Crafting smash hits with Van Halen, The Doobie Brothers, Nicolette Larson, and Van Morrison, legendary music producer Ted Templeman changed the course of rock history. This autobiography (as told to Greg Renoff) recounts Templeman's remarkable life from child jazz phenom in Santa Cruz, California, in the 1950s to Grammy-winning music executive during the '70s and '80s. Along the way, Ted details his late '60s stint as an unlikely star with the sunshine pop outfit Harpers Bizarre and his grind-it-out days as a Warner Bros. tape listener, including the life-altering moment that launched his career as a producer: his discovery of the Doobie Brothers. *Ted Templeman: A Platinum Producer's Life in Music* takes us into the studio sessions of No. 1 hits like "Black Water" by the Doobie Brothers and "Jump" by Van Halen, as Ted recounts memories and the behind-the-scene dramas that engulfed both massively successful acts. Throughout, Ted also reveals the inner workings of his professional and personal relationships with some of the most

talented and successful recording artists in history, including Steven Tyler and Joe Perry of Aerosmith, Eric Clapton, Lowell George, Sammy Hagar, Linda Ronstadt, David Lee Roth, and Carly Simon.

The birth of rock 'n roll ignited a firestorm of controversy--one critic called it "musical riots put to a switchblade beat"--but if it generated much sound and fury, what, if anything, did it signify? As Glenn Altschuler reveals in *All Shook Up*, the rise of rock 'n roll--and the outraged reception to it--in fact can tell us a lot about the values of the United States in the 1950s, a decade that saw a great struggle for the control of popular culture. Altschuler shows, in particular, how rock's "switchblade beat" opened up wide fissures in American society along the fault-lines of family, sexuality, and race. For instance, the birth of rock coincided with the Civil Rights movement and brought "race music" into many white homes for the first time. Elvis freely credited blacks with originating the music he sang and some of the great early rockers were African American, most notably, Little Richard and Chuck Berry. In addition, rock celebrated romance and sex,

rattled the reticent by pushing sexuality into the public arena, and mocked deferred gratification and the obsession with work of men in gray flannel suits. And it delighted in the separate world of the teenager and deepened the divide between the generations, helping teenagers differentiate themselves from others. Altschuler includes vivid biographical sketches of the great rock 'n rollers, including Elvis Presley, Fats Domino, Chuck Berry, Little Richard, Jerry Lee Lewis, and Buddy Holly--plus their white-bread doppelgangers such as Pat Boone. Rock 'n roll seemed to be everywhere during the decade, exhilarating, influential, and an outrage to those Americans intent on wishing away all forms of dissent and conflict. As vibrant as the music itself, *All Shook Up* reveals how rock 'n roll challenged and changed American culture and laid the foundation for the social upheaval of the sixties.

There had always been music along the banks of the Congo River--lutes and drums, the myriad instruments handed down from ancestors. But when Joseph Kabasele and his African Jazz went chop for chop with O.K. Jazz and Bantous de la Capitale, music in Africa would never be the same. A sultry rumba washed in relentless waves across new nations springing up below the Sahara. The Western press would dub the sound soukous or rumba rock; most of Africa called it Congo music. Born in Kinshasa and Brazzaville at the end of World War II, Congolese music matured as Africans fought to consolidate their hard-won independence. In addition to great musicians--Franco, Essous, Abeti, Tabu Ley, and youth bands like Zaiko Langa Langa--the cast of characters includes the conniving King Leopold II, the martyred Patrice Lumumba, corrupt dictator Mobutu Sese Seko, military strongman Denis Sassou Nguesso, heavyweight boxing champs George Foreman and Muhammad Ali, along with a Belgian baron and a clutch of enterprising Greek expatriates who pioneered the Congolese recording industry. *Rumba on the River* presents a snapshot of an era when the currents of tradition and modernization collided along the banks of the Congo. It is the story of twin capitals engulfed in political struggle and the vibrant new music that flowered amidst the ferment. This original and multidimensional book brings a refreshing new approach to the study of the arts of the Middle East. By dealing in one volume with dance, music, painting, and cinema, as experienced and practiced not only within the Middle East but also abroad, *Images of Enchantment* breaks down the artificial distinctions--of form, geography, 'high' and 'low' art, performer and artist--that are so often used to delineate the subjects and processes of Middle Eastern artistic culture. The eighteen essays in this book cover themes as diverse as Bedouin dance, the music of Arab Americans, cinema in Egypt and Iran, Hollywood representations of the Middle East, and contemporary Sudanese painting. The contributions come from scholars and critics and from the artists themselves. Together, they present a wide-ranging and holistic view of the arts in their social, political, anthropological, and gender contexts. Contributors: Walter Armbrust, Farida Ben Lyazid, Kay Hardy Campbell, Virginia Danielson, Marjorie Franken, Sondra Hale, Carolee Kent, Hamid Naficy, Salwa Mikdadi Nashashibi, Anne K. Rasmussen, Selim Sednaoui, Simon Shaheen, Rebecca Stone, Chaïbia Talal, Karin Van Nieuwkerk, William Young, Sherifa Zuhur.

