 "Jeffrey Smith updates the earlier release of Col Timothy T. Timmon's *Commanding an Air Force Squadron* (1993). In this book, which includes a foreword by Gen John P. Jumper and an introduction by Colonel Timmons, USAF, retired, Colonel Smith relies on the vast "insights, experiences,

and recommendations" of former and current commanders to identify the attributes of a successful commander at multiple levels. He identifies some issues commanders face regardless of the level of command, including counseling personnel, dorm inspections, commanders' calls, money management, and the roles of spouses and families. According to Colonel Smith, the conduct of individuals in times of crises is the truest barometer of a good commander."--Publisher website.

"Leaps straight onto the roster of essential reading for anyone even vaguely interested in Grant and the Civil War."
—Ron Chernow, author of *Grant* "Provides leadership lessons that can be obtained

nowhere else... Ulysses Grant in his *Memoirs* gives us a unique glimpse of someone who found that the habit of reflection could serve as a force multiplier for leadership." —Thomas E. Ricks, *Foreign Policy*
Ulysses S. Grant's memoirs, sold door-to-door by former Union soldiers, were once as ubiquitous in American households as the Bible. Mark Twain and Henry James hailed them as great literature, and countless presidents credit Grant with influencing their own writing. This is the first comprehensively annotated edition of Grant's memoirs, clarifying the great military leader's thoughts on his life and times through the end of the Civil War and offering his invaluable perspective on battlefield decision making. With annotations compiled by the editors of the Ulysses S. Grant Association's Presidential Library, this definitive edition enriches our understanding of the pre-war years, the war with Mexico, and the Civil War. Grant provides essential insight into how rigorously these events tested America's democratic institutions and the cohesion of its social order. "What gives this peculiarly reticent book its power? Above all, authenticity... Grant's style is strikingly modern in its economy." —T. J. Stiles, *New York Times* "It's been said that if you're going to pick up one memoir of the Civil War, Grant's is the one to read. Similarly, if you're going to purchase one of the several annotated editions of his memoirs, this is the collection to own, read, and reread." —*Library Journal*

Commanding an Air Force Squadron in the Twenty-first Century Naval Institute Press

Terry de la Mesa Allen's mother was the daughter of a Spanish officer, and his father was a career U.S. Army officer. Despite this impressive martial heritage, success in the military seemed unlikely for Allen as he failed out of West Point—twice—ultimately gaining his commission through Catholic University's R.O.T.C. program. In World War I, the young officer commanded an infantry battalion and distinguished himself as a fearless combat leader, personally leading patrols into no-man's-land. In 1940, with another world war looming, newly appointed army chief of staff Gen. George C. Marshall reached down through the ranks and, ahead of almost a thousand more senior colonels, promoted Patton, Eisenhower, Allen, and other younger officers to brigadier general. For Operation Torch, the invasion of North Africa, Allen, now a two-star general, commanded the Big Red One, the First Infantry Division, spearheading the American attack against the Nazis. Despite a stellar combat record,

however, Major General Allen found himself in hot water with the big brass. Allen and his troops had become notorious for their lack of discipline off the battlefield. When Seventh Army commander George Patton was pressed by his deputy Omar Bradley to replace "Terrible Terry" before the invasion of Sicily, he demurred, favoring Allen's success in combat. At the end of the Sicily campaign, with Allen's protector Patton out of the way (relieved for slapping a soldier), Omar Bradley fired Allen and sent him packing back to the States, seemingly in terminal disgrace. Once again, however, George Marshall reached down and in October 1944, Terrible Terry was given command of another infantry division, the 104th Timberwolves and took it into heavy combat in Belgium. Hard fighting continued as Allen's division spearheaded the U.S. First Army's advance across Germany. On 26 April 1945, Terrible Terry Allen's hard-charging Timberwolves became the first American outfit to link up with the Soviet Union's Red Army. Terrible Terry Allen was one of the most remarkable American soldiers of World War II or any war. Hard bitten, profane, and combative, Allen disdained the "book," but he knew how to wage war. He was a master of strategy, tactics, weaponry, and, most importantly, soldiers in combat.

Craig F. Morris explores the beginnings of American strategic bombing theory, why it changed over time, the factors that shaped that change, and how technology molded military doctrine. This much-needed book provides a full spectrum discussion of the American strategic bombing concept in a way that advances aviation history. In the minds of forward thinking aerial theorists the new technology of the airplane removed the limitations of geography, defenses, and operational reach that had restricted ground and naval forces since the dawn of human conflict. With aviation, a nation could avoid costly traditional military campaigns and attack the industrial heart of an enemy using long-range bombers. Yet, the acceptance of strategic bombing doctrine proved a hard-fought process. This is not the story of any one person or event; instead, it is a twisting tale of individual efforts, organizational infighting, political priorities, and technological integration. By tracing the complex interrelationships of these four causal

factors, this book provides a greater understanding of the origins and rise to dominance of American strategic bombing theory.

TRADOC Pamphlet TP 600-4 The Soldier's Blue Book

In this new biography of General Ulysses S. Grant, acclaimed Civil War historian, Edward G. Longacre, examines Grant's early life and his military career for insights into his great battlefield successes as well as his personal misfortunes. Longacre concentrates on Grant's boyhood and early married life; his moral, ethical, and religious views; his troubled military career; his strained relationships with wartime superiors; and, especially, his weakness for alcohol, which exerted a major influence on both his military and civilian careers. Longacre, to a degree that no other historian has done before, investigates Grant's alcoholism in light of his devout religious affiliations, and the role these sometimes conflicting forces

had on his military career and conduct. Longacre's conclusions present a new and surprising perspective on the ever-fascinating life of General Grant.

The Origins of American Strategic Bombing Theory

Defeat and Triumph tells the story of the still controversial, important, dramatic but little known Allied invasion of the French Riviera on August 15, 1944. This was known as Operation Anvil and later renamed Operation Dragoon.

Notwithstanding the massive opposition of Winston Churchill, his military advisors, and many notable American generals, Dragoon happened. After suffering four years of humiliating and devastating defeat, French men and women were assisted by their American and British Allies and this invasion ensured World War II victory in Europe. Defeat and Triumph: The Story of a Controversial Allied Invasion

and French Rebirth thoroughly analyzes the pros and cons of Dragoon. The book provides a panoramic history of Operation Dragoon and related events in France, Germany, Great Britain, the United States, and the Mediterranean from 1940-1945. The author is in the unique position of having served on Day of Dragoon as Helmsman of LST 1012 (Landing Ship Tank). The LST 1012 participated in the most dangerous and tragic event of the invasion. He has gathered and analyzed a treasure trove of previously unpublished American, British, French and German archival materials, diaries, letters, periodical articles, maps and interviews.
