Nine-year-old Ron loves going to the Lake City Public Library to look through all the books on airplanes and flight. Today, Ron is ready to take out books by himself. But in the segregated world of South Carolina in the 1950s, Ron's obtaining his own library card is not just a small rite of passage—it is a young man's first courageous mission. Here is an inspiring story, based on Ron McNair's life, of how a little boy, future scientist, and Challenger astronaut desegregated his library through peaceful resistance. *Words and Actions* Random House Books for Young Readers How can we talk about World Literature if we do not actually examine the world as a whole? Research on World Literature commonly focuses on the dynamics of a western center and a southern periphery, ignoring the fact that numerous literary relationships exist beyond these established constellations of thinking and reading within the Global South. Re-Mapping World Literature suggests a different approach that aims to investigate

new navigational tools that extend beyond the known poles and meridians of current literary maps. Using the example of Latin American literatures, this study provides innovative insights into the literary modeling of shared historical experiences, epistemological crosscurrents, and book market processes within the Global South which thus far have received scant attention. The contributions to this volume, from renowned scholars in the fields of World and Latin American literatures, assess travelling aesthetics and genres, processes of translation and circulation of literary works, as well as the complex epistemological entanglements and shared worldviews between Latin America, Africa and Asia. A timely book that embraces highly innovative perspectives, it will be a must-read for all scholars involved in the field of the global dimensions of literature.

Ana loves stories. She often makes them up to help her little brother fall asleep. But in her small village there are only a few books and she has read them all. One morning, Ana wakes up to the clip-clop of hooves, and there before her, is the most wonderful sight: a traveling library resting on the backs of two burros—all the books a little girl could dream of, with enough stories to encourage her to create one of her own. Inspired by the heroic efforts of real-life librarian Luis Soriano, award-winning picture book creators Monica Brown and John Parra introduce readers to the mobile library that journeys over mountains and through valleys to bring literacy and culture to rural Colombia, and to the children who wait for the BiblioBurro. A portion of the proceeds from sales of this book was donated to Luis Soriano's BiblioBurro program.

The ideas Albert Einstein came up with during his childhood as an odd boy out were destined to change the way we know and understand the world around us . . . *The Lonely Book* Penguin

But the author/artist outdoes himself: the library-after-dark setting works a magic all its own, taking Lies and his audience to an intensely personal place."—Publishers Weekly (starred review) "The rhymed narrative serves primarily as the vehicle for the appealing acrylic illustrations that teem with bats so charming they will even win over chiroptophobes."—Booklist "There is enough merriness here to keep the story bubbling . . . Pictures light-handedly capture the Cheshire Bat, Winnie the Bat and Little Red Riding Bat."—Kirkus Reviews

Learn the story of TIME PERSON OF THE YEAR Greta Thunberg, the sixteen-year-old climate activist who has sparked a worldwide student movement and is demanding action from world leaders who refuse to address climate change—from acclaimed picture book creator Jeanette Winter. I don't want you to be hopeful. I want you to panic...I want you to act as if our house is on fire. Because it is. When she was fifteen years old, Greta Thunberg's teacher explained to her class that our climate is changing—the earth is getting warmer, the polar ice caps are melting, and life on earth is threatened. Greta was devastated. What could she do? If the grown-ups weren't doing enough to save the planet, Greta would have to demand change herself. So she went on strike, skipping school every Friday to sit outside of the Swedish Parliament building with a sign that read "School Strike for Climate." At first, Greta was the only one. But gradually, more and more students joined her, until her lone protest had sparked a worldwide student movement for action on climate change. Now, a year later, Greta is speaking to audiences of world leaders at important meetings like the United Nations Climate Conference and the World Economic Forum. She is leading the conversation on climate change and sparking worldwide conversation on how to save our planet. Greta is showing everyone that even the smallest person can make a big difference, and this picture book informs and inspires young readers who are beginning to learn about the world around them.

They can be canvases for artmaking; opportunities to shape a community." —The Horn Book "This story of urban renewal sends a welcome double message by Verde: neighbors and neighborhoods are more than the way they look, and ordinary people can band together to transform big things." —Publishers Weekly A boy takes on a community art project in order to make his neighborhood more beautiful in this empowering and inspiring picture book by Susan Verde, stunningly illustrated by award-winning artist John Parra. One creative boy. One bare, abandoned wall. One BIG idea. There is a wall in Ángel's neighborhood. Around it, the community bustles with life: music, dancing, laughing. Not the wall. It is bleak. One boy decides to change that. But he can't do it alone. Told in elegant verse by Susan Verde and vibrantly illustrated by John Parra, this inspiring picture book celebrates the power of art to tell a story and bring a

community together.

**Bronco and Friends: A Party to Remember** Tricycle Press From today's vantage point it can be denied that the confidence in the abilities of globalism, mobility, and cosmopolitanism to illuminate cultural signification processes of our time has been severely shaken. In the face of this crisis, a key concept of this globalizing optimism as World Literature has been for the past twenty years necessarily is in the need of a comprehensive revision. World Literature, Cosmopolitanism, Globality: Beyond, Against, Post, Otherwise offers a wide range of contributions approaching the blind spots of the globally oriented Humanities for phenomena that in one way or another have gone beyond the discourses, aesthetics, and political positions of liberal cosmopolitanism and neoliberal globalization. Departing basically (but not exclusively) from different examples of Latin American literatures and cultures in globalized contexts, this volume provides innovative insights into critical readings of World Literature and its related conceptualizations. A timely book that embraces highly innovative perspectives, it will be a mustread for all scholars involved in the field of the global dimensions of literature.