Early '70s Radio focuses on the emergence of commercial music radio "formats," which refer to distinct musical genres aimed toward specific audiences. This formatting revolution took place

in a period rife with heated politics, identity anxiety, large-scale disappointments and seemingly insoluble social problems. As industry professionals worked overtime to understand audiences and to generate formats, they also laid the groundwork for market segmentation. Audiences, meanwhile, approached these formats as safe havens wherein they could re-imagine and redefine key issues of identity. A fresh and accessible exercise in audience interpretation, *Early '70s Radio* is organized according to the era's five prominent formats and analyzes each of these in relation to their targeted demographics, including Top 40, "soft rock", album-oriented rock, soul and country. The book closes by making a case for the significance of early '70s formatting in light of commercial radio today.

In this book, Spracklen and Spracklen use the idea of collective memory to explore the controversies and boundary-making surrounding the genesis and progression of the modern gothic alternative culture. They suggest that the only way for goth culture to survive is if it becomes transgressive and radical again.

Sergei Rachmaninoff--the last great Russian romantic and arguably the finest pianist of the late 19th and early 20th centuries--wrote 83 songs, which are performed and beloved throughout the world. Like German Lieder and French mélodies, the songs were composed for one singer, accompanied by a piano. In this complete collection, Richard D. Sylvester provides English translations of the songs, along with accurate transliterations of the original texts and detailed commentary. Since Rachmaninoff viewed these "romances" primarily as performances and painstakingly annotated the scores, this volume will be especially valuable for students, scholars, and practitioners of voice and piano.

From the author of *The Changing Mind* and *The Organized Mind* comes a New York Times bestseller that unravels the mystery of our perennial love affair with music ***** 'What do the music of Bach, Depeche Mode and John Cage fundamentally have in common?' Music is an obsession at the heart of human nature, even more fundamental to our species than language. From Mozart to the Beatles, neuroscientist, psychologist and internationally-bestselling author Daniel Levitin reveals the role of music in human evolution, shows how our musical preferences begin to form even before we are born and explains why music can offer such an emotional experience. In *This Is Your Brain On Music* Levitin offers nothing less than a new way to understand music, and what it can teach us about ourselves. ***** 'Music seems to have an almost wilful, evasive quality, defying simple explanation, so that the more we find out, the more there is to know . . . Daniel Levitin's book is an eloquent and poetic exploration of this paradox' Sting 'You'll never hear music in the same way again' Classic FM magazine 'Music, Levitin argues, is

not a decadent modern diversion but something of fundamental importance to the history of human development' Literary Review *Improvising Cinema* Emerald Group Publishing

With their early experiments in psychedelic rock music in the 1960s, and their epic recordings of the 1970s and '80s, Pink Floyd became one of the most influential and recognizable rock bands in history. As "The Pink Floyd Sound," the band created sound and light shows that defined psychedelia in England and inspired similar movements in the Jefferson Airplane's San Francisco and Andy Warhol's New York City. The band's subsequent recordings forged rock music's connections to orchestral music, literature, and philosophy. "Dark Side of the Moon" and "The Wall" ignored pop music's ordinary topics to focus on themes such as madness, existential despair, brutality, alienation, and socially induced psychosis. They also became some of the best-selling recordings of all time. In this collection of essays, sixteen scholars expert in various branches of philosophy set the controls for the heart of the sun to critically examine the themes, concepts, and problems—usually encountered in the pages of Heidegger, Foucault, Sartre, or Orwell—that animate and inspire Pink Floyd's music. These include the meaning of existence, the individual's place in society, the interactions of knowledge and power in education, the contradictions of art and commerce, and the blurry line—the tragic line, in the case of Floyd early member Syd Barrett (died in 2006)—between genius and madness. Having dominated pop music for nearly four decades, Pink Floyd's dynamic and controversial history additionally opens the way for these authors to explore controversies about intellectual property, the nature of authorship, and whether wholes—especially in the case of rock bands—are more than the sums of their parts.

