The Legacy of Apollo Bethany House

This book explores the relationship between nineteenth-century poetry and liberal philosophy. It carries out a reassessment of the aesthetic possibilities of liberalism and it considers the variety of ways that poetry by William Wordsworth, Elizabeth Barrett Browning, Arthur Hugh Clough, George Meredith, Robert Browning, Matthew Arnold and Algernon

Charles Swinburne responds to and participates in urgent philosophical, social and political debates about liberty and the rule of law. It provides an account of poetry's intervention into four different sites where liberalism has a stake: the self, the university, married life and the nation state and it seeks to assert the peculiar capacity of poetry to articulate liberal concerns, proposing poetic language as a means of liberal enquiry. *The Best Novels of the Nineties* Rowman & Littlefield

This book addresses the complex

conceptual, historical, and philosophical questions posed by Eduard Hanslick's influential aesthetic treatise, *On the Musically Beautiful* (1854). The contributions reveal the philosophical foundations and subtleties of his aesthetic approach. The collection features original essays written by leading scholars in philosophical aesthetics and musicology. It covers many of Hanslick's overarching themes, such as the relationship between beauty and form, between music and emotion, and the role of imagination and performance in music, which have recently

gained prominence in Hanslick scholarship. The chapters, divided into five thematic sections, will provide a better scholarly foundation for a deeper understanding of *On the Musically Beautiful* and its arguments. In bringing together the various approaches and accounts of the different textual, historical, conceptual, and philosophical challenges posed by Hanslick's aesthetics, *The Aesthetic Legacy of Eduard Hanslick* will appeal to philosophers of music, historians of aesthetics, musicologists specializing in 19th-century studies, and music theorists working on aesthetic issues.

This book is a 3-volume record of life and work of one of Britain's greatest leaders of

all times William Ewart Gladstone (1809-1898). Gladstone was a British statesman and Liberal politician who, in a career lasting over 60 years, served for 12 years as Prime Minister of the United Kingdom, spread over four terms beginning in 1868 and ending in 1894. He also served as Chancellor of the Exchequer four times, serving over 12 years. Gladstone's own political doctrine – which emphasized equality of opportunity and opposition to trade protectionism – came to be known as Gladstonian liberalism. His popularity amongst the working-class earned him the sobriquet "The People's William". In 1868, Gladstone became Prime Minister for the first time. Many reforms were passed during his first ministry, including the disestablishment of the Church of Ireland and the introduction of secret voting. After electoral defeat in 1874, Gladstone resigned as leader of the Liberal Party. After the 1880 general election, Gladstone formed his second ministry (1880-1885), which saw the passage of the Third Reform Act as well as crises in Egypt and Ireland, where his government passed repressive measures but also improved the legal rights of Irish

tenant farmers. Back in office in early 1886, Gladstone proposed home rule for Ireland but was defeated in the House of Commons. The resulting split in the Liberal Party helped keep them out of office – with one short break – for 20 years. Gladstone formed his last government in 1892, at the age of 82. The Government of Ireland Bill 1893 passed through the Commons but was defeated in the House of Lords in 1893. Gladstone left office in March 1894, aged 84, as both the oldest person to serve as Prime Minister and the only Prime Minister to have served four terms.

*Religion and Wittgenstein's Legacy* BRILL  
Wittgenstein was one of the greatest philosophers of the twentieth century. In this collection, distinguished Wittgenstein scholars examine his legacy for the philosophy of religion by examining key areas of his work: Wittgenstein's *Tractatus*; Frazer's 'Golden Bough'; and the implications of his later philosophy for the understanding of religion.

Assessments are also provided of the philosophical and theological reception of his work. The collection provides an invaluable resource for graduate and undergraduate teaching of Wittgenstein in

relation to religion.

Offering a synthetic overview of sound studies, the book dismantles the oculo-centrism and retinal paradigms of francophone postcolonial studies. It introduces two primary theoretical thrusts - the unheard and the unintegrated - to the project of analyzing, extending, and rejuvenating francophone postcolonial studies."--OCLC OLUC.

