As the cultural and ideological foundations of imperial Russia were threatened by forces of modernity, an array of Orthodox churchmen, theologians, and lay thinkers turned to asceticism, hoping to ensure the coming Kingdom of God promised to the Russian nation.

*Operator and Organizational Maintenance Manual* Penguin Random House India Private Limited

Making use of the formerly secret archives of the Soviet government, interviews, and first-hand personal experiences, Nathaniel Davis describes how the Russian Orthodox Church hung on the brink of institutional extinction twice in the past sixty-five years. In 1939, only a few score widely scattered priests were still functioning

openly. Ironically, Hitler's invasion and Stalin's reaction to it rescued the church -- and parishes reopened, new clergy and bishops were consecrated, a patriarch was elected, and seminaries and convents were reinstated. However, after Stalin's death, Khrushchev resumed the onslaught against religion. Davis reveals that the erosion of church strength between 1948 and 1988 was greater than previously known and it was none too soon when the Soviet government changed policy in anticipation of the millennium of Russia's conversion to Christianity. More recently, the collapse of communism has created a mixture of dizzying opportunity and daunting trouble for Russian Orthodoxy. The newly revised and updated edition addresses the tumultuous events of recent years, including schisms in Ukraine, Estonia, and Moldova, and confrontations between church traditionalists, conservatives and reformers. The author

also covers battles against Greek-Catholics, Roman Catholics, Protestant evangelists, and pagans in the south and east, the canonization of the last Czar, the church's financial crisis, and hard data on the slowing Russian orthodox recovery and growth. Institutional rebuilding and moral leadership now beckon between promise and possibility. *Ruler Personality Cults from Empires to Nation-states and Beyond* Reaktion Books In the sixteenth and seventeenth centuries, Russians from all ranks of society were bound together by a culture of honor. Here one of the foremost scholars of early modern Russia explores the intricate and highly stylized codes that made up this culture. Nancy Shields Kollmann describes how these codes were manipulated to construct identity and enforce social norms—and also to defend against insults, to pursue vendettas, and to unsettle communities. She offers

evidence for a new view of the relationship of state and society in the Russian empire, and her richly comparative approach enhances knowledge of statebuilding in premodern Europe. By presenting Muscovite state and society in the context of medieval and early modern Europe, she exposes similarities that blur long-standing distinctions between Russian and European history. Through the prism of honor, Kollmann examines the interaction of the Russian state and its people in regulating social relations and defining an individual's rank. She finds vital information in a collection of transcripts of legal suits brought by elites and peasants alike to avenge insult to honor. The cases make clear the conservative role honor played in society as well as the ability of men and women to employ this body of ideas to address their relations with one another and with the state. Kollmann demonstrates that the grand princes—and later the tsars—tolerated a surprising degree of local autonomy throughout their rapidly expanding realm. Her work marks a stark contrast with traditional Russian historiography, which exaggerates the power of the state and downplays the volition of society.

*Language and Culture in Eighteenth-century Russia* Claude Davis

Collection of 58 hymns by St. Symeon.

COVID-19 and the Global Predators

Notable & Academic Book

Inhaltsverzeichnis: Symbolic patterns and interactional dynamics in ruler personality cults : state of the art and open questions / Kirill Postoutenko and Darin Stephanov -- "Personality cults" : the career of the contested notion / Dmitri Zakharine -- The mechanisms of cult production : an overview / Xavier Marquez -- Making the cult of personality from bottom up : the case of seventeenth-century Mughal India / Ali Anooshahr -- A personality cult against one's will? Traits and trajectories of popular veneration of Emperor Alexander I (r. 1801-1825) / Darin Stepanov -- Of death and dominion : Queen Victoria and the cult of colonial loyalty / John Plunkett -- The magic mirror : supplicant letters and the role of false equivalences in shaping ruler dominance / Eva Giloi -- Father of the people, face of the nation : continuities and splits in premodern foundations of modern ruler personality cults / Alexey Tikhomirov -- The image of Josip Broz Tito in post-Yugoslavia : between national and local memory / Tamara Trošt -- Deification, canonization and random signaling : upholding and sustaining personality cults / Kirill Postoutenko -- 'We thank you, our beloved leader!' the origins and evolution

of Nicolae Ceaușescu's cult of personality / Manuela Marin -- Embodied practices of leadership : the case of Recep Tayyip Erdoğan / Charlotte Joppien -- Symbolic patterns and interactional dynamics in ruler personality cults : responding to questions and formulating ideas for future research / Kirill Postoutenko and Darin Stephanov.

