*Embedded Racism* Cider Mill Press

On 29 August 2012 Private Robert Poate, Lance Corporal Rick Milosevic and Sapper James Martin were killed during an insider -- or green on blue -- attack in Afghanistan. Their killer: a supposed ally, was a Taliban sleeper in the ranks of the Afghan National Army. Information provided to the families by rank-and-file soldiers after the event shocked them. When the heavily redacted internal investigation report excluded a plethora of incriminating facts. This book is the result of a father's quest to find out truth behind the death of his soldier son. Hugh's search reveals a labyrinth of excuses, denials, half-truths, cover-ups, contrived secrecy, incompetence, negligence, orders not followed and lessons not learnt.

*The Biogas Handbook* Springer

PDEs are a family of enzymes that catalyze the hydrolysis of intracellular cyclic nucleotides. They are implicated in a number of disorders and dysfunctions and PDE inhibitors have already proven to be effective therapies for erectile dysfunction, COPD, and psoriatic arthritis. This family of enzymes also plays a role in diseases and disorders of the CNS such as depression, anxiety, schizophrenia, and Alzheimer's Disease. Unfortunately no effective PDE inhibitors have been developed for the treatment of these diseases. The proposed book will be a comprehensive overview of the current state of basic and translational research on PDE inhibitors written by internationally recognized experts. Authors will also discuss potential PDE subtypes and splice variants in the hopes that this will spur more creative approaches to PDE targeting drugs.

*The Population of Israel* Legare Street Press

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So that the book is

never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

*War Revenue Bill* NewSouth

Over the past few decades technological advances in transcriptomics, proteomics, metabolomics, and glycomics along with the ability to selectively knockout genes of interest has greatly advanced our understanding of maternal-conceptus interactions that are essential for the establishment and maintenance of a successful pregnancy. This knowledge provides a foundation from which to build research endeavors to help resolve infertility, embryonic loss and recurrent abortion in humans, captive wild animals and important farm species. The present volume on "Regulation of Implantation and Establishment of Pregnancy in Mammals" brings together current reviews from leading experts to address the diversity of mechanisms by which species establish and maintain pregnancy. Implantation in rodents, dogs, pigs, cattle, sheep, horses, primates, humans and embryonic diapause in wild species are discussed. Reviews will provide current knowledge on the role of endometrial steroid receptors, adhesion factors, cytokines, interferons, steroids, prostaglandins, growth factors and immune cells involved with regulation of conceptus development.

*Failures of Command* Springer

"WARNING - Only read this book if you're ready. If you're Muslim, I'm going to question everything you and your family believe about Islam" In a book, the first of its kind, researcher, and ex-Muslim Adam Wadi writes with compassion and brutal honesty explaining to his mother and father why he left Islam in this 'atheist confessional'. Providing direct and piercing arguments, Wadi uncovers why we think we need religion, Islam's flaws as a religion, and why God likely does not exist. Join Wadi on a journey of discovery, challenging commonly held beliefs such as: Why religions are so popular The Quran's credibility Prophet Muhammad as a role model The Prophets' stories: Adam, Noah,

Abraham, Moses & Jesus Religion's battle with science Women's rights The fear of Sharia law Gay Muslims Alcohol, cigarettes and sex in Islam Islamic Terrorism Censorship in Islam Islamization of the world Morality, spirituality and the meaning of life without religion and many more topics to provide you with the comprehensive collection of arguments against following ancient laws in a modern world. Citing historians, scientists and the Quran throughout, Atheism for Muslims is a compelling compilation of talking points about Islam, the existence of God, and our desire for a better future. With increasing pressures to utilize wastes effectively and sustainably, biogas production represents one of the most important routes towards reaching renewable energy targets. This comprehensive reference on the development and deployment of biogas supply chains and technology reviews the role of biogas in the energy mix and outlines the range of biomass and waste resources for biogas production. Contributors provide detailed coverage of anaerobic digestion for the production of biogas and review the utilization of biogas for various applications. They consider all aspects in the biogas production chain from the origin of the biomass feedstocks, feedstock selection and preparation, the anaerobic digestion process, biogas plant equipment design and operation, through to utilization of the biogas for energy production and the residue,

the digestate, which can be used as a biofertilizer. The book also addresses biogas utilization, and explores environmental impacts and commercial market applications. Table of Contents: Biogas as an energy option: An overview Part 1 Biomass resources, feedstock treatment and biogas production: Biomass resources for biogas production; Analysis and characterisation of biogas feedstocks; Storage and pre-treatment of substrates for biogas production; Fundamental science and engineering of the anaerobic digestion process for biogas production; Optimisation of biogas yields from anaerobic digestion by feedstock type; Anaerobic digestion as a key technology for biomass valorisation: Roles and contribution to the energy balance of biofuel chains Part 2 Plant design, engineering, process optimisation and digestate utilization: Design and engineering of biogas plants; Energy flows in biogas plants: Analysis and implications for plant design; Process control in biogas plants; Methane emissions in biogas production; Biogas digestate quality and utilization; Land application of digestate Part 3 Biogas utilisation: international experience and best practice: Biogas cleaning; Biogas up-grading to biomethane; Biomethane injection into natural gas networks; Generation of heat and power from biogas for stationery applications: Boilers, gas engines and turbines, combined heat and power (CHP) plants and fuel cells; Biomethane for transport applications; Market development and certification schemes for biomethane