Early Interracial Oneness Pentecostalism is a look at what is perhaps the least-known chapter in the history of American Pentecostalism. The study of the first thirty years of Oneness Pentecostalism (1901-31) is especially relevant due to its unparalleled interracial commitment to an all-flesh, all-people, counter-cultural Pentecost. This in-depth study details the lives of its earliest primary architects, including G. T. Haywood, R. C. Lawson, J. J. Frazee, and E. W. Doak, and the emergence of Oneness Pentecostalism

and its flagship organization, Pentecostal Assemblies of the World. This is a one-of-a-kind history of Pentecostalism, through the lens of the Jesus' Name movement and the interracial struggles of the period, interlinking the significance of Charles Parham, William Seymour and the Azusa Street revival, COGIC, the newly formed Assemblies of God, and dozens of the earliest Oneness organizational bodies. Exploration of the significance of the role of African American Indianapolis leader G. T. Haywood is central, as are the development of the movement's key centers in the United States and the ultimate loss of interracial unity after more than thirty years. These crucial events marked, indelibly, the U.S., the global missionary, and the autochthonous expansion of Oneness Pentecostalism worldwide.

'Manufactured' Masculinity should be considered essential reading for scholars in the humanities and social sciences at every level and in all parts of the academic world. It weaves together brilliantly the elements of the 'manufacture' of masculinity in the period world-famous 'public' school system for the privileged which serviced the largest empire, the world has ever known, at the zenith of its control and which has had a significant influence in the formation of the modern world. This authoritative study of the making of British imperial masculinity shines light on the period of Muscular Christianity, Social Darwinism and Militarism as meshed ideological instruments of both power and persuasion. This magisterial study reveals the extraordinary and paramount influence of

games fields as the 'machine tools' in an 'industrial process' with the schools as 'workshops' containing 'cultural conveyor-belts' for the production of robust, committed and confident servants of empire, and templates for imperial reproduction in imperial possessions. Mainly on efficient 'production belt' playing fields of the privileged minds were moulded, attitudes were constructed and bodies shaped - for imperial manhood. Earlier 'manliness' was metamorphosized, morality was redefined and militarism at the high point of imperial grandeur was an adjunct. Professor Mangan outlines this unique process of cultural conditioning with a unique range of evidence and analysis. This book was published as a special double issue of the International Journal of the History of Sport.

**The Politics Of Interests** Routledge  
In her in-depth study of Harriet Martineau's writings on the evolution of the British Empire in the nineteenth century, Deborah A. Logan elaborates the ways in which Martineau's works reflect Victorian concerns about radically shifting social ideologies. To understand Martineau's interventions into the Empire

Question, Logan argues, is to recognize her authority as an insightful political commentator, historian, economist, and sociologist whose eclectic studies and intellectual curiosity positioned her as a shrewd observer and recorder of the imperial enterprise. Logan's primary sources are Martineau's nonfiction works, particularly those published in periodicals, complemented by telling references from Martineau's didactic fiction, correspondence, and autobiography. Key texts include History of The Peace; Letters from Ireland and Endowed Schools of Ireland; Illustrations of Political Economy; Eastern Life, Present and Past; and History of British Rule in India and Suggestions for the Future Rule of India. Logan shows Martineau negotiating the inevitable conflict that arises when the practices of Victorian imperialism are measured against its own stated principles, and especially against Martineau's idea of both the Civilizing Mission and the indigenous cultural integrity often compromised in the process. The picture of Martineau that emerges is complex and fascinating. Both an advocate and a critic of British imperialism, Martineau was a persistent

champion of the Civilizing Mission. Written with an awareness that she was recording contemporary history for future generations, Martineau's commentary on this perpetually fascinating, often tragic, and always instructive chapter in British and world history offers important insights that enhance and complicate our understanding of imperialism and globalization.