*Reading in Russia* FM 21-11 First Aid for Soldiers FM 21-11 1943: Basic field manual, first aid for soldiers.(OBSOLETE) "The purpose of this manual is to teach the soldier what he can do for himself or a fellow soldier if injury or sickness occurs when no medical officer or Medical Department soldier is nearby. Information is also given concerning the use of certain supplies which are for the purpose of helping to keep well. This field manual addresses wounds, fractures/dislocations/sprains, common emergencies and health measures, effects of severe cold and heat, measures for use in the jungle/tropics and in aircraft and tank injuries, transportation of sick and injured, war gases, and description and uses of first-aid kits and packets. Icon and Devotion

This uniquely organized text gives both students and working professionals graphically detailed assistance in understanding the underlying principles of die design, illustrating how these basic engineering principles are easily adapted to a limitless variety of die designs. It divides the design of each die into a series of easy-to-follow steps and illustrates each step in pictorial view and as a portion of an engineering drawing. Materials, punches, die sets, stops, strippers, gages, pilots and presses are covered.

*The Army Maintenance Management System (TAMMS)*. CRC Press

Military demolitions are the destruction by fire, water, explosive, and mechanical means of areas, structures, facilities, or materials to accomplish a military objective. The U.S. Army Explosives and Demolitions Handbook is a guide to the use of explosives in the destruction of military obstacles from the Department of the U.S. Army. This guide includes information on types, characteristics, and uses of explosives and auxiliary equipment; preparation, placement, and firing of charges; safety precautions; handling, transportation, and storage of explosives; deliberate and hasty demolition methods; and much more. Applicable to nuclear and nonnuclear warfare, and having offensive and defensive uses, the knowledge one will come away with from reading this handbook is invaluable.

**Marine Crewman's Handbook** BRILL

"This book is a concise summary of the results of orthodox medical research into vaccines and their effects. It aims to inform medical professionals, parents of small children and the general public about short and long-term dangerous side-effects, including brain damage and death, of vaccines ..." Publisher  
*Instrumentation and Control, 3rd Ed. (M2)* American Water Works Association  
The only book that explores the vaccination issue from political, ethical, psychological, aesthetic, and spiritual perspectives. Using principles of general semantics to recognize propaganda, particularly medical propaganda, it points to the power of the media to create our reality. James suggests an unusual consciousness-raising plan of action to insure freedom of choice and non-harrassment of persons who choose to stay off the vaccine bandwagon. The author's controversial position is supported throughout the book by the scientific discoveries of researchers who have received little recognition in orthodox medical literature. This new, completely revised edition shows: how vaccinations damage the immune and nervous systems, the vaccine-drug-AIDS connection, how to become propaganda-proof, and how to develop new paradigms of health and preventive medicine.

**Warfare, State and Society on the Black Sea Steppe, 1500-1700**

Routledge

By ignoring gender issues, historians have failed to understand how efforts to control women—and women's reactions to these efforts—have shaped political and social institutions and thus influenced the course of Russian and Soviet history. These original essays challenge a host of traditional assumptions by integrating women into the Russian past. Using recent advances in the study of gender, the family, class, and the status of women, the authors examine various roles of Russian women and offer a broad overview of a vibrant and growing field.

**Beyond the Monastery Walls** PHI Learning Pvt. Ltd.

A dazzling work of intellectual history by a world-renowned scholar, spanning the years from Peter the Great to the fall of the Soviet Union, this book gives us a clear and sweeping view of Russia not as an eternal barbarian menace but as an outermost, if laggard, member in the continuum of European nations.  
*Hymns of Divine Love* Harvard University Press

This crucial period in Russia's history has been neglected by historians, but Brian Davies' study provides an essential insight

into the emergence of Russia as a great power.