Despite domestic constitutional provisions and international treaty promises, Japan has no law against racial discrimination. Consequently, businesses around Japan display "Japanese Only" signs, denying entry to all 'foreigners' on sight. Employers and landlords routinely refuse jobs and apartments to foreign applicants. Japanese police racially profile "foreign-looking" bystanders for invasive questioning on the street. Legislators, administrators, and pundits portray foreigners as a national security threat and call for their segregation and expulsion. Nevertheless, Japan's government and media claim there is no discrimination by race in Japan, therefore no laws are necessary. How does Japan resolve the cognitive dissonance of racial discrimination being unconstitutional yet not illegal? Embedded Racism untangles Japan's complex narrative on race. Starting with case studies of hundreds of "Japanese Only" exclusionary businesses, it carefully

analyzes the social construction of Japanese identity through laws, public policy, jurisprudence, and media messages. It reveals how the concept of a "Japanese" has been racialized to the point where one must look "Japanese" to have equal civil and human rights in Japan. Completely revised and updated for this Second Edition (including landmark events like the 2020 Tokyo Olympics, the Covid Pandemic, and the Carlos Ghosn Case), Embedded Racism is the product of three decades of research and fieldwork by a scholar living in Japan as a naturalized Japanese citizen. It offers a perspective into how Japan's entrenched, misunderstood, and deliberately overlooked racial discrimination not only undermines Japan's economic future but also emboldens white supremacists worldwide who see Japan as their template ethnostate.

[Introduction to Ligand Fields](#) Wiley-Blackwell

An die Seite des Corpus der Griechischen Christlichen Schriftsteller (GCS) stellte Adolf von Harnack die Monographienreihe der Texte und Untersuchungen zur Geschichte der altchristlichen Literatur (TU), die er bereits 1882 begründet hatte und die nunmehr als »Archiv für die ... Ausgabe der älteren christlichen Schriftsteller« diene. In ihr werden vor allem die alten Übersetzungen der im Corpus erscheinenden Schriften teils im Original, teils in deutscher oder einer anderen modernen Sprache gedruckt. Daneben steht die Reihe auch für Voruntersuchungen zu den Editionen und für begleitende Abhandlungen offen.

[Maternal Recognition of Pregnancy](#) Walter de Gruyter GmbH & Co KG

The Novartis Foundation Series is a popular collection of the proceedings from Novartis Foundation Symposia, in which groups of leading scientists from a range of topics across biology, chemistry and medicine assembled to present papers and discuss results. The Novartis Foundation, originally known as the Ciba Foundation, is well known to scientists and clinicians around the world.

[Usool At-Tafseer](#) Rowman & Littlefield

How do you teach tolerance, self-awareness, and responsibility? How can you help children deal with fear, mistrust, or aggression? Play a game with them! Games are an ideal way to help children develop social and emotional skills; they are exciting, relaxing, and fun. 101 LIFE SKILLS GAMES FOR CHILDREN: LEARNING, GROWING, GETTING ALONG (Ages 6-12) is a resource that can help children understand and deal with problems that arise in daily interactions with other children and adults. These games help children develop social and emotional skills and enhance self-awareness. The games address the following issues: dependence, aggression, fear, resentment, disability, accusations, boasting, honesty, flexibility, patience, secrets, conscience, inhibitions, stereotypes, noise, lying, performance, closeness, weaknesses, self confidence, fun, reassurance, love, respect, integrating a new classmate, group conflict. Organized in three main chapters: (I-Games, You-Games and We-Games), the book is well structured and easily accessible. It specifies an objective for every game, gives step-by-step instructions, and offers questions for reflection. It provides

possible variations for each game, examples, tips, and ideas for role plays. Each game contains references to appropriate follow-up games and is illustrated with charming drawings.

[Snapshots of Evolving Traditions](#) Turner Publishing Company

In his years as an Arizona Ranger, Sam Burrack believes he has seen every act of cruelty and brutality one man can bestow upon another. but nothing has prepared him for the butchery perpetrated by a gang of scalp hunters in the settlement of Clifton Wells. Although on assignment escorting a prisoner, Sam will not allow the local law to pursue the killers without his assistance. Sheriff Boyd Tackett is more than willing to accept Sam's help because he has compelling personal reasons to see the culprits caught. With no idea of how many foes they're facing, the lawmen must learn to stick together-and trust each other-if they expect to bring these men to justice ...

Drink like a local even when thousands of miles away with more than 100 recipes from acclaimed bars around the world with Cocktail Culture: The World's Greatest Cocktails. Now you can enjoy cocktails from the world's best bartenders and mixologists from the comfort of your own home. These innovative and refreshing drinks honor and reinvent classics, make the most of local ingredients, and take full advantage of the world's dynamic cocktail scene. Bring big cities like London, Tokyo, San Francisco, Miami, Las Vegas, and Paris to you with top recipes from around the globe. This carefully curated list contains the signature recipes of trendsetting bartenders and mixologists the world over. You'll learn to master the most exciting cocktails and bartender originals. Experiment with new and exciting flavors to concoct craft cocktails, and make locally inspired bespoke ingredients such as syrups, infusions, tinctures, foams, and other blends. Look inside to find: - Detailed bartending tips, techniques, and preparations from the masters. - Signature recipes from the world's leading bartenders and mixologists. - Interviews with experts and industry insiders. - Stunning photography that captures the heart of each location's cocktail, from the romantic elegance of Paris to the rich cocktails of London, the traditional and contemporary influences of Tokyo, and the heart and soul of New Orleans and beyond. Cocktail Culture: The World's Greatest Cocktails collects all of that expertise in a single, eye-catching volume. Drink your way around the world without ever leaving your zip code with this comprehensive guide.
