What woman doesn't love cute shoes? Rhonda Rhea's not afraid to admit her obsession with them-- or to use this "shallow" addiction as a basis for a book! High Heels in High Places is a biblical journey for women who want to go deeper in their spiritual

lives, but also want fall-off-your-high-heels laughter along the way. Using Colossians 1:9-12 as a springboard, Rhonda takes women on a fun adventure infused with practical spiritual truth about what it means to walk worthy before God. This unique and hilarious exploration is perfect for the "shoe overachiever" in all of us. It makes a great gift for the woman who has it all (and just doesn't have enough closet space to store it), or can be an enlightening small group resource.

A proven system for improving your own work and for working better in a team Used by such organizations as the Walt Disney Company, Silicon Graphics, the Federal Reserve Bank, and the

CIA, the Enneagram is a proven psychological system based on nine number types that helps people achieve self-awareness and develop strategic approaches to interpersonal interactions. In *Bringing Out the Best in Yourself at Work*, Enneagram teacher and business consultant Ginger Lapid-Bodga shows professionals how to apply this popular tool to their work as a way to improve their productivity and help them build positive relationships among coworkers. This

practical guide explains how to use the Enneagram to: Communicate more effectively Provide constructive feedback Prevent and resolve conflict Bring out their strongest leadership skills Discover methods for professional development Work better in teams **Cisco OSPF Command and Configuration Handbook** House of Collectibles Bestselling author David Augsburg explains and advocates for a tri-polar spirituality--Christian life

and energy centered on God, care of neighbor, and care of self. Caterpillar 3406e Service Shop Manual 5ek 6ts Cat Haynes Publishing The definitive book on steak has never been written-until now "Of all the meats, only one merits its own structure. There is no such place as a lamb house or a pork house, but even a small town can have a steak house." So begins Mark Schatzker's ultimate carnivorous quest. Fed up with one too many mediocre steaks, the

intrepid journalist set out to track down, define, and eat the perfect specimen. His journey takes him to all the legendary sites of steak excellence-Texas, France, Scotland, Italy, Japan, Argentina, and Idaho's Pahsimeroi Valley-where he discovers the lunatic lengths steak lovers will go to consume the perfect cut. After contemplating the merits of Black Angus, Kobe, Chianina, and the prehistoric aurochs-a breed revived by the Nazis after four hundred years of extinction-

Schatzker adopts his own heifer, fattens her on fruit, acorns, and Persian walnuts, and then grapples with ambivalence when this near-pet appears on his plate. Reminiscent of both Bill Bryson's and Bill Buford's writing, *Steak* is a warm, humorous, and wide-ranging read that introduces a wonderful new travel and food writer to the common table.