Bu Bir Aşk Şarkısı Değil: Video Sanatı ve Pop Müzik İlişkisi sergi kataloğu, video sanatının pop müzik ile ilişkisini ele alıyor ve aralarındaki etkileşimlere odaklanıyor, 1960'lardan günümüze pop müzik ile video sanatının kesiştiği yolların izini sürüyor. Serginin küratörü F. Javier Panera Cuevas'ın video sanatı ve pop müzik ilişkisini ele alan metni ile Pop İçinde Sanat / Sanat İçinde Pop, Histeri ve Din, Rock ve Kavramsal Sanat: 'Müziyen Olmayanlar' ile 'Sanatçı Olmayanlar' Karşı Karşıya, Rock ve İkizi: Bir "Alet Çantası" Olarak Pop Müzik ve Dans Müziği Politikaları başlıklı beş bölümden oluşan sergi kataloğu, sergide yer alan işlerle ilgili detaylı bilgiler içeriyor. Bu Bir Aşk Şarkısı Değil, müzik ile görsel sanatlar arasındaki ilişkinin son dönemde müzisyenler ile sanatçıların kendilerini egemen kültürel sistemin aktörü olarak konumlandığı veya o sistemde ardında, Greil Marcus'un deyişiyle, "silindikten sonra hafızamızda derin bir iz bırakan ruj lekeleri gibi" geçici ama yoğun izler bırakarak küçük direniş biçimleri benimseyip muhaliflere dönüştüğü başka bir sanat tarihi üzerine düşünmeye teşvik ediyor. --- This is Not a Love Song: Video Art and Pop Music Crossovers exhibition catalogue traces the genealogy of the relations between video art and pop music from the 1960s to today in which video art and pop music crossed roads. The catalogue features a substantial essay on video art and pop music relationship by curator F. Javier Panera Cuevas. The five chapters in the catalogue Art in Pop, Pop in Art,

Hysteria and Religion, 'Non-Musicians' vs 'Non-Artists' Rock and Conceptual Art, Rock and Its Double: Pop Music as a 'Toolbox' and Dance Music Politics present a deeper look into the works in the exhibition. This is Not a Love Song suggests that the relations between music and the visual arts force us to reconsider another history of art, in which musicians and artists can position themselves either as actors in the hegemonic cultural system or as critical radicals whose traces, as Greil Marcus would say, can be as intense and as short-lived 'as a lipstick stain that is removed but leaves a profound imprint on our memory.

Mel Bay is pleased to present the long-awaited publication of the Los Angeles Guitar Quartet's "loose" arrangement of the Pachelbel Canon for four guitars. Originally intended as an inside joke for the LAGQ members, this clever and comical send-up of Pachelbel's beautiful (and somewhat overplayed) melody has become a standard LAGQ encore and an internet sensation. Featured in performance on the Mel Bay DVD LAGQ Live at the Sheldon, this unique arrangement presents the pristine Baroque theme, and then adapts it in a number of unexpected musical styles: Reggae, salsa, bluegrass, jazz, flamenco, disco, and even punk. This is the only arrangement in the LAGQ repertoire that was a true group-project with all four members (John Dearman, William Kanengiser, Scott Tennant and Andrew York) contributing; as a special bonus, new LAGQ member Matt Greif has added an alternative solo for the jazz section. Carefully notated to capture the nuances of LAGQ's stylistic flair, the parts are presented in standard notation as well as in tablature for those less familiar with note-reading. It's a challenging and fun re-imagining of a timeless classic.

Gilles Mouëllic examines improvisational practices that can be specifically attributed to the cinema and argues in favor of their powers as instigators of unprecedented forms of expression. *Improvising Cinema* reflects both on the permanence of attempting improvisation and the relationship between technology and aesthetics. Mouëllic concludes preservation becomes even more invaluable in the case of improvisation, as the creative act exists only within the brief time span of the performance.

In this version of the children's nursery rhyme, Lamb and Mary fall in love. Then Mary has second thoughts. Lamb is a lamb, after all, not a man. Lamb, heartbroken, turns to drinking. Lamb goes to a madhouse. Mary buries her feelings. And then somehow, Lamb pulls it together. He leaves the madhouse mature--saddened but more dignified, ready for another chance to win Mary's heart, if she will have him. Award-winning poet Matthea Harvey offers a story told in short packets of verse, and artist Amy Jean Porter brings each stanza vividly to life with her eye-popping illustrations.
