*The Feudal Transformation* University of Michigan Press

The Cathars are one of the most famous heretical movements of the late twelfth and early thirteenth centuries. They infiltrated the highest ranks of society and posed a major threat not only to the Catholic Church but also to secular authorities as well. The movement was finally smashed by the crusade and the inquisitional proceedings that followed. This new study is the first comprehensive history of the Cathars. It addresses major topics in medieval history including heresy, orthodoxy and the Crusades as well as providing a history of the social and political history of Languedoc and the rise of the Capetian dynasty. A fascinating study of the development of

radical religious belief and its violent suppression.

*Heresy in Medieval France* Univ of California Press

Discusses the institutional, political, social, and mental structures of French feudal society. -- Dust jacket.

Dictionnaire universel de la France ancienne et moderne, et de la nouvelle France traitant de tout ce, qui y a rapport: soit géographie, etymologie, topographie, histoire etc University of Toronto Press

Discovered by chance by two boys in France in 1940, the cave of Lascaux, with its radiant wall paintings of bison, aurochs, horses, and deer, offers us the most astonishing view we have of the shadowy, powerful animal world of the Old Stone Age some 18,000 years ago. In the early 1960s, when it became clear that the paintings were beginning to fade as countless tourists flocked to see

them, the cave was sealed, ancient atmospheric conditions were restored, and even scientists were allowed to enter the cave only a few hours each week. Today this prehistoric monument remains closed to the public. Following 10 years of research on the Lascaux cave, the prehistorian and geologist Norbert Aujoulat offers us his stunning interpretation of the paintings. In this lavishly illustrated volume, packed with new photographs, maps, and explanatory diagrams of the paintings, he takes us on a journey from the entrance of the cave back to its deepest and most hidden parts. In the process, he provides us with new insight into these remarkable works, tracing the birth of ancient mythologies, and of art.

*Dictionnaire Des Devises Historiques Et Héraldiques: Dictionnaire des devises nobiliaires et historiques* Home Farm Books

First English translation of important contemporary source for the history of the Cathar heresy and

the Albigensian crusade.

*Le grand dictionnaire historique, ou Le mélange curieux de l'histoire sacrée et profane, qui contient en abrégé: les vies et les actions remarquables des patriarches, des juges, des rois ... & de ceux qui se sont rendus recommandables en toutes sortes de professions, par leur science ...* Cambridge University Press

Christian dualism originated in the reign of Constans II (641-68). It was a popular religion, which shared with orthodoxy an acceptance of scriptural authority and apostolic tradition and held a sacramental doctrine of salvation, but understood all these in a radically different way to the Orthodox Church. One of the differences was the strong part demonology played in the belief system. This text traces, through original sources, the origins of dualist Christianity throughout the Byzantine Empire, focusing on the Paulician movement in Armenia and Bogomilism in Bulgaria. It presents not only the theological texts, but puts the movements into their social and political context.

**Talleyrand, the Cardinal of Périgord, 1301-1364** Geological Society of America

An edited collection of letters, chronicles, and sermons written, in the main, by clerics and other highly placed church officials during the eleventh and twelfth centuries. R.I. Moore uses them to analyse the beginning and development of popular heresy.

*South-Western France, from the Loire and the Rhone to the Spanish Frontier - Handbook for Travellers* OUP Oxford

More than seventy documents, ranging in date from the early eleventh century to the early fourteenth century and representing both orthodox and heretical viewpoints are included.

**The Chivalrous Society** Boydell & Brewer

Why do some migrants integrate quickly, while others become long-term minorities? What is the role of the state in the settlement process? To what extent are experiences in the past different from the present? Are the recent migrants really integrating in another way than those in the past? Is Islam indeed an obstacle to integration? These are some of the burning questions, which dominate the current politicized debate on immigration in Western Europe. In this book, leading historians and social scientists analyze and compare a variety of settlement processes in past and present migration to Western Europe. Identifying general factors in the process of adaptation of new immigrants, the contributors trace social changes effected by recent European immigration, and the parallels with the great American migration of the 1880s-1920s. The history of migration to Western Europe and the way these migrants found their place in the receiving societies, is not only essential to understand the way nations deal with newcomers in the present, but also constitutes a highly interesting laboratory for different paths of integration now and then. By analyzing and comparing a wealth of settlement processes both in the past and in the present this book is both a bold interdisciplinary endeavor, and at the same time the first attempt to identify general factors underlying the way migrants adapt to their new surroundings, as well as how societies change under the influence of immigration. The chapters in the book both look at specific groups in various periods, but also analyses the structure of the state, churches unions and other important organized actors in Western European nation states. Moreover, the results are embedded in the more theoretical American literature on the comparison of old and new migrants. All chapters have an explicit comparative perspective, either by comparing different groups or different periods, whereas the general conclusion ties together the various outcomes in a

systematic way, highlighting the main answers to the central questions about the various outcomes of settlement processes. --Publisher.

