—Alex Kotlowitz, award-winning author of *There Are No Children Here* As a child in 1950s segregated Virginia, Gregory Howard Williams grew up believing he was white. But when the family business failed and his parents’ marriage fell apart, Williams discovered that his dark-skinned father, who had been passing as Italian-

American, was half black. The family split up, and Greg, his younger brother, and their father moved to Muncie, Indiana, where the young boys learned the truth about their heritage. Overnight, Greg Williams became black. In this extraordinary and powerful memoir, Williams recounts his remarkable journey along the color line and illuminates the contrasts between the black and

white worlds: one of privilege, opportunity and comfort, the other of deprivation, repression, and struggle. He tells of the hostility and prejudice he encountered all too often, from both blacks and whites, and the surprising moments of encouragement and acceptance he found from each. *Life on the Color Line* is a uniquely important book. It is a wonderfully inspiring testament of purpose,

perseverance, and human triumph. Winner of the Los Angeles Times Book Prize **RIE.. Annual cumulation** Taylor & Francis This book provides an introduction to the dynamics and problems that correctional workers face within correctional institutions. The material is a blend of general concepts, specific information, and guidance for correctional staff, intended

to give a practical view of the dynamics of interpersonal relations between inmates and staff, and the pressures correctional workers face in performing their duties. *Decades Behind Bars* Black Belt Communications Incorporated Reviews the key areas of the Armed Services Vocational Aptitude Battery, offers sample exams, and includes test-taking strategies to

Food & Agriculture Org. Show the incarcerated how to find forgiveness in unforgiving surroundings As the prison population in the United States increases by more than 1,000 inmates each week, prison ministry programs must have a working blueprint for dealing with the shame, humiliation, hate, and loneliness of incarceration at both the adult correctional

and juvenile detention/probation levels. Prison Ministry: Hope Behind the Wall demonstrates how a ministry can adapt Latin American Liberation theology to address oppression and bring prisoners into the community of Christ. Author Dennis Pierce, former chaplain at the Joliet Correctional Center in Illinois (where the Fox Network's 2005 "Prison Break" series

is filmed), presents a functioning approach to forgiveness and reconciliation, combining pastoral counseling, Christian education, Bible studies, and worship to help inmates develop self-esteem and an overall feeling of self-worth through compassion and empathy. Prison Ministry: Hope Behind the Wall provides an alternative resource on our prison system for chaplains, pastors,

priests, and students working in theology, ethics, or counseling. Instead of the usual descriptive narratives of inmates' lives or discussions of statistical approaches, this unique book combines a theological model with a viable programmatic approach to confront the oppression of incarceration and reverse its effects. The book looks at the vital issues facing juveniles in the criminal

justice system (the transition from county jail to a correctional facility, victimization, rejection, under-stimulation, homosexual rape) and examines the creation of non-threatening niches to address coping structures needed to move toward forgiveness and reconciliation. Prison Ministry: Hope Behind the Wall examines: meeting the incarcerated

Africa's grandmother was a double Dutch legend, and Africa knows she can become the same. Her brother scoffs when she signs up for a double Dutch

competition, though—how can she hope to compete when she’s never done it before? But Africa has all the tools she needs: memories of her grandmother, her bestie Bianca’s dance moves, her friend Omar’s rhythm, and her classmates’ Mary Mack timing and cartwheels. If Africa can pull everything together to jump some winning moves, she might just fly, but it’s the

birthmark in the shape of her name that tells her she’s always been a winner. Proceedings, ACA Annual Conferences Lulu.com This book offers criminologists and students an evidence-based discussion of the latest trends in corrections. Over the last several decades, research has clearly shown that rehabilitation efforts can be effective at reducing recidivism among

criminal offenders. However, researchers also recognize that treatment is not a "one size fits all" approach. Offenders vary by gender, age, crime type, and/or addictions, to name but a few, and these individual needs must be addressed by providers. Finally, issues such as leadership, quality of staff, and evaluation efforts affect the quality and delivery of treatment services. This book

synthesizes the vast research for the student interested in correctional rehabilitation as well as for the practitioner working with offenders. While other texts have addressed issues regarding treatment in corrections, this text is unique in that it not only discusses the research on "what works" but also addresses implementation issues as practitioners move from theory to

practice, as well as the importance of staff, leadership and evaluation efforts.

GUIDE to EARNING LAW and LAW-RELATED DEGREES NONTRADITIONALLY Jobs Publications William Walsh and Gennaro Vito have adapted the strategic management process to the police organizational world in this innovative new text, Police Leadership and Administration

: A 21st-Century Approach. Focusing principally on the police executive, this book covers pioneering management techniques for leaders facing the challenges of today's complex environment, providing the police practitioner instruction in planning, setting direction, developing strategy, assessing internal and external environments, creating learning organizations,

and managing and evaluating the change process. It also tackles how to handle the political, economic, social, and technical considerations that differ from one community to the next. Police Leadership and Administration

trains individuals to search for solutions, rather than relying on old formulas and scientific management principles. It shows how to tailor responses to the unique problems and issues that professionals are likely to face in the

field of law enforcement, providing a foundation with which to adapt to an ever-changing criminal justice climate. This book is essential for forward-thinking police leadership courses in colleges and professional training programs.
