"Enter a grave new world of fascination and delight as award-winning writer Peter Ross uncovers the stories and glories of graveyards. Who are London's outcast dead and why is David Bowie their guardian angel? What is the remarkable truth about Phoebe Hessel, who disguised herself as a man to fight alongside her sweetheart, and went on to live in the reigns of five monarchs? Why is a Bristol cemetery the perfect wedding venue for goths? All of these sorrowful mysteries - and many more - are answered in *A Tomb With A View*, a book for anyone who has ever wandered through a field of crooked headstones and wondered about the lives and deaths of those who lie beneath"--Publisher's description.

From the earliest memorials used by Native Americans to the elaborate structures of the present day, Richard Veit and Mark Nonestied use grave markers to take an off-beat look at New Jersey's history that is both fascinating and unique. *New Jersey Cemeteries and Tombstones* presents a culturally diverse account of New Jersey's historic burial places from High Point to Cape May and from the banks of the Delaware to the ocean-washed Shore, to explain what cemeteries tell us about people and the communities in which they lived. The evidence ranges from somber seventeenth-century decorations such as hourglasses and skulls that denoted the brevity of colonial life, to modern times where memorials, such as a life-size granite Mercedes Benz, reflect the materialism of the new millennium. Also considered are contemporary novelties such as pet cemeteries and what they

reveal about today's culture. To tell their story the authors visited more than 1,000 burial grounds and interviewed numerous monument dealers and cemetarians. This richly illustrated book is essential reading for history buffs and indeed anyone who has ever wandered inquisitively through their local cemeteries.

The blogger behind *Confessions of a Funeral Director*—what *Time* magazine called a "must read"—reflects on mortality and the powerful lessons death holds for every one of us in this compassionate and thoughtful spiritual memoir that combines the humor and insight of *Smoke Gets in Your Eyes* with the poignancy and brevity of *When Breath Becomes Air*. We are a people who deeply fear death. While humans are biologically wired to evade death for as long as possible, we have become too adept at hiding from it, vilifying it, and—when it can be avoided no longer—letting the professionals take over. Sixth-generation funeral director Caleb Wilde understands this reticence and fear. He had planned to get as far away from the family business as possible. He wanted to make a difference in the world, and how could he do that if all the people he worked with were . . . dead? Slowly, he discovered that caring for the deceased and their loved ones was making a difference—in other people's lives to be sure, but it also seemed to be saving his own. A spirituality of death began to emerge as he observed: The family who lovingly dressed their deceased father for his burial The act of embalming a little girl that offered a gift back to her grieving family The nursing home that honored a woman's life by standing in procession as her

body was taken away The funeral that united a conflicted community Through stories like these, told with equal parts humor and poignancy, Wilde offers an intimate look into the business and a new perspective on living and dying

Like other groups with dangerous occupations, mariners have developed a close-knit culture bound by loss and memory. Death regularly disrupts the fabric of this culture and necessitates actions designed to mend its social structure. From the ritual of burying a body at sea to the creation of memorials to honor the missing, these events tell us a great deal about how sailors see their world. Based on a study of more than 2,100 gravestones and monuments in North America and the United Kingdom erected between the seventeenth and late twentieth centuries, David Stewart expands the use of nautical archaeology into terrestrial environments. He focuses on those who make their living at sea--one of the world's oldest and most dangerous occupations--to examine their distinct folkloric traditions, beliefs, and customs regarding death, loss, and remembrance.

" ...] Gravestone plagiarism of this sort is very common, and there is to be found at West Ham, Essex, the same symbolical flight of the angel and child repeated as many as five times. The pilfering is not so weak and lamentable when the copyist appropriates

merely the idea and works it out in a new fashion. The term new can hardly be attributed to the notion of a plucked flower as a type of death, but it occurs in so many varieties as almost to redeem its conventionality. ...]."

In Puritan New England, with its abiding concern for things not of this world and its distrust of forms and ceremonies, one art flourished: the symbolic art of mortuary monument stonemasons. This carefully researched, beautifully illustrated work was the first to consider this art in depth as a meaningful aesthetic-spiritual expression. It is reissued for today's readers, with a new preface outlining changes in the field since the book appeared in 1966.

Burial Terminology Oxford University Press

Burial sites have long been recognized as a way to understand past civilizations. Yet, the meanings of our present day cemeteries have been virtually ignored, even though they reveal much about our cultures. Exploring an extraordinarily diverse range of memorial practice - Greek Orthodox, Muslim, Jewish, Roman Catholic and Anglican, as well as the unchurched - *The Secret Cemetery* is an intriguing study of what these places of death mean to the living. Most of us experience cemeteries at a ritualized moment of loss. What we forget is that these are often places to which we return either as a general space in which to contemplate or as a specific site to be tended. These are also places where different communities can reinforce boundaries and even recreate a sense of homeland. Over time, ritual, artefact and place shape an intensely personal landscape of memory and mourning, a landscape more alive, more actively engaged with than many of the other places we inhabit.

Kathryn Heleniak demonstrates how intimately Mulready's paintings were related to the social conditions of his time. His portrayal of blacks is linked to the abolition of slavery and to the British colonial experience; his children's genre is analysed in the light of nineteenth-century attitudes to childhood and sexuality, and in the light of Mulready's own deeply-rooted pessimism about human nature.

Funeral monuments are fascinating and diverse cultural relics that continue to captivate visitors to English churches, yet we still know relatively little about the messages they attempt to convey across the centuries. This book is a study of the material culture of memory in sixteenth and seventeenth-century England. By interpreting the images and inscriptions on monuments to the dead, it explores how early modern people wanted to be

remembered - their social vision, cultural ideals, religious beliefs and political values. Arguing that early modern English monuments were not simply formulaic statements about death and memory, Dr Sherlock instead reveals them to be deliberately crafted messages to future generations. Through careful reading of monuments he shows that much can be learned about how men and women conceived of the world around them and shifting concepts of gender, social order and the place of humans within the universe. In post-Reformation England, the dead became superior to the living, as monuments trumpeted their fame and their confidence in the resurrection. This study aims to stimulate historians to attempt to reconstruct and engage with the world view of past generations through the unique and under-utilised medium of funeral monuments. In so doing it is hoped that more light may be shed on how memory was created, controlled and contested in pre-modern society, and encourage the on-going debate about the ways in which understandings of the past shape the present and future.