What is social reality for men in modern society? What maintains or explains this social reality? What condition might we imagine that would be better for men? How might we achieve this better condition? These are the questions Kenneth Clatterbaugh brings to seven different visions of men in modern society considered in this newly updated edition. In clear and insightful language, Clatterbaugh surveys not just conservative, liberal, and radical views of masculinity, but also the alternatives offered by the men's rights movement, spiritual growth advocates, and black and gay rights activists. Each of these is

explored both as a theoretical perspective and as a social movement, and each offers distinctive responses to the questions posed. The first edition of this book was the first to survey the range of responses to feminism that men have made as well as the first to put political theory at the center of men's awareness of their own masculinity. This new edition adds chapters on recent highly-publicized movements such as the Promise Keepers, Million Man March, and the evolution of gay men's rights. Clatterbaugh treats all views with fairness and timeliness as he develops and defends a vision of men and masculinity consistent with feminist ideals and a just society.

The Dramatic Conclusion to Michael Phillips's *Shetland Islands Saga* Loni Ford's unexpected inheritance of substantial real estate--not to mention a title--in the Shetland Islands has caused more than a stir in the quiet fishing hamlet of Whales Reef. How is life ever to be the same with an outsider--and a woman, at that--playing such a pivotal role in the life of this conservative community? But it isn't just the locals who have deep misgivings about the current situation. Loni herself never imagined this in her wildest dreams. What Loni is more sure of, however, is that she is falling in love--with Whales Reef, with its hardy people, with its simple, peaceful way of life, and with local chieftain David Tulloch, whose inheritance she has usurped, at least in the eyes of some. But life in Whales Reef is not without drama. Deep rifts exist between certain lifelong residents, and when one local resident turns up dead, suspicion is cast in the

direction of the island's most prominent family. How Loni and David deal with this challenge will go a long way in determining their future, and that of the quaint island community.

This volume, in *Studies in the Social and Cultural History of Modern Warfare* series, examines how France, Belgium and the Netherlands emerged from the military collapse and humiliating Nazi occupation they suffered during the Second World War. Rather than traditional armed conflict, the human consequences of Nazi policies were resistance, genocide and labour migration to Germany. Pieter Lagrou offers a genuinely comparative approach to these issues, based on extensive archival research; he underlines the divergence between ambiguous experiences of occupation and the univocal post-war patriotic narratives which followed. His book reveals striking differences in political cultures as well as close convergence in the creation of a common Western European discourse, and uncovers disturbing aspects of the aftermath of the war, including post-war

antisemitism and the marginalisation of resistance veterans. Brilliantly researched and fluently written, this book will be of central interest to all scholars and students of twentieth-century European history.

Hans Jonas (1903-1993) was one of the most creative and original Jewish thinkers of the twentieth-century. This volume offers a retrospective of Jonas's life and works by bringing together historians of modern Germany, Judaica scholars, philosophers, bioethicists, and environmentalists to reflect on the meaning of his legacy today. From a historian of religions, who wrote a path-breaking monograph on Gnosticism, Jonas turned to the philosophy of nature, extending his existential philosophy and phenomenological analysis to include all forms of life. Unique among twentieth-century Jewish philosophers, Jonas argued for the possibility of a genuinely symbiotic relationship between humanity and nature, which he believed had been suppressed by modern technology. Jonas spoke against the human domination of

nature on the basis of Jewish sources, especially the Bible and Lurianic Kabbalah, and he was among the first to define the ethical challenges that modern technology poses to humanity.

Pentecostalism is one of the largest and fastest growing religious movements around the world. Yet, the movement's defining doctrine has met with controversy and criticism since its inception. Classical Pentecostals have not only affirmed and valued the experience of speaking in other tongues, they have argued that such an experience is the first evidence of a Christian having reached a level of spiritual empowerment they call Baptism in the Holy Spirit. That speaking in an unknown language should be considered by many Pentecostals to be a normative and uniform right of passage for all Christians is interesting. That such a controversial doctrine could rise to take such a prominent role in defining and shaping the Pentecostal movement begs

further historical and social study. This work charts the development of the doctrine from a small community in the Midwest to become a norm for Pentecostal identity and a hallmark of Pentecostal

experience around the world. Then, through an empirical study of ministers in three Pentecostal denominations, the work explores the current beliefs of practices of

Pentecostals regarding the doctrine of initial evidence in order to form some conclusions and proposals about the future of the doctrine among classical Pentecostals.