**Equipment Data Sheets for TACOM Special Purpose Equipment**

Praeger Zhivov's magisterial work tells the story of the creation of a new vernacular literary language in modern Russia, an achievement arguably on a par with the nation's extraordinary military successes, territorial expansion, development of the arts, and formation of a modern empire.

**Empowering Women** Routledge

Explores the role played by Athos in the spread of Orthodoxy and Orthodox monasticism throughout Eastern Europe and beyond.

**Armour** Cornell University Press

From its beginnings as a humble dirt path to its current status as the epicenter of global finance, Wall Street has seen it all.

In this captivating narrative, Frederick Trevor Hill chronicles the street's rich history, from the arrival of the Dutch in the 1600s to the infamous Panic of 1907.

Along the way, he sheds light on the key players, events, and scandals that helped shape the world's financial capital. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

**Organizational Preventive Maintenance: Maintenance** Industrial Press Inc.

Straddling Europe and Asia, the Russian Federation is the largest country in the world and home to a panoply of religious and ethnic groups from the Muslim Tatars to the Buddhist Buryats. Over the past 40

years, Russia has experienced the most dramatic transformation of any modern state. The second edition of Historical Dictionary of the Russian Federation provides insight into this rapidly developing country. This volume includes coverage of pivotal movements, events, and persons in the late Soviet Union (1985-1991) and contemporary Russia (1991-present). This second edition of Historical Dictionary of the Russian Federation contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Russia.

**Sources of Slavic Pre-Christian Religion** University of Wisconsin Press

In Sources of Slavic Pre-Christian Religion Juan Antonio Álvarez-Pedrosa presents all known medieval texts that provide us with information about the religion practiced by the Slavs before their Christianization.

**U.S. Army Explosives and Demolitions Handbook** Simon and Schuster

FM 21-11 1943: Basic field manual, first aid for soldiers. (OBSOLETE) "The purpose of this manual is to teach the soldier what he can do for himself or a fellow soldier if injury or sickness occurs when no medical officer or Medical Department soldier is nearby. This field manual addresses wounds, fractures/dislocations/ sprains, common emergencies and health measures, effects of severe cold and heat, measures for use in the jungle/tropics and in aircraft and tank injuries, transportation of sick and injured, war gases, and description and uses of first-aid kits and packets.

**ELEMENTS OF MANUFACTURING PROCESSES** Ledizioni

This comprehensive introduction to basic manufacturing processes is ideal for both

degree and diploma courses in engineering. With several pedagogical features, the text makes the topics understandable and appealing for students. The book first introduces the concepts of engineering materials and their properties, measurement and quality in manufacturing and allied activities before dwelling upon the details of different manufacturing processes such as machining, casting, metal forming, powder metallurgy and joining. To keep pace with the latest advancements in technology, use of non-conventional resources, applications of computers, and use of robots in manufacturing are also discussed in considerable detail. The text also provides a thorough treatment of topics on economy and management of production.

**Operator and Organizational Maintenance Manual (including Repair Parts and Special Tool Lists)** Rowman & Littlefield

Icon and Devotion offers the first extensive presentation in English of the making and meaning of Russian icons. The craft of icon-making is set into the context of forms of worship that emerged in the Russian Orthodox Church in the mid-seventeenth century. Oleg Tarasov shows how icons have held a special place in Russian consciousness because they represented idealized images of Holy Russia. He also looks closely at how and why icons were made. Wonder-working saints and the leaders of such religious schisms as the Old Believers appear in these pages, which are illustrated in halftones with miniature paintings, lithographs and engravings never before published in the English-speaking world. By tracing the artistic vocabulary, techniques and working methods of icon painters, Tarasov shows how icons have been integral to the history of Russian art, influenced by folk and mainstream currents alike. As well as articulating the specifically Russian piety they invoke, he analyzes the significance of icons in the cultural life of modern Russia in the context of popular prints and poster design.