**The Hundred Years War** Faber & Faber

"Georges Duby in productivity and originality stands at the forefront of active medievalists in France and in the world. The present collection contains 15 of his short articles, most but not all of which appear in English for the first time. . . Of capital interest are his several essays that explore the evolution of nobility, knighthood, the noble family, and the ideals of chivalry across the central Middle Ages. They are both a summary and the point of departure of current research into the medieval aristocracy .... Indispensable."--Choice "[A] valuable collection. The title is exact. But it is no coffee-table account of courtly life eked out with colour photos of an author's subsidized holiday. It is an interlocking series of studies about the structure of families, the nature of knighthood and nobility, changes of attitudes towards kinship, and the influence of new clerical ideas . . . . Duby shows us noble families becoming specifically knightly, acquiring heritable toponymies, clustering round the patrimony, emphasizing the male line and the eldest born save when the female is an heiress, and in the course of time forming a homogeneous noble class whose members by St. Louis's age, whatever else they are, are gentilhommes. Passion is not spent, but canalized against the enemies of Christ. The discrete themes of undergraduate medieval history are in reality one complex whole: land, wives, dynasty war, celibacy, vows, pilgrimage, crusade, nobility."--Times Literary Supplement "Duby's researches in medieval agrarian and social history have established him as one of the leading international authorities in those areas. This volume brings together 15 of his most significant articles. The book represents the best of 'the new history.'"--Library Journal

Interprets thirteenth-century crusades in terms of the development of Europe, especially France **Life of the Black Prince** Columbia University Press

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

**LE GRAND DICTIONNAIRE HISTORIQUE** Boydell & Brewer Incorporated

A comparative study of how the societies of late medieval England and France reacted to the long period of conflict between them from political, military, social and economic perspectives.

*Christian Dualist Heresies in the Byzantine World, c. 650-c. 1450* Bantam

In twelfth century Languedoc a subversive heresy of Eastern origin flourished to an extraordinary degree. The Albigenses believed that the world was created by an evil spirit, and that all worldly things - including the Church - were by nature sinful. Jonathan Sumption's acclaimed history examines the roots of the heresy, the uniquely rich culture of the region which nurtured it, and the crusade launched against it by the Church which resulted in one of the most savage of all medieval wars. '[Sumption] never fails to keep his narrative lively with the particular and the pertinent. He is excellent on the tactics and spirit of medieval warfare.' Frederic Raphael, Sunday Times

*Paths of Integration* Holmes & Meier Publishers

Investigation of heresy in south-west France, including a new assessment of the role of Catharism and the Albigensian Crusade.

*Literarische Zeitung* St. Martin's Press

"With a sure, steady hand Lindsey ratchets the suspense and sexual tension tighter and tighter, page by merciless page. The only mercy you'll get is the word on the cover."—Stephen Conts Houston is shattered by a shock wave of unbelievably vicious sex killings. And this time the pattern is unique—way out of line with traditional violent-crime psychology. In Detective Carmen Palma's experience, a psychopath always chooses anonymous targets. But the Houston victims know and trust their killer: They meet willingly in hotel rooms, even in their homes. They don't fight when the leather cuffs are fastened to their wrists and ankles. They don't even struggle when the first blows fall . . . Palma's first lightning instinct is that the victims expected their torture. They were practicing masochists, apart of a secret clique that includes some of the city's most prominent women. They helped choreograph their own punishments—every blow. They just didn't expect to die. . .

**Nouvelle biographie générale depuis les temps les plus reculés jusqu'à nos jours**

Manchester University Press

Covering the centuries between the disintegration of the Carolingian empire and the rise of the French monarchy, this book traces the long period of gestation that ended with the emergence of the kingdom of France as a recognizable political entity capable of inspiring the loyalty of its peoples. The author describes the emergence in the late ninth and tenth centuries of principalities and lesser political units in which the personal qualities or resources of the rulers permitted them to command obedience. In the eleventh century, the threat of political fragmentation led princes to establish sounder theoretical foundations for their authority in legal and administrative procedures. The twelfth-century kings of France, hitherto little more than princes of the Ile-de-France, exploited the state-building activities of their princes to re-establish their own lordship over all the princes, counts, and bishops within their realm. At the same time, they contrived to identify themselves in their subjects' imaginations with the dawning sense of French community. By 1180 the kingdom of France was firmly established, both on the map of Europe and in the minds of its inhabitants. **Dictionnaire Universel De La France Ancienne Et Moderne, Et De La Nouvelle France** Routledge From the Nobel laureate and author of the masterly *Night*, a deeply felt, beautifully written novel of morality, guilt, and innocence. Despite personal success, Yedidyah—a theater critic in New York City, husband to a stage actress, father to two sons—finds himself increasingly drawn to the past. As he reflects on his life and the decisions he's made, he longingly reminisces about the relationships he once had with the men in his family (his father, his uncle, his grandfather) and the questions that remain unanswered. It's a feeling that is further complicated when Yedidyah is assigned to cover the murder trial of a German expatriate named Werner Sonderberg. Sonderberg returned alone from a walk in the Adirondacks with an elderly uncle, whose lifeless body was soon retrieved from the woods. His plea is enigmatic: "Guilty . . . and not guilty." These words strike a chord in Yedidyah, plunging him into feelings that bring him harrowingly close to madness. As Sonderberg's trial moves along a path of dizzying yet revelatory twists and turns, Yedidyah begins to understand his own family's hidden past and finally liberates himself from the shadow it has cast over his life. With his signature elegance and thoughtfulness, Elie Wiesel has given us an enthralling psychological mystery, both vividly dramatic and profoundly emotional.
